The 2030 Spike Little A
 New York Times-bestselling author and cultural critic Chuck Klosterman sorts through the past decade and how we got to now. Chuck Klosterman has created an incomparable body of work in books, magazines, newspapers, and on the Web. His writing spans the realms of culture and sports, while also addressing interpersonal issues, social quandaries, and ethical boundaries. Klosterman has written nine previous books, helped found and establish Grantland, served as the New York Times Magazine Ethicist, worked on film and television productions, and contributed profiles and essays to outlets such as GQ, Esquire, Billboard, The A.V. Club, and The Guardian. Chuck

Klosterman's tenth book (aka Chuck Klosterman X) collects his most intriguing of those pieces, accompanied by fresh introductions and new footnotes throughout. Klosterman presents many of the articles in their original form, featuring previously unpublished passages and digressions. Subjects include Breaking Bad, Lou Reed, zombies, KISS, Jimmy Page, Stephen Malkmus, steroids, Mountain Dew, Chinese Democracy, The Beatles, Jonathan Franzen, Taylor Swift, Tim Tebow, Kobe Bryant, Usain Bolt, Eddie Van Halen, Charlie Brown, the Cleveland Browns, and many more cultural figures and pop phenomena. This is a tour of the past decade from one of the sharpest and most prolific observers of our unusual times.

This is a print on demand edition of a hard to find publication. Hurricane Katrina, in

Aug. 2005, was the costliest hurricane as well as one of the five deadliest storms in U.S. history. It caused extensive destruction along the Gulf coast from central Florida to Texas. Some 22,000 Active-Duty Army personnel assisted with relief-and-recovery operations in Mississippi and Louisiana. At the same time, all 50 states sent approx. 50,000 National Guard personnel to deal with the storm's aftermath. Because the media coverage of this disaster tended toward the sensational more than the analytical, many important stories remain to be told in a dispassionate manner. This study offers a dispassionate analysis of the Army's response to the natural disaster by providing a detailed account of the operations in Louisiana and Mississippi. **Principles of Management** Routledge

Good Anxiety Verso Books

12.5 million Africans were shipped to the New World during the Middle Passage. While just over 11.0 million survived the arduous journey, only about 450,000 of them arrived in the United States. The rest—over ten and a half million—were taken to the Caribbean and Latin America. This astonishing fact changes our entire picture of the history of slavery in the Western hemisphere, and of its lasting cultural impact. These millions of Africans created new and vibrant cultures, magnificently compelling syntheses of various African, English, French, Portuguese, and Spanish influences. Despite their great numbers, the cultural and social worlds that they created remain largely unknown to most Americans, except for certain popular, cross-over musical forms. So Henry Louis Gates, Jr. set out on a quest to discover how Latin Americans of African descent live now, and how the countries of their acknowledge-or deny-their African past; how the fact of race and African ancestry play themselves out in the multicultural worlds of the Caribbean and Latin America. Starting with the slave experience and extending to the present, Gates unveils the history of the African presence in six Latin American countries—Brazil, Cuba, the Dominican Republic, Haiti, Mexico, and Peru—through art, music, cuisine, dance, politics, and religion, but also the very palpable presence of anti-black racism that has sometimes sought to keep the black cultural presence from view.

Whistleblower Lucia Marquand

New York Times Bestseller For those who could read between the lines, the censored news out of China was terrifying. But the president insisted there was nothing to worry about. Fortunately, we are still a nation of skeptics. Fortunately, there are those among us who study pandemics and are willing to look unflinchingly at worst-case scenarios. Michael Lewis's taut and brilliant nonfiction thriller pits a band of medical visionaries against the wall of ignorance that was the official response of the Trump administration to the outbreak of COVID-19. The characters you will meet in

these pages are as fascinating as they are unexpected. A thirteen-year-old girl's science project on transmission of an airborne pathogen develops into a very grown-up model of disease control. A local public-health officer uses her worm's-eye view to see what the CDC misses, and reveals great truths about American society. A secret team of dissenting doctors, nicknamed the Wolverines, has everything necessary to fight the pandemic: brilliant backgrounds, world-class labs, prior experience with the pandemic scares of bird flu and swine flu...everything, that is, except official permission to implement their work. Michael Lewis is not shy about calling these people heroes for their refusal to follow directives that they know to be based on misinformation and bad science. Even the internet, as crucial as it is to their exchange of ideas, poses a risk to them. They never know for sure who else might be listening in.

