In *The Christian Man*, Patrick Morley--bestselling author of *The Man in the Mirror*--offers men practical ways to deal with life's problems and become the men of God they aspire to be. No man fails on purpose. Quite the opposite. When our feet hit the floor every morning, we're looking for a win. But these are turbulent times to be a man. In gathering material for this book, Morley interviewed many men. Their input was powerful. And transparent. They agreed that it's increasingly difficult to juggle all their responsibilities as men, husbands, fathers, friends, workers, churchmen, and citizens. No one understands what you're going through more than men's expert Patrick Morley, author of the landmark bestseller *The Man in the Mirror*, which has sold over 4 million copies. And now, Morley has put together a game plan so you can get that win you're looking for. *The Christian Man* is filled with powerful stories

and refreshingly practical answers to questions like: How can I lead a more balanced life? How can I have a deeper walk with God? What makes a great husband? How can I become a dad who makes a difference? How should I think about my work? What's the right way to deal with lust? By the end of this must-read book, you will know how to intentionally release the power of God on the issues that matter most to you. You'll be able to walk with confidence in the one identity that matters most: *The Christian Man*.

A new field of inquiry and growing interdisciplinary area, men's studies, is just now beginning to develop its own distinctive methodologies and perspectives as demonstrated in the

pages of *Theorizing Masculinities*. This first major compilation of new theoretical work on men begins by presenting ideas borrowed from the disciplines that have fostered the study of masculinities: sociology, psychoanalysis, ethnography, and inequality. The following chapters explore many issues central to the study of men such as power, ethnicity, feminism, and homophobia. The contributors also provide theoretical explanations of some of the institutions most closely identified with men, such as the military, sports, and the men's movement. The contributors to this volume come from disciplines as diverse as sociology, political science, industrial relations, philosophy, education, anthropology, gender studies, and literature. Together, they make this benchmark volume the guiding set of theories on masculinities. *Theorizing Masculinities* is a comprehensive volume that will appeal to a wide range of students and scholars, especially those interested in gender, sociology, social theory, family studies, counseling, and psychology.

The world needs real men, real bad. And there are all sorts of conflicting ideas and messages about what a "real man" is (and is not). Is a real man one who hunts, loves sports, grills meat, fixes cars, and climbs mountains? Sure, sometimes. But that's not really the point of being a man and it's not the purpose for which men were made. Into our cultural confusion, Brant Hansen paints a refreshingly specific, compelling picture of what men are made to be: "Keepers of the Garden." Protectors and defenders. He calls for men of all interests and backgrounds (including "avid indoorsmen" like himself) to be ambitious about the right things and to see themselves as defenders of the vulnerable, with whatever resources they have. Using short chapters loaded with must-have wisdom and Brant's signature humor, *The Men We Need* explains the essence of masculinity in a fresh, thoughtful, and entertaining way that will inspire any man who dares to read it.

Using conversations, observations, and reflections, psychologist Kopano Ratele meditates on love, violence and masculinity This book seeks to imagine the possibility of a more loving masculinity in a society where structural violence, failures of government and economic inequality underpin much of the violent behavior that men display. Enriched with personal reflections on his own experiences as a partner, father, psychologist and researcher in the field of men and masculinities, *Why Men Hurt Women and Other Reflections on Love, Violence and Masculinity* is Kopano Ratele's meditation on love and violence, and the way these forces shape the emotional lives of boys and men. At the core of these critical and deeply insightful texts is the question of why men hurt women they love. Ratele contends that many men in our society suffer from a painful, unrecognized, yet consequential love hunger that sets in during boyhood. This need for love may lie at the root of some of the male violence

that damages the lives of women, children and men themselves. Blending academic analysis and rigor in a readable narrative style, Ratele illuminates the complex nuances of gender, intimacy and power in the context of the human need for love and care. While unsparing in his analysis of men's inner lives, Ratele lays out a path for addressing the hunger for love in boys and men. He argues that just as the beliefs and practices relating to gender, sexuality and the nature of love are constantly being challenged and revised, so our ideas about masculinity, and men's and boys' capacity to show genuine loving care for each other and for women, can evolve.

