RAIDEN GAEL

Government Printing Office

This contributed volume is the first in-depth analysis of the health policies of populist radical right (PRR) parties worldwide and their actual involvement in health care. The prominence of authoritarian, nationalistic, and populist parties is expanding steadily. However, it is often difficult to discern what kind of policies they really stand for, particularly with regard to the welfare state and public health, where research remains sparse. This book fills this critical gap. The text connects PRR parties and leaders with actual health and social policy effects in Eastern and Western Europe as well as in the United States, Brazil, and the Philippines. The chapters highlight ten individual country case studies authored by young scholars and professors with political science and health experts: The Austrian Freedom Party in Government: A Threat to Public Health? The Alternative for Germany (AfD) and Health Policy: Normalization or Containment of Populist Radical Right Tendencies? Populist Radical Right Influence on Health Policy in the Netherlands: The Case of the Party for Freedom (PVV) The Evolution of the Populist Radical Right and Their Impact on Health in Italy The Populist Radical Right and Health in Hungary Is the Polish 'Law and Justice' (PiS) a Typical Populist Radical Right Party? A Health Policy Perspective The Case of the United Kingdom Independence Party (UKIP) Rhetoric and Reality in the United States of America: Trump, Populism, and Health Policy Ruling Through Chaos in Brazil: Bolsonaro's Authoritarian Agenda for Public Health An Authoritarian Reaction to COVID-19 in the Philippines: A Strong Commitment to Universal Health Care Combined with Violent Securitization The Populist Radical Right and Health is exceptionally timely and essential reading for political science and health colleagues researching and writing about PRR parties and leaders; students and faculty in public health, health and social policy, and political science; and anyone interested in learning more about this topic.

Prominent Families of New York Harvard University Press

Traces the author's 2002 journey by foot across Afghanistan, during which he survived the harsh elements through the kindness of tribal elders, teen soldiers, Taliban commanders, and foreign-aid workers whose stories he collected along his way. By the author of *The Prince of the Marshes*. Original. 20,000 first printing.

An Affair of State Encounter Books

Brilliant. Colorful. Visionary. Tenacious. Witty. Since his appointment to the Supreme Court in 1986, Associate Justice Antonin Scalia has been described as all of these things and for good reason. He is perhaps the best-known justice on the Supreme Court today and certainly the most controversial. Yet most Americans have probably not read even one of his several hundred Supreme Court opinions. In *Scalia Dissents*, Kevin Ring, former counsel to the U.S. Senate's Constitution Subcommittee, lets Justice Scalia speak for himself. This volume—the first of its kind— showcases the quotable justice's take on many of today's most contentious constitutional debates. *Scalia Dissents* contains over a dozen of the justice's most compelling and controversial opinions. Ring also provides helpful background on the opinions and a primer on Justice Scalia's judicial philosophy. *Scalia Dissents* is the perfect book for readers who love scintillating prose and penetrating insight on the most important constitutional issues of our time.

Britain and Europe at a Crossroads My Life of Faith This memoir documents the remarkable life of faith of Therese Stewart. There is much here for all of us, of whatever faith, to learn from. Her words offer inspiration and illumination for the reader's own spiritual path. The narrative portion of this volume describes the many aspects of her life of faith. The reader will learn how she faced every challenge with humility, grace, and determination. Also included in this book is a selection of letters, reflections, testimonies, and other writings, as well as numerous photographs documenting her life with family, colleagues, and friends. All in all, the collection is a veritable treasure trove waiting for

readers to open and enjoy. *Transcript of Enrollment Books* Official Congressional Directory *Transcript of the Enrollment Books* *Transcript of the Enrollment Books* *The Prince of the Marshes* "Women are the most under-represented social group in the elected assemblies of the world. Women everywhere constitute more than one-half of the population and ... rarely, are more than a handful of the political elite." The studies in this volume examine women's involvement in political parties both past and present. Empirical studies identify the roles Canadian women play in parties, the opportunities and barriers they face, and their progress toward greater representation in the political process. The questions addressed in this volume include: What are the major barriers to women's entry into federal politics? (Janine Brodie). Do large numbers of women remain confined to "pink collar" work at the expense of executive positions? (Sylvia Bashevkin). What is the impact of the candidate selection process on the election of women to the House of Commons? (Lynda Erickson). How does incumbency affect the number of women elected to federal office? (Lisa Young). What is the influence of media coverage on women in politics? (Gertrude Robinson and Armande Saint-Jean). The authors agree that the under-representation of women in politics undermines the democratic credibility of our governing institutions. Nonetheless, they are cautiously optimistic regarding the prospects for the third generation of women entering politics.

Three Felonies a Day Springer

Women represent a slight majority of Quebec's population, yet they continue to occupy a minority of seats in its National Assembly and in Canada's House of Commons and Senate. To explain why this is, Manon Tremblay examines Quebec women's political engagements from 1791 to the present. She traces the path that led to women obtaining the rights to vote and run for office and then draws on statistics and interviews with female politicians to paint an in-depth portrait of women's under-representation and its main causes. Her innovative account not only documents the significant democratic deficit in Canada's parliamentary systems, it also outlines strategies to improve women's access to legislative representation in Canada and elsewhere.

