Basketball's Biggest Upset Macmillan No one had really heard of Chaminade University—a tiny NAIA Catholic school in Honolulu with fewer than eight hundred undergraduates—until its basketball game against the University of Virginia on December 23, 1982. The Chaminade Silverswords defeated the Cavaliers, then the Division I, No. 1-ranked team in the nation, in what the Washington Post later called “the biggest upset in the

history of college basketball.” Virginia was the most heralded team in the country, led by seven-foot-four-inch, three-time College Basketball Player of the Year Ralph Sampson. They had just been paid \$50,000—more than double Chaminade’s annual basketball budget—to play an early season tournament in Tokyo and were making a “stopover” game in Hawaii on their way back to the mainland. The Silverswords, led by forward Tony Randolph, came back in the second half and won the game 77–72. Chaminade’s incredible victory became known as the “Miracle on Ward Avenue” or simply “The Upset” in Hawaii and was featured in the national news. Never before in the history of college basketball had a school moved so dramatically and irretrievably into the

nation's consciousness. The Silverswords' victory was more than just an upset; it was something considered impossible. And the team's wins over major college programs continued in the ensuing years. Today Chaminade is still referred to as "The Giant Killers"—the school that beat Ralph Sampson and Virginia. The Greatest Upset Never Seen relives the 1982–83 season, when Chaminade put small-college basketball and Hawaii on the national sports map. Potomac Books, Inc.

strategies, and rivalries that defined his career and, in a new final chapter, discusses his retirement from the game. The fundamentals of good basketball are the fundamentals of character—passion, discipline, focus, selflessness, and responsibility—and superlative mentor and coach Dean Smith imparts them all with equal authority.

The Villanova Miracle and 63 Other Dreams: A Game-by-Game Guide to the 1985 NCAA Tournament Little, Brown

The NCAA tournament has always been an enormous spotlight for the underdog. Bracket-clenching fans root for long shots to upset the elite squads and score an unexpected win on their tournament sheet. If they picked them, that is. And normally that is all the fans expect one or two incredible upsets. But these days, the underdogs are breaking through. Cinderella is an inside look at the NCAA's mid-major basketball programs, which fight for their shot to battle the elite teams for the national championship. The rise of mid-majors has been one of the most thrilling sports stories in recent years, and it is only getting bigger.

Michael Litos spent the 2005-06 season on the frontlines of the Colonial Athletic Association, home of such mid-major standouts as Old Dominion, Hofstra, VCU and George Mason. With complete access to coaches and players, he found incredible tales of pressure and passion. He saw coaches and players struggling to put together a championship drive in spite of uncompromising schedules and half-filled arenas. And he was there when the ultimate underdog turned the world of college basketball upside-down. George Mason's historic run to the Final Four. In what was dubbed "The Year of the Mid-Major," Cinderella delivers the ultimate look at what it means to be an underdog and how the sport of college basketball is being transformed. In the last great league of amateur athletes,

this is the story of those who play for the love of the game and the thrill of achieving the unbelievable. Michael Litos spent the first eight years of his career as a magazine writer and editor for several sports and sports memorabilia titles with Landmark Communications. He has interviewed sports celebrities from Mickey Mantle to Alex Rodriguez to Brett Favre.

Butler University in Indianapolis became the smallest school in 40 years to reach the NCAA championship game. Prior to the tournament, a statistician calculated the Bulldogs as a 200-to-1 shot to win. But as fascinating as what Butler accomplished was how they did it. Underdogs tells the incredible and

uplifting story. Butler's coach, 33-year-old Brad Stevens, looked so young he was often mistaken for one of the players, but he had quickly become one of the best coaches in the nation by employing the "Butler Way." This philosophy of basketball and life, adopted by former coach Barry Collier, is based on five principles: humility, passion, unity, servanthood, and thankfulness. Even the most casual observer could see this in every player, on the court and off, from NBA first-round draft pick Gordon Hayward to the last guy on the bench. Butler was coming off a great 2009-10 regular season, but its longtime existence on the periphery of major college basketball fostered doubt as March Madness set in. But after two historic upsets, one of top-

seeded Syracuse and another of second-seeded Kansas State, and making it to the Final Four, the Bulldogs came within the diameter of a shoelace of beating the perennial leaders of college basketball: the Duke Blue Devils. Much more than a sports story, Underdawgs is the consummate David versus Goliath tale. Despite Duke's winning the championship, the Bulldogs proved they belonged in the game and, in the process, won the respect of people who were not even sports fans.

Making March Madness NCAA March Madness

In 1971, Madison College was a small-town teachers college with around 3,000 students, most of them female. To elevate the college's visibility and to appeal immediately to males, new president Dr. Ronald E. Carrier sought to build a solid men's collegiate athletic program. He hired a young, energetic, ambitious, and fast-talking yet untested basketball coach from New Jersey--Lou Campanelli. *Dare to Dream*, a collaboration between Campanelli and veteran sports writer Dave Newhouse, tells the amazing Hoosiers-like story of

how Campanelli, within ten years, created a basketball program out of almost nothing, building it into a powerhouse. Coach Lou's teams were known for their innovative flex offense, relentless half-court man-to-man defense, and a never-give-up attitude that led not only to conference, state, and division championships but also to historic and nationally significant upsets in the NCAA tournament against Ohio State, West Virginia, and Georgetown--as well as a down-to-the-wire two-point loss to the University of North Carolina national championship team whose roster included future NBA stars Michael Jordan, Sam Perkins, and James Worthy. In this fast-paced and compelling book, we share in the passion, integrity, and dedication with which Coach Lou

recruited, coached, and mentored his players--most of whom were overlooked or passed over by the traditional basketball powers. Dare to Dream is the story of how sports transformed not only the lives of student-athletes but also a small, largely female school in the Shenandoah Valley of Virginia into a major regional university within just one decade. It is a story of how academics and basketball provided the foundation for JMU's current legacy as one of Virginia's most distinguished public institutions of higher learning, just as Dr. Carrier and Coach Lou had dared to dream, more than forty years ago. Baltimore Sports John Schaefer Lunardi delves into the early days of

Bracketology, details its growth, and dispels the myths of the process. The NCAA Tournament has become one of the most popular sports events in the country, consuming fans for weeks with the run to the Final Four and ultimately the crowning of the champion of college hoops. Each March, millions of Americans fill out their bracket in the hopes of correctly predicting the future. Yet, there is no true Madness without the oft-debated question about what teams should be seeded where—from the Power-5 Blue Blood with some early season stumbles on their resume to the mid-major that rampaged through their less competitive conference season—and the inventor of Bracketology himself, Joe Lunardi, now reveals the mystery and science behind

the legend. While going in depth on his ever-evolving predictive formula, Lunardi compares great teams from different eras with intriguing results, talks to the biggest names in college basketball about their perception of Bracketology (both good and bad), and looks ahead to the future of the sport and how Bracketology will help shape the conversation. This fascinating book is a must-read for college hoops fans and anyone who has aspired to win their yearly office pool.