Talking to Strangers Hachette UK

In this urgent and timely book, Patrick Cockburn writes the first draft of the history of the current crisis in the Middle East. Here he charts the period from the recapture of Mosul in 2017 to Turkey's attack on Kurdish territory in November 2019, and recounts the new phase in the wars of disintegration that have plagued the region, leading to the assassination of Iranian General Solemani. Cockburn offers panoramic on-the-ground analysis as well as a lifetime's study of the region. As author of *The Rise of Islamic State*, and *The Age of Jihad*, he has proved to be leading, critical commentator of US intervention and the chaos it has wrecked/ And here he shows how, since Trump entered the White House promising an end to the Forever War, peace appears a distant possibility with the continuation of conflict in Syria, Saudi Arabia's violent intervention in the Yemen, the fall of the Kurds, riots in Baghdad, and the continued aggression towards Iran. While ISIS has been defeated, it is not clear whether it has disappeared from the region. Trump's policies has appeared to pour petrol on the flames, emboldening the other superpowers involved in the proxy wars. Following the collapse of the deal with Iran, and the threat of war crimes, is a new balance of power possible?

THE INTERNATIONAL BESTSELLER

'Compelling, haunting, tragic stories . . . resonate long after you put the book down' James McConnachie, Sunday Times Book of the Year The routine traffic stop that ends in tragedy. The spy who spends

years undetected at the highest levels of the Pentagon. The false conviction of Amanda Knox. Why do we so often get other people wrong? Why is it so hard to detect a lie, read a face or judge a stranger's motives? Using stories of deceit and fatal errors to cast doubt on our strategies for dealing with the unknown, Malcolm Gladwell takes us on an intellectual adventure into the darker side of human nature, where strangers are never simple and misreading them can have disastrous consequences.

Dehumanization SAGE Publications

World-renowned neuroscientist and author of *Healthy Brain, Happy Life* has developed an "absolute game-changer" (Conscious Conversations podcast) for managing unwarranted anxiety and turning it into a powerful asset. We are living in the age of anxiety, a situation that often makes us feel as if we are locked into an endless cycle of stress, sleeplessness, and worry. But what if we had a way to leverage our anxiety to help us solve problems and fortify our well-being? What if, instead of seeing anxiety as a curse, we could recognize it for the unique gift that it is? As a neuroscientist, Dr. Wendy Suzuki has discovered a paradigm-shifting truth about anxiety: yes, it is uncomfortable, but it is also essential for our survival. In fact, anxiety is a key component of our ability to live optimally. Every emotion we experience has an evolutionary purpose, and anxiety is designed to draw our attention to a number of negative emotions. If we simply approach anxiety as something to avoid, get rid of, or dampen, we actually miss an opportunity to not only manage the symptoms of anxiety better but also discover ways to improve our lives. Listening to our worries from a place of curiosity, instead of fear, can actually guide us onto a path that leads to joy. "Suzuki draws on decades of neuroscience, including her own research, and leavens her learning with a little personal storytelling to create a practical, science-backed guidebook for those seeking such a transformation" (The Wall Street Journal).

Getting Real About Race is an edited collection of short essays that address the most common stereotypes and misconceptions about race held by students, and by many in the United States, in general. Key Features Each essay concludes with suggested sources including videos, websites, books, and/or articles that instructors can choose to assign as additional readings on a topic.

Essays also end with questions for discussion that allow students to move from the “what” (knowledge) to the “so what” (implications) of race in their own lives. In this spirit, the authors include suggested “Reaching Across the Color Line” activities at the end of each essay, allowing students to apply their new knowledge on the topic in a unique or creative way. Current topics students want to discuss are brought up through the text, making it easier for the instructor to deal with these topics in an open classroom environment.

Mothertrucker The Power of Half

“A powerful illustration of the obstacles our society continues to throw up in the paths of ambitious young women.” —The New York Times Book Review “Important . . . empowering.” —Gayle King, CBS This Morning “That [Fowler] became a whistleblower and a pioneer of a social movement almost seems inevitable once you get to know her. Uber should have seen her coming.” —San Francisco Chronicle Named a Best Book of 2020 by NPR Susan Fowler was just twenty-five years old when her blog post describing the sexual harassment and retaliation she'd experienced at Uber riveted the nation. Her post would eventually lead to the ousting of Uber's powerful CEO, but its ripples extended far beyond that, as her courageous choice to attach her name to the post inspired other women to speak publicly about their experiences. In the year that followed, an unprecedented number of women came forward, and Fowler was recognized by Time as one of the “Silence Breakers” who ignited the #MeToo movement. Here, she shares her full story: a story of extraordinary determination and resilience that reveals what it takes--and what it means--to be a whistleblower. Long before she arrived at Uber, Fowler's life had been defined by her refusal to accept her circumstances. She propelled herself from an impoverished childhood with little formal education to the Ivy League, and then to a coveted position at one of the most valuable companies in the history of Silicon Valley. Each time she was mistreated, she fought back or found a way to reinvent herself; all she wanted was the opportunity to define her own dreams and work to achieve them. But when she discovered Uber's pervasive culture of sexism, racism,

harassment, and abuse, and that the company would do nothing about it, she knew she had to speak out—no matter what it cost her. Whistleblower takes us deep inside this shockingly toxic workplace and reveals new details about the aftermath of the blog post, in which Fowler was investigated and followed, hacked and threatened, to the point that she feared for her life. But even as it illuminates how the deck is stacked in favor of the status quo, Fowler's story serves as a crucial reminder that we can take our power back. Both moving personal narrative and rallying cry, Whistleblower urges us to be the heroes of our own stories, and to keep fighting for a more just and equitable world.

