 From the #1 New York Times bestselling author of the Percy Jackson and the Olympians series Everything in Texas is bigger . . . even murder. Meet Tres Navarre—tequila drinker, Tai Chi master, and unlicensed P.I., with a penchant for Texas-size trouble. Jackson “Tres” Navarre and his enchilada-eating cat, Robert Johnson, pull into San Antonio and find nothing waiting but trouble. Ten years ago Navarre left town and the memory of his father’s murder behind him. Now he’s back, looking for answers. Yet the more Tres digs, trying to put his suspicions to rest, the fresher the decade-old crime looks: Mafia connections, construction site payoffs, and slick politicians’ games all conspire to ruin his homecoming. It’s obvious Tres has stirred up a hornet’s nest of trouble. He gets attacked, shot at, run over by a big blue Thunderbird—and his old girlfriend, the one he wants back, is missing. Tres has to rescue the woman, nail his father’s murderer, and get the hell out of Dodge before mob-style Texas justice catches up to him. The chances of staying alive looked better for the defenders of the Alamo. “Riordan writes so well about the people and topography of his Texas hometown that he quickly marks the territory as his own.”—Chicago Tribune Don’t miss any

of these hotter-than-Texas-chili Tres Navarre novels: BIG RED TEQUILA • THE WIDOWER’S TWO-STEP • THE LAST KING OF TEXAS • THE DEVIL WENT DOWN TO AUSTIN • SOUTHTOWN • MISSION ROAD • REBEL ISLAND

In *The Small Book of Hip Checks* Erica Rand uses multiple meanings of hip check—including an athlete using their hip to throw an opponent off-balance and the inspection of racialized gender—to consider the workings of queer gender, race, and writing. Explicitly attending to processes of writing and revising, Rand pursues interruption, rethinking, and redirection to challenge standard methods of argumentation and traditional markers of heft and fluff. She writes about topics including a trans shout-out in a Super Bowl ad, the heyday of lavender dildos, ballet dancer Misty Copeland, the criticism received by figure skater Debi Thomas and tennis great Serena Williams for competing in bodysuits while Black, and the gendering involved in identifying the remains of people who die trying to cross into the United States south of Tucson, Arizona. Along the way, Rand encourages making muscle memory of experimentation and developing an openness to being conceptually knocked sideways. In other words, to be hip-checked.

This book offers an easy-to-follow set of writing principles. For example, use active verbs whenever possible, favour concrete language over vague abstractions, avoid long strings of prepositional phrases, employ adjectives and adverbs only when they contribute something new to the meaning of a sentence and reduce your dependence on the "waste words": 'it', 'this', 'that' and 'there'. The author also shows these rules in action through examples from famous authors such as Shakespeare and Emily Dickinson. The book includes a test to help you assess your own writing and get advice on problem areas.

Selected and introduced by Richard Dawkins, *The Oxford Book of Modern Science Writing* is a celebration of the finest writing by scientists for a wider audience - revealing that many of the best scientists have displayed as much imagination and skill with the pen as they have in the laboratory. This is a rich and vibrant collection that captures the poetry and excitement of communicating scientific understanding and scientific effort from 1900 to the present day. Professor Dawkins has included writing from a diverse range of scientists, some of whom need no introduction, and some of whose works have become modern classics, while others may be less familiar - but all convey the passion of great scientists writing about their science.

Using field-tested strategies she assists the student through the entire thesis-writing process, offering advice on choosing a topic and an advisor, on disciplining one's self to work at least fifteen minutes each day; setting short-term deadlines, on revising and defing the thesis, and on life and publication after the dissertation. **Office Practice and Business Procedure** Elsevier Health Sciences From the host of the YouTube channel that went viral—Dad, How Do I?—comes a book that's part memoir/part inspiration/part DIY. Rob Kenney's father left him and his seven siblings when he was fourteen years old, and the youngest had to fend for themselves. He wished that he had someone who could teach him the basics—how to tie a tie, jump-start a car, unclog a drain, use tools properly—as well as succeed in life. But he and his siblings had to figure these things out on their own. Now a father himself, Rob decided that he would help people out by providing how-to tips as well as advice—and even throw in some bad dad jokes. He started a YouTube channel for anyone looking for fatherly advice, and in the course of three months, gained a following of nearly 2.5 million subscribers, with millions of views for his how-to and inspirational videos. In this book, Rob shares his story of overcoming a difficult childhood with the strength of faith and family, and offers inspiration and hope. In addition, he provides 50 practical DIY instructions (30 of which will be unique to the book), illustrated with helpful line drawings.