Social Conservatives and Party Politics in Canada and the United States Manchester University Press This memoir documents the remarkable life of faith of Therese Stewart. There is much here for all of us, of whatever faith, to learn from. Her words offer inspiration and illumination for the reader's own spiritual path. Congressional Record Springer Nature

An adventurous diplomat's "engrossing and often darkly humorous" memoir of working with Iraqis after the fall of Saddam Hussein (Publishers Weekly). In August 2003, at the age of thirty, Rory Stewart took a taxi from Jordan to Baghdad. A Farsi-speaking British diplomat who had recently completed an epic walk from Turkey to Bangladesh, he was soon appointed deputy governor of Amarah and then Nasiriyah, provinces in the remote, impoverished marsh regions of southern Iraq. He spent the next eleven months negotiating hostage releases, holding elections, and splicing together some semblance of an infrastructure for a population of millions teetering on the brink of civil war. *The Prince of the Marshes* tells the story of Stewart's year. As a participant he takes us inside the occupation and beyond the Green Zone, introducing us to a colorful cast of Iraqis and revealing the complexity and fragility of a society we struggle to understand. By turns funny and harrowing, moving and incisive, it amounts to a unique portrait of heroism and the tragedy that intervention inevitably courts in the modern age.

The Case for Marriage CIFOR

An author subject index to selected general interest periodicals of reference value in libraries.

Transcript of Enrollment Books UBC Press

CMH Publication 70-30. Edited by Frank N. Schubert and TheresaL. Kraus. Discusses the United States Army's role in the Persian Gulf War from August 1990 to February 1991. Shows the various strands that came together to produce the army of the 1990s and how that army in turn performed under fire and in the glare of world attention. Retains a sense of immediacy in its approach. Contains maps which were carefully researched and compiled as original documents in their own right. Includes an index.

"The average professional in this country wakes up in the morning, goes to work, comes home, eats dinner and then goes to sleep, unaware that he or she has likely committed several federal crimes that day ... Why?" This book explores the answer to the question, reveals how the federal criminal justice system has become dangerously disconnected from common law traditions of due process and the law's expectations and surprises the reader with its insight.

My Life of Faith Unbound Publishing

Acclaimed journalist Jeffrey Toobin takes us into the chambers of the most important—and secret—legal body in our country, the Supreme Court, revealing the complex dynamic among the nine people who decide the law of the land. An institution at a moment of transition, the Court now stands at a crucial point, with major changes in store on such issues as abortion, civil rights, and church-state relations. Based on exclusive interviews with the justices and with a keen sense of the Court's history and the trajectory of its future, Jeffrey Toobin creates in *The Nine* a riveting story of one of the most important forces in American life today.

[The Prince of the Marshes](#) Rowman & Littlefield

In a book written while the events were unfolding, Richard Posner presents a balanced and scholarly understanding of President Clinton's year of crisis which began when his affair with Monica Lewinsky hit the front pages in January 1998. With the freshness and immediacy of journalism, Posner clarifies the issues involved, carefully assesses the conduct of Independent Counsel Kenneth Starr, and examines the pros and cons of impeaching President Clinton as well as the major procedural issues raised by both the impeachment in the House and the trial in the Senate. This book, reflecting the breadth of Posner's experience and expertise, will be the essential foundation for anyone who wants to understand President Clinton's impeachment ordeal.

My Life of Faith

[History of the Ojibway People, Second Edition](#) HMH

A groundbreaking look at marriage, one of the most basic and universal of all human institutions, which reveals the emotional, physical, economic, and sexual benefits that marriage brings to individuals and society as a whole. The Case for Marriage is a critically important intervention in the national debate about the future of family. Based on the authoritative research of family sociologist Linda J. Waite, journalist Maggie Gallagher, and a number of other scholars, this book's findings dramatically contradict the anti-marriage myths that have become the common sense of most Americans. Today a broad consensus holds that marriage is a bad deal for women, that divorce is better for children when parents are unhappy, and that marriage is essentially a private choice, not a public institution. Waite and Gallagher flatly contradict these assumptions, arguing instead that by a broad range of indices, marriage is actually better for you than being single or divorced—physically, materially, and spiritually. They contend that married people live longer, have better health, earn more money, accumulate more wealth, feel more fulfillment in their lives, enjoy more satisfying sexual relationships, and have happier and more successful children than those who remain single, cohabit, or get divorced. The Case for Marriage combines clearheaded analysis, penetrating cultural criticism, and practical advice for strengthening the institution of marriage, and provides clear, essential guidelines for reestablishing marriage as the foundation for a healthy and happy society. "A compelling defense of a sacred union. The Case for Marriage is well written and well argued, empirically rigorous and learned, practical and commonsensical." -- William J. Bennett, author of *The Book of Virtues* "Makes the absolutely critical point that marriage has been misrepresented and misunderstood." -- *The Wall Street Journal* www.broadwaybooks.com

[The Advocate](#) Anchor

This book highlights the way in which contemporary forms of governance, policy and politics have been reframed by women "working the spaces of power". It shows how links between activism and work have generated innovations that have since become "common sense" forms of policy and practice. Janet Newman draws on interviews with a wide variety of women in positions of power, some at the highest levels of government, some who have led major voluntary bodies, others who are entrepreneurs, philanthropists, community activists and campaigners. All of their work has been informed by a range of social movements and activist commitments. Newman uses these interviews to interrogate, develop and challenge existing approaches to understanding social and political change.