Men who do "women's work" have consistently been the butt of jokes, derided for their lack of drive and masculinity. In this eye-opening study, Christine Williams provides a wholly new look at men who work in predominantly female jobs. Having conducted extensive interviews in four cities, Williams uncovers how men in four occupations—nursing, elementary school teaching, librarianship, and social work—think about themselves and experience their work. Contrary to popular imagery, men in traditionally female occupations do not define themselves differently from men in more traditional occupations. Williams finds that most embrace conventional, masculine values. Her findings about how these men fare in their jobs are also counterintuitive. Rather than being surpassed by the larger number of women around them, these men experience the "glass escalator effect," rising in disproportionate numbers to administrative jobs at the top of their professions. Williams finds that a complex interplay between gendered

expectations embedded in organizations, and the socially determined ideas workers bring to their jobs, contribute to men's advantages in these occupations. Using a feminist psychoanalytic perspective, Williams calls for more men not only to cross over to women's occupations, but also to develop alternative masculinities that find common ground with traditionally female norms of cooperation and caring. Until the workplace is sexually integrated and masculine and feminine norms equally valued, it will unfortunately remain "still a man's world."

**Men's wear. [semi-monthly]** Routledge  
In *Seven Men*, New York Times bestselling author Eric Metaxas presents seven exquisitely crafted short portraits of widely known—but not well understood—Christian men, each of whom

uniquely showcases a commitment to live by certain virtues in the truth of the gospel. Written in a beautiful and engaging style, *Seven Men* addresses what it means (or should mean) to be a man today, at a time when media and popular culture present images of masculinity that are not the picture presented in Scripture and historic civil life. This book answers questions like: What does it take to be a true exemplar as a father, brother, husband, leader, coach, counselor, change agent, and wise man? What does it mean to stand for honesty, courage, and charity? And how can you stand especially at times when the culture and the world run counter to those values? Each of the seven biographies represents the life of a man who experienced the struggles and challenges to be strong in the face of forces and circumstances that would have destroyed the resolve of lesser men. Each of the seven men profiled—George Washington, William Wilberforce, Eric Liddell, Dietrich Bonhoeffer, Jackie Robinson, John Paul II, and Charles Colson—call the reader to a more elevated

walk and lifestyle, one that embodies the gospel in the world around us.

**Citizenship in a Republic** is the title of a speech given by Theodore Roosevelt, former President of the United States, at the Sorbonne in Paris, France, on April 23, 1910. One notable passage from the speech is referred to as "The Man in the Arena": It is not the critic who counts; not the man who points out how the strong man stumbles, or where the doer of deeds could have done them better.

What does it mean to be a man? Moreover, how do you as a father instill that reality in your son? By *Raising a Modern-Day Knight*. The medieval custom of knighthood offers a unique approach to shaping a boy into a strong, godly man.

Centuries ago, select boys went through a rigorous, years-long process of clearly defined objectives, goals, and ceremonies—with the hope of achieving knighthood. Along the way, they acquired a boldly masculine vision, an uncompromising code of conduct, and a noble cause in which to invest their lives. They were the heroes of their age. In much the same way, *Raising a Modern-Day Knight* will show how you, too, can confidently guide your son to the kind of authentic, biblical manhood that can change out world. Complete with ceremony ideas to celebrate accomplishments and ingrain them in the mind of a knight-in-training, this resource is as insightful as it is practical in raising a

boy to be a chivalrous, godly man.

We hear the story of David and Goliath and wonder, "Do we have what it takes to slay the giant?" Men today are confronted with many different expectations of who they're supposed to be and what role they should be filling. By looking at history, the clichés of manhood, and what intimacy with God looks like, this short book will help men (and women) rethink what it means to be a man in today's culture. Counselor and pastor Rhett Smith works through tough

questions like: How can men look up to role models without following their flaws? Is it possible to strike a balance between passivity and aggression? How can men speak up, find intimacy, and take care of others without neglecting themselves? When Christ calls us to follow Him, He paves a path that is different than our cultural expectations, a path that leads us to a relationship with Him and to true knowledge of what it means to be a man.
