The fabulous XIT Ranch has been
celebrated in song, story, and serious
history. This book of reminiscences of old
XIT cowmen puts on record the everyday
life of the individuals who made the ranch
run. During her years as a ranch wife,
Cordia Sloan Duke wrote a diary; excerpts
from her written recordings are here
brought together with the reminiscences
of the ranch hands. Their forthright, yet
picturesque, discussion of ranching
hardships and dangers dissipates
Hollywood and TV glamorizing, and
instead they relate in honest cowboy

language what actually happened inside
the XIT's 6,000 miles of fence. "Joe Frantz,
one of Texas' most able writers, has taken
the diary of Mrs. Cordia Sloan Duke, widow
of XIT's division manager, plus the terse
and pithy reminiscences she collected
from former XIT cowboys, and turned
them into a unique, readable and realistic
account of the cowboy's way of
life."—New York Times Book Review "This
book, with all the merit of being an
organized and beautifully presented story,
is more than a social history; it is source
material, resting on the firm bedrock of
first-hand accounts. Hence, while it joins in

many libraries and collections several shelves of other cowboy books, it will always be on the top shelf with a select few that have made real contributions to the history of the American West. As a man should be measured by his own standards, and an event in terms of its own time, a book should be evaluated in relation to its purpose. By this standard, as well as by comparison with other books in its library classification, 6,000 Miles of Fence is a success.”—Southwestern Historical Quarterly

The title of the book says it all. The Be-Know-Do of Generalship. Generalship is possibly one of the most difficult words to define. It is leadership with a difference that demands varied skills from the very basic to the most sophisticated. It is a position of responsibility like none other. It demands making decisions in the most complex environment pregnant with VUCA character. It carries with its position the heavy weight of values and expectations that have come to characterise military leadership since millennium. A General is the face of the system, is always naked and always under scrutiny by soldiers who

expect him to be God like. The book is laid out in two parts. Part I, comprising six chapters covers every aspect of Generalship in a ‘self-help’ easy to assimilate style to develop oneself to be an inspiring General relevant for the future. Part II, comprising Chapter VII is an honest and a dispassionate appraisal of the Indian military leadership since independence. It makes a convincing case to address the existing institutional shortcomings with respect to Generalship and their selection in the Indian Army with de-novo recommendations not heard before. This book is a product of the author’s four decades of passion and dedication to the profession of soldiery and the art of military leadership. It is an excellent tutor to BE the General you should be, to KNOW what you should know and to DO what you should do to be future ready and leave a legacy worth remembering. A unique book on the subject, it is a must read for officers of all service groups in any vocation, not only the uniformed services. This book is a ready recipe for those who aspire to lead with a difference.

Structuring Sense explores the difference between words however defined and structures however constructed. It sets out

to demonstrate over three volumes that the explanation of linguistic competence should be shifted from lexical entry to syntactic structure, from memory of words to manipulation of rules. Its reformulation of how grammar and lexicon interact has profound implications for linguistic, philosophical, and psychological theories about human mind and language. Hagit Borer departs from language specific constructional approaches and from lexicalist approaches to argue that universal hierarchical structures determine interpretation, and that language variation emerges from the morphological and phonological properties of inflectional material. *Taking Form*, the third and final volume of *Structuring Sense*, applies this radical approach to the construction of complex words. Integrating research in syntax and morphology, the author develops a new model of word formation, arguing that on the one hand the basic building blocks of language are rigid semantic and syntactic functions, while on the other hand they are roots, which in themselves are but packets of phonological information, and are devoid of both meaning and grammatical

properties of any kind. Within such a model, syntactic category, syntactic selection and argument structure are all mediated through syntactic structures projected from rigid functions, or alternatively, constructed through general combinatorial principles of syntax, such as Chomsky's Merge. The meaning of 'words', in turn, does not involve the existence of lexemes, but rather the matching of a well-defined and phonologically articulated syntactic domain with conceptual Content, itself outside the domain of language as such. In a departure from most current models of syntax but in line with many philosophical traditions, then, the Exo-Skeletal model partitions 'meaning' into formal functions, on the one hand, and Content, on the other hand. While the former are read off syntactico-semantic structures as is usually assumed, Content is crucially read off syntactico-phonological structures.

Beyond Dead End: The Solo Careers of The Dead End Kids Random House

No one exemplifies the angst of the Depression era street kid more than *The Dead End Kids*. They were the stars of Sidney Kingsley's 1935 play, *Dead End*, and reprised their roles in Samuel Goldwyn's 1937 Hollywood film version. The movie defined the theme of slum dramas for the juvenile rebellion films of subsequent decades. *The Dead End Kids* were Billy Halop, Huntz Hall, Bobby Jordan, Leo Gorcey, Gabriel Dell, and Bernard Punsly. The best of their films were the gangster movies where the boys collided with the likes of Humphrey Bogart in *Dead*

End and Crime School, James Cagney in Angels with Dirty Faces and John Garfield in They Made Me a Criminal. They banded about lightweights like Ronald Reagan in lackluster efforts like Hell's Kitchen and Angels Wash Their Faces before being reformed by a military academy in On Dress Parade. Their original reign was short-lived, not because they ran out of steam but because they had to be toned down due to criticisms. It didn't matter because The Dead End Kids mutated into several splinter groups that starred in various configurations of the original members for the next quarter century, carving out a unique niche in motion picture history. One of the uncharted tributaries of this history is the solo careers of the actors who played the Dead End Kids. There were careers of mixed blessings after the initial stardom and each member faced and dealt with the typecasting dilemma in different ways and various degrees of success. There was plenty of heartbreak and disappointment along a way that started with Dead End in 1935 and ended with Dr. Bernard Punsly's death in 2004. Joseph Fusco's Beyond Dead End: The Solo Careers of The Dead

End Kids chronicles a saga of mixed blessings, where each member faced and dealt with the typecasting dilemma in different ways and various degrees of success. 388 pages. Illustrated.

Should you take a much-needed vacation or save money for your children's education? Should you protect the endangered owl or maintain jobs for loggers? How do you handle questions such as these? We frequently face ethical dilemmas in our daily lives, and few have trouble with the "right vs. wrong" choices.

However, the "right vs. right" dilemmas, in which neither choice is clearly or widely accepted as wrong, many times present obstacles that call for value-based decisions, and that's where we often need help. Kidder -- the founder of the Institute for Global Ethics -- teaches us how to think for ourselves in order to resolve any ethical dilemma, from the personal to the philosophical. Unique in its approach and full of illustrative anecdotes, *How Good People Make Tough Choices* is an indispensable resource for arriving at sound conclusions when facing tough choices.
