Apartheid isn't over—so Malaika Wa Azania boldly argues in *Memoirs of a Born Free*, her account of growing up black in modern-day South Africa. Malaika was born in late 1991, as the white minority government was on its way out, making her a "Born Free"—the name given to the generation born after the end of apartheid. But Malaika's experience with institutionalized racism offers a view of South Africa that contradicts the implied racial liberation of the so-called Rainbow Nation. Recounting her upbringing in a black township racked by poverty and disease, the death of a beloved uncle at the hands of white police, and her alienation at multiracial schools, she evokes a country still held in thrall by de facto apartheid. She takes us through her anger and disillusionment with the myth of black liberation to the birth and development of her dedication to the black consciousness movement, which continues to be a guiding force in her life. A trenchant, audacious, and ultimately hopeful narrative, *Memoirs of a Born Free* introduces an important new voice in South African—and, indeed, global—activism.

In recent years the international community has begun to scrutinize and, in many cases, condemn the atrocities that took place at Nanking in late 1937. This is all part of a larger worldwide movement in which both nations and multinational groups are attempting to reach closure regarding past atrocities and inhumanities. As represented by the contributors to this book, these activities have an importance reaching far beyond

aggressors or victims, beyond admission or vindication, but rather are a search for the common causes of all human atrocities and for solutions that would set humanity on a path toward a more peaceful and harmonious international community.

Greatly revised and expanded, with a new afterword, this update to Martin Jacques's global bestseller is an essential guide to understanding a world increasingly shaped by Chinese power. Soon, China will rule the world. But in doing so, it will not become more Western. Since the first publication of *When China Rules the World*, the landscape of world power has shifted dramatically. In the three years since the first edition was published, *When China Rules the World* has proved to be a remarkably prescient book, transforming the nature of the debate on China. Now, in this greatly expanded and fully updated edition, boasting nearly 300 pages of new material, and backed up by the latest statistical data, Martin Jacques renews his assault on conventional thinking about China's ascendancy, showing how its impact will be as much political and cultural as economic, changing the world as we know it. First published in 2009 to widespread critical acclaim - and controversy - *When China Rules the World: The End of the Western World and the Birth of a New Global Order* has sold a quarter of a million copies, been translated into eleven languages, nominated for two major literary awards, and is the subject of an immensely popular TED talk.

This volume represents the most comprehensive collection ever produced of empirical research on Holocaust education around the world. It comes at a critical time, as the world observes the 70th anniversary of the liberation of Auschwitz. We are now at a turning point, as the generations that witnessed and survived the Shoah are slowly passing on. Governments are charged with ensuring that this defining event of the 20th century takes its rightful place in the schooling and the historical consciousness of their peoples. The policies and practices of Holocaust education around the world are as diverse as the countries that grapple with its history and its meaning. Educators around the globe struggle to reconcile national histories and memories with the international realities of the Holocaust and its implications for the present. These efforts take place at a time when scholarship about the Holocaust itself has made great strides. In this book, these issues are framed by some of the leading voices in the field, including Elie Wiesel and Yehuda Bauer, and then explored by

many distinguished scholars who represent a wide range of expertise. Holocaust education is of such significance, so rich in meaning, so powerful in content, and so diverse in practice that the need for extensive, high-quality empirical research is critical. This book provides exactly that.

From the internationally bestselling author and prizewinning economist—a highly original guide to the global economy. In his bestselling *23 Things They Don't Tell You About Capitalism*, Cambridge economist Ha-Joon Chang brilliantly debunked many of the predominant myths of neoclassical economics. Now, in an entertaining and accessible primer, he explains how the global economy actually works—in real-world terms. Writing with irreverent wit, a deep knowledge of history, and a disregard for conventional economic pieties, Chang offers insights that will never be found in the textbooks. Unlike many economists, who present only one view of their discipline, Chang introduces a wide range of economic theories, from classical to Keynesian, revealing how each has its strengths and weaknesses, and why there is no one way to explain economic behavior. Instead, by ignoring the received wisdom and exposing the myriad forces that shape our financial world, Chang gives us the tools we need to understand our increasingly global and interconnected world often driven by economics. From the future of the Euro, inequality in China, or the condition of the American manufacturing industry here in the United States—*Economics: The User's Guide* is a concise and expertly crafted guide to economic fundamentals that offers a clear and accurate picture of the global economy and how and why it affects our daily lives.