The clock is relentlessly ticking! Our world teeters on a knife-edge between a peaceful and prosperous future for all, and a dark winter of death and destruction that threatens to smother the light of civilization. Within 30 years, in the 2030 decade, six powerful 'drivers' will converge with unprecedented force in a statistical spike that could tear humanity apart and plunge the world into a new Dark Age. Depleted fuel supplies, massive population growth, poverty, global climate change, famine, growing water shortages and international lawlessness are on a crash course with potentially catastrophic consequences. In the face of both doomsaying and denial over the state of our world, Colin Mason cuts through the rhetoric and reams of conflicting data to muster the evidence to illustrate a broad picture of the world as it is, and our possible futures. Ultimately his message is clear; we must act decisively, collectively and immediately to alter the trajectory of humanity away from catastrophe. Offering over 100 priorities for immediate action, The 2030 Spike serves as a guidebook for humanity through the treacherous minefields and wastelands ahead to a bright, peaceful and prosperous future in which all humans have the opportunity to thrive and build a better civilization. This book is powerful and essential reading for all people concerned with the future of humanity and planet earth.

The Terror Years Clarkson Potter

The national bestseller that turns you into “an expert at pairing wine with just about anything, from pizza and Lucky Charms to pad thai and Popeye's” (Maxim). Featured on Today and CBS This Morning Named one of the best books of the year by Food & Wine, Saveur, and Town & Country

Sancerre and Cheetos go together like milk and cookies. The science behind this unholy alliance is as elemental as acid, fat, salt, and minerals. Wine pro Vanessa Price explains how to create your own pairings while proving you don't necessarily need fancy foods to unlock the joys of wine. Building upon the outsize success of her weekly column in Grub Street, Price offers delightfully bold wine and food pairings alongside hilarious tales from her own unlikely journey as a Kentucky girl making it in the Big Apple and in the wine business. Using language everyone can understand, she reveals why each dynamic duo is a match made in heaven, serving up memorable takeaways that will help you navigate any wine list or local bottle shop. Charmingly illustrated and bubbling with personality, Big Macs & Burgundy will open your mind to the entirely fun and entirely accessible wine pairings out there waiting to be discovered—and make you do a few spit-takes along the way. “The book explores all different kinds of combinations, including breakfast pairings like avocado toast and Rueda Verdejo, pairings for entertaining like shrimp cocktail & Valdeorras Godello, and even some pairings with popular Trader Joe's items.” —Food & Wine “A smart, useful guide to drinking the world's great wine, whether you're pairing it with foie gras or Fritos.” —Town & Country

The #1 Bestseller! Michael Arroyo has a pitching arm that throws serious heat along with aspirations of leading his team all the way to the Little League World Series. But his firepower is nothing compared to the heat Michael faces in his day-to-day life. Newly orphaned after his father led the family's escape from Cuba,

Michael's only family is his seventeen-year-old brother Carlos. If Social Services hears of their situation, they will be separated in the foster-care system—or worse, sent back to Cuba. Together, the boys carry on alone, dodging bills and anyone who asks too many questions. But then someone wonders how a twelve-year-old boy could possibly throw with as much power as Michael Arroyo throws. With no way to prove his age, no birth certificate, and no parent to fight for his cause, Michael's secret world is blown wide open, and he discovers that family can come from the most unexpected sources. Perfect for any Little Leaguer with dreams of making it big—as well as for fans of Mike Lupica's other New York Times bestsellers *Travel Team*, *The Big Field*, *The Underdogs*, *Million-Dollar Throw*, and *The Game Changers* series, this cheer-worthy

baseball story shows that when the game knocks you down, champions stand tall. *Getting Real About Race* HarperCollins Society is full of would-be 'change agents'-campaigners, government officials, enlightened business people, engaged intellectuals-set on improving public services, reforming laws and regulations, guaranteeing human rights, achieving a fairer deal for those on the sharp end, and greater recognition for any number of issues. Drawing on many first-hand examples and numerous new case studies and interviews with grassroots activists and organizations around the world, as well as Oxfam's unrivalled global experience, this important book answers the question: how does change happen and how can we-governments, organizations, businesses, leaders,

campaigners, employees, and ordinary citizens-make a difference?

For the first time ever, a survivor tells the shocking inside story of her time trapped in Jeffrey Epstein and Ghislaine Maxwell's sex trafficking ring. Sarah Ransome moved to New York at the age of 22 with hopes for a better life, an education, and a career in fashion. Her dreams were destroyed almost overnight when she met Jeffrey Epstein and was invited to an island paradise disguising her personal hell. "By sharing my testimony...I hope to see both minds and laws changed. More than anything, I want to encourage a culture in which women, even if they haven't led the perfect lives, even if they're not proud of every one of their choices, still feel the right to stand in their truth." This story is her day in court.
