The door wasn't supposed to be there. Elrod knew it, but he pushed it open anyway. Now he's caught up in a world of mob money, loaded guns, and fabulous lies. Should he trust the pretty jazz singer with the big plans? Or his own instincts, which tell him to bolt out of town on the first bus headed west? By the time he figures out the real scheme, he's knee-deep in something that can only end up badly, and there's no way out except to ride the voodoo to the bitter end. Vance Cariaga's Voodoo Hideaway is a classic noir novel spanning fifty years and featuring a cast of memorable characters, all caught up in a web of lies and intrigue that sends them on a collision course to a bloody showdown. The story combines the best elements of crime fiction and sci-fi, with a healthy dose of humor tossed in, building tension chapter by chapter until the explosive finale.

The paper reviews the developments in the last 12 years that have influenced the evolution of the IMF's General Data Dissemination System, leading to reforms to enhance its role. The GDDS itself is part of a broader IMF Data Standards Initiative launched in 1996 to help address macroeconomic data deficiencies, which contributed to the emerging economies' financial crisis during the early 1990s. The review takes stock of the experience with statistical technical assistance provided to member countries and the ongoing reforms, within and outside the IMF, to strengthen the GDDS. Such reforms are particularly relevant in the context of the ongoing economic and financial crisis, which once again underscores the role of statistics in guiding policymakers to strengthen defenses against future crises.

#1 NEW YORK TIMES BESTSELLER • Brené Brown has taught us what it means to dare greatly, rise strong, and brave the wilderness. Now, based on new research conducted with leaders, change makers, and culture shifters, she's showing us how to put those ideas into practice so we can step up and lead. Don't miss the five-part HBO Max docuseries Brené Brown: Atlas of the Heart! NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BLOOMBERG Leadership is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don't pretend to have the right answers; we stay curious and ask the right questions. We don't see power as finite and hoard it; we know that power becomes infinite when we share it with others. We don't avoid difficult conversations and situations; we lean into vulnerability when it's necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires skill-building around traits that are deeply and uniquely human. The irony is that we're choosing not to invest in developing the hearts and minds of leaders at the exact same time as we're scrambling to figure out what we have to offer that machines and AI can't do better and faster. What can we do better? Empathy, connection, and courage, to start. Four-time #1 New York Times bestselling author Brené Brown has spent the past two decades studying the emotions and experiences that give meaning to our lives, and the past seven years working with transformative leaders and teams spanning the globe. She found that leaders in organizations ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 50 companies all ask the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In this new book, Brown uses research, stories, and examples to answer these questions in the no-BS style that millions of readers have come to expect and love. Brown writes, "One of the most important findings of my career is that daring leadership is a collection of four skill sets that are 100 percent teachable, observable, and measurable. It's learning and unlearning that requires brave work, tough conversations, and showing up with your whole heart. Easy? No. Because choosing courage over comfort is not always our default. Worth it? Always. We want to be brave with our lives and our work. It's why we're here." Whether you've read *Daring Greatly* and *Rising Strong* or you're new to Brené Brown's work, this book is for anyone who wants to step up and into brave leadership.

The story of how the associate editor of *Birding* magazine set himself a lofty goal: to become the first person to see half the world's birds in one year. In 2015, for 365 days, with a backpack, binoculars, and a series of one-way tickets, Noah Strycker traveled across forty-one countries and all seven continents, eventually spotting 6,042 species—by far the biggest birding year on record. This is no travelogue or glorified checklist. Noah ventures deep into a world of chronic sleep deprivation, airline snafus, breakdowns, mudslides, floods, war zones, ecologic devastation, conservation triumphs, common and iconic species, and scores of passionate bird lovers around the globe. By pursuing the freest creatures on the planet, he gains a unique perspective on the world they share with us—and offers a hopeful message that even as many birds face an uncertain future, more people than ever are working to protect them. "Birding Without Borders is light-hearted and filled with stories of exotic birds, risky adventures, and colorful birding companions."—*New York Times Book Review* "Highly recommended for anyone interested in travel, natural history, and adventure."—*Library Journal* "Even readers who wouldn't know a marvellous spatuletail from a southern ground hornbill will be awed by Strycker's achievement and appreciate the passion with which he pursues his interest."—*Publishers Weekly*

A Wall Street Journal national security reporter takes readers into the lives of frontline U.S. special operations troops fighting to keep the Taliban and Islamic State from overthrowing the U.S.-backed government in the final years of the war in Afghanistan. A FINANCIAL TIMES BEST BOOK OF THE YEAR "Powerful, important, and searing." —General David Petraeus, U.S. Army (ret.), former commander, U.S. Central Command, former CIA director In 2015, the White House claimed triumphantly that "the longest war in American history" was over. But for some, it was just the

beginning of a new war, fought by Special Operations Forces, with limited resources, little governmental oversight, and contradictory orders. With big picture insight and on-the-ground grit, Jessica Donati shares the stories of the impossible choices these soldiers must make. After the fall of a major city to the Taliban that year, Hutch, a battle-worn Green Beret on his fifth combat tour was ordered on a secret mission to recapture it and inadvertently called in an airstrike on a Doctors Without Borders hospital, killing dozens. Caleb stepped on a bomb during a mission in notorious Sangin. Andy was trapped with his team during a raid with a crashed Black Hawk and no air support. Through successive policy directives under the Obama and Trump administrations, America came to rely almost entirely on US Special Forces, and without a long-term plan, failed to stabilize Afghanistan, undermining US interests both at home and abroad. *Eagle Down* is a riveting account of the heroism, sacrifice, and tragedy experienced by those that fought America's longest war.

On the frigid surface, Ralla Gattley and Thom Vargas cling to life and each other. Below, the soldier Geran Lo fights relentlessly to free trapped and drowning civilians.