The history of nations is a history of haves and have-nots, and as we approach the millennium, the gap between rich and poor countries is widening. In this engrossing and important new work, eminent historian David Landes explores the complex, fascinating and often startling causes of the wealth and poverty of nations. The answers are found not only in the large forces at work in economies: geography, religion, the broad swings of politics, but also in the small surprising details. In Europe, the invention of spectacles doubled the working life of skilled craftsmen, and played a prominent role in the creation of articulated machines, and in China, the failure to adopt the clock fundamentally hindered economic development. The relief of poverty is vital to the survival of us all. As David Landes brilliantly shows, the key to future success lies in understanding the lessons the past has to teach us - lessons uniquely imparted in this groundbreaking and vital book which exemplifies narrative history at its best.

The Nanjing Massacre, which took place after the Japanese attacked and captured Nanjing in December 1937, shocked the world with the magnitude of its atrocities. With newly uncovered eye-witness material left behind by American and British journalists, missionaries, and diplomats, They Were in Nanjing takes the readers back in time to revisit the event and live through those horror-filled days. The first-hand accounts range from English media reports, personal records, missionary and Christian organization documents, to American and British diplomatic and military documents. The research yields new discoveries and presents issues that have previously not been adequately dealt with, for instance, Japanese attacks on American citizens, and losses and damage to American and British properties as a result of Japanese atrocities. No other book on the Nanjing Massacre presents the first-hand foreign perspective so thoroughly or consistently.

#1 NEW YORK TIMES BESTSELLER • The incredible true story of survival and salvation that is the basis for two major motion pictures: 2014's *Unbroken* and the upcoming *Unbroken: Path to Redemption*. On a May afternoon in 1943, an Army Air Forces bomber crashed into the Pacific Ocean and disappeared, leaving only a spray of debris and a slick of oil, gasoline, and blood. Then, on the ocean surface, a face appeared. It was that of a young lieutenant, the plane's bombardier, who was struggling to a life

raft and pulling himself aboard. So began one of the most extraordinary odysseys of the Second World War. The lieutenant's name was Louis Zamperini. In boyhood, he'd been a cunning and incorrigible delinquent, breaking into houses, brawling, and fleeing his home to ride the rails. As a teenager, he had channeled his defiance into running, discovering a prodigious talent that had carried him to the Berlin Olympics and within sight of the four-minute mile. But when war had come, the athlete had become an airman, embarking on a journey that led to his doomed flight, a tiny raft, and a drift into the unknown. Ahead of Zamperini lay thousands of miles of open ocean, leaping sharks, a foundering raft, thirst and starvation, enemy aircraft, and, beyond, a trial even greater. Driven to the limits of endurance, Zamperini would answer desperation with ingenuity; suffering with hope, resolve, and humor; brutality with rebellion. His fate, whether triumph or tragedy, would be suspended on the fraying wire of his will. In her long-awaited new book, Laura Hillenbrand writes with the same rich and vivid narrative voice she displayed in *Seabiscuit*. Telling an unforgettable story of a man's journey into extremity, *Unbroken* is a testament to the resilience of the human mind, body, and spirit. Praise for *Unbroken*

The Nanjing Atrocities: Crimes of War details the events unfolding in China and Japan in the years leading up to World War II in East Asia and the Japanese occupation of the city of Nanjing, China, in 1937. Following Facing History's guiding scope and sequence, and including a foreword by Benjamin Ferencz, a war crimes prosecutor at the Nuremberg Trials, this resource lays a broad framework and contains an in-depth examination of the war crimes known today as the Nanjing Atrocities. This book begins by exploring the impact of imperialism in East Asia during the nineteenth and early twentieth centuries, the rise of nationalism and militarism, and how these developments affected the complexity of nation building efforts in China and Japan. It addresses the brutality of war and the crimes committed in Nanjing through an examination of the choices made by leaders, soldiers, and witnesses. The history is presented through firsthand accounts and perspectives from survivors and foreigners living in Nanjing during the Japanese occupation. When examining the aftermath and legacy of the war in China, readers are asked to consider the importance of justice and memory, issues still relevant today as nations in East Asia continue to wrestle with how to remember, teach, and understand the Nanjing Atrocities. The Nanjing Atrocities: Crimes of War is an invaluable resource for educators and students of history seeking an overview of World War II in East Asia.