Walking the Gendered Tightrope analyzes the gendered expectations for women in high offices through the examples of British Prime Minister Theresa May and U.S. Speaker of the House Nancy Pelosi. Even at their highest positions, and while completing their greatest achievements, both May and Pelosi faced gendered critiques and intraparty challenges to their leadership. While other books have analyzed the barriers to higher office that women face, this book reveals how women in positions of power are still forced to balance feminine stereotypes with the perception of power as masculine in order to prove their legitimacy. By examining intraparty dynamics, this book offers a unique comparison between a majoritarian presidential and Westminster parliamentary system. While their parties promoted Pelosi and May to highlight their progressive values, both women faced continually gendered critiques about their abilities to lead their caucuses on difficult policy issues, such as the Affordable Care Act and two Trump impeachment votes for Nancy Pelosi, or finishing Brexit for Theresa May. Grounded in the legislative literature from the United States and Britain, as well as historical accounts and personal interviews, *Walking the Gendered Tightrope* contributes to the fields of gender and politics, legislative studies, American politics, and British politics.

[Populism, Nativism, and Economic Uncertainty](#) University of Toronto Press

Cybersecurity expert Theresa Payton tells battlefield stories from the global war being conducted through clicks, swipes, internet access, technical backdoors and massive espionage schemes. She investigates the cyberwarriors who are planning tomorrow's attacks, weaving a fascinating yet bone-chilling tale of Artificial Intelligent mutations carrying out attacks without human intervention, "deepfake" videos that look real to the naked eye, and chatbots that beget other chatbots. Finally, Payton offers readers telltale signs that their most fundamental beliefs are being meddled with and actions they can take or demand that corporations and elected officials must take before it is too late. Payton reveals: How digital voting machines, voting online, and automatic registration may boost turnout but make us more vulnerable to cyberattacks. How trolls from Russia and other nations actively stroke discord among Americans in falsely-generated controversies over race relations, vaccinations, fracking, and other social issues. Whether what we have uncovered from the Mueller investigation so far is only what they wanted us to know.

Transcript of the Enrollment Books Minnesota Historical Society

This is the definitive study of the Irish general election of 2016 - the most dramatic election in a generation, which resulted in the worst electoral outcome for Ireland's established parties, the most fractionalized party system in the history of the state, and the emergence of new parties and groups. These outcomes follow a pattern seen across a number of Western Europe's established democracies in which the 'deep crisis' of the Great Recession has wreaked havoc on party systems. The objective of this book is to assess this most extraordinary of Irish elections both in its Irish and wider cross-national context. With contributions from leading scholars on Irish elections, and using a unique dataset - the Irish National Election Study 2016 - this volume explores voting patterns at Ireland's first post crisis election and it considers the implications for the electoral landscape and politics in Ireland.

Digital data collection and surveillance is pervasive and no one can protect your privacy without your help. Before you can help yourself, you need to understand the new technologies, what benefits they provide, and what trade-offs they require. Some of those trade-offs - privacy for convenience - could be softened by our own behavior or be reduced by legislation if we fight for it. This book analyzes why privacy is important to all of us, and it describes the technologies that place your privacy most at risk, starting with modern computing and the Internet.

[Manipulated](#) A&C Black

REDD+ must be transformational. REDD+ requires broad institutional and governance reforms, such as tenure, decentralisation, and corruption control. These reforms will enable departures from business as usual, and involve communities and forest users in making and implementing policies that affect them. Policies must go beyond forestry. REDD+ strategies must include policies outside the forestry sector narrowly defined, such as agriculture and energy, and better coordinate across sectors to deal with non-forest drivers of deforestation and degradation. Performance-based payments are key, yet limited. Payments based on performance directly incentivise and compensate forest owners and users. But schemes such as payments for environmental services (PES) depend on conditions, such as secure tenure, solid carbon data and transparent governance, that are often lacking and take time to change. This constraint reinforces the need for broad institutional and policy reforms. We must learn from the past. Many approaches to REDD+ now being considered are similar to previous efforts to conserve and better manage forests, often with limited success. Taking on board lessons learned from past experience will improve the prospects of REDD+ effectiveness. National circumstances and uncertainty must be factored in. Different country contexts will create a variety of REDD+ models with different institutional and policy mixes. Uncertainties about the shape of the future global REDD+ system, national readiness and political consensus require flexibility and a phased approach to REDD+ implementation.
