 KNOW THE ENEMY. ANTICIPATE HIS ATTACK. Expert linguist Dr. Andrew Farley encounters a device containing thousands of archived files revealing a worldwide spiritual conspiracy. Operation Screwtape is the largest of these files and details the intelligent scheme to steal, kill, and destroy. "Operation Screwtape channels the creativity and wit of C. S. Lewis while introducing the brilliant insights Andrew Farley is already known for in his bestselling books. This book will entertain you, but it will also challenge you to awaken to some astounding realities that, apparently, the forces of darkness do anything to hide."--David Gregory, New York Times bestselling author of *Dinner with a Perfect Stranger* "Andrew Farley's books have had a huge impact on my spiritual life, challenging me to live an authentic, grace-filled life. Operation Screwtape is his latest, most entertaining work yet. Once you start reading this book, you won't want to put it down!"--Bart Millard, lead singer for MercyMe

 Start a house cleaning business with this step-by-step guide and be up and running in one week. Back in the olden days before the internet was really popular and you could Google search anything, there was trial and error. If you wanted to start a house cleaning business from scratch you could, but it was rarely an overnight success for anybody. Big success was tossed to the cleaning service franchisees who could afford the fancy training, and well-built brands, while the mom and pop cleaning services were left to figure it out on their own. Good news - times have changed. As an independent house cleaner, you no longer have to wade through endless Pinterest boards for tips and ideas on how to start a house cleaning business. Angela Brown built from

scratch one of the most successful independently owned and operated house cleaning companies in the Southeastern United States. If you are serious about success in the cleaning service industry, you should sign up for her free tips, tricks and time saving hacks by joining the Savvy Cleaner email list at: savvycleaner.com/tips and you follow her blog at: AskaHouseCleaner.com She has trained a multitude of independent house cleaners how to take their business from day one through expansion and enormous growth. In this step-by-step guide she'll show you: How to set up your home office What office supplies you are going to need Ideas for your company logo How to choose your company name How to choose a uniform Tips on creating your company image and brand How to set your rules and policies How to choose a territory Everything you need to know about creating flyers, worksheets and why you need them. How to bid jobs, what to charge, What kind of car you need, Confidence builders & how to build instant credentials, Bonding, insurance The magic of the Mulligan, How to get an endless stream of referrals, how much you should pay for referral fees, How to never have any billing and collections, and how to always get paid and on time. (There is a reason they call Angela Brown "The House Cleaning Guru.") If you're here because you have an interest in house cleaning or in upgrading your life and you want to start a house cleaning business, welcome. House cleaning business is a 49 billion dollar a year industry that is nearly recession proof - when times get hard, people work more hours to pay the bills, they have less time at home to clean, so they outsource their cleaning - which means more business for you and me. Another awesome reason to start a house cleaning business is this: unlike a regular 9 to 5 job if you get fired, you're not out of work. You simply add another customer into your new available time slot and keep going. And you will learn here how to do such an amazing job, that you will never get fired, and your clients will never want you to leave. Franchise or Start a house cleaning business? As One Devil to Another is an astonishing debut work that C. S. Lewis's biographer and foremost Lewis authority Walter Hooper calls "a stunning achievement, the finest example of the genre of diabolical correspondence to appear since this genre was popularized by C. S. Lewis." Enter into this chilling and diabolical tale, one that reveals the very tricks and strategies of Hell. Through a series of letters between devils created by Platt, senior devil Slashreap trains his young protégé, Scardagger, to win an individual soul away from Heaven and into their clutches. As the devils plot their way to triumph, they reveal the spiritual dangers and risks we face in today's society. Their frighteningly accurate perspective on issues such as contemporary technology and sexual mores is interwoven with timeless matters such as the power of prayer, the purpose of suffering, and the promises held out by Heaven . . . and Hell. Destined to become a modern classic, As One Devil to Another is a brilliantly written, deeply unsettling perspective on twenty-first-century society . . . a glimpse of ourselves through the eyes of those who have embraced their underworldly existence.

Operation Screwtape Vali G Heist

NEW YORK TIMES BESTSELLER "Wise and funny. . . . The Lorrie Moore short story, or the Tina Fey memoir, of cleaning tutorials."—Dwight Garner, The New York Times "Thrillingly titled. . . . For a generation overwhelmed not just by dust bunnies, but by bong water on the carpet, pee stains on the ceiling and vomit seemingly everywhere, Jolie Kerr dispenses cleaning advice free of judgment. . . . A Mrs. Beeton for the postcollege set."

Vali G. Heist began organizing at the age of five while cleaning up her room with her older sister. She started her professional organizing business after years of being asked to organize the homes of her family and friends. Organize This! Practical Tips, Green Ideas, and Ruminations about your CRAP began as a collection of the organizing columns she wrote for a local newspaper. CRAP is Vali's acronym that means Clutter that Robs Anyone of Pleasure. The book includes numerous tips on how to organize, green ways to recycle unwanted CRAP, success stories from clients, and further ruminations about CRAP. Vali helps her readers explore why they have so much CRAP in their homes, why they don't throw it out, and why they don't want to deal with it. She helps the reader answer those questions and provides practical, easy tips to organize their homes and help them live the life they really want. In addition, her book is chock-full of organizing resources, is fun to read, and makes a great gift for the organized person as well as the organizationally-challenged. Vali's insight helps readers learn the difference between belongings and CRAP and empowers them to discover that less is more. Her book also proposes how to live a more 'green' life and help save the planet in the process. Her passion is to find simple, easy to implement ways to organize life at home and at work and pass them on to her readers. Bob Rios, of Bob Rios Visual Strategies, created unique cartoons for the book to illustrate the dilemmas many readers face as they organize and unclutter their lives. Bob is a graphic designer, website developer and of course a talented illustrator, who lives in Lebanon, Pennsylvania with his wife and five children. Bob uses his creativity and design expertise to further the business goals of his clients. Through consultation and conversation, he gathers content, colors, type, illustrations, and shapes to capture and convey a company's message. You'll find his self-portrait on page 99 of the book! Donna Smallin, Certified Professional Organizer and author of Organizing Plain & Simple and several other books on organization describes Vali's book as "Simultaneously witty and practical, Organize This! is the intelligent person's guide to a simpler, more organized life." Look for Donna's latest eBook entitled How to Declutter and Make Money Now! by Donna Smallin Kuper. Chris Crouch is president and founder of DME Training and Consulting, author of several books on improving productivity and developer of the GO System training course. He describes Vali's book: "Stuff, or as Vali calls it, CRAP, can and will easily find its way into your life. The challenge is to limit the inflow and purge the unnecessary items that somehow remain stuck in your environment. Vali's insightful book will help you accomplish those two life-changing goals." Chris continues to research and study both the mental and physical aspects of living a more joyful and productive life and pass them on to his readers. Debbie Lillard, Certified Professional Organizer and author of Absolutely Organize Your Family and Absolutely Organized: A Mom's Guide describes Vali's book: "Vali writes with an environmentally responsible attitude towards ridding the world of CRAP. She understands the causes of disorganization, leaves

judgment at the doorstep, and jumps right in to tackle the problems. Her resources are valuable – this is a book you'll want to recycle and reuse again and again." Debbie owns an organizing business in Broomall, Pennsylvania and shares her expert advice on various media channels. Vali wants readers to know that the goal of organizing isn't to have a perfect, 'Better Homes and Garden' house (hers isn't!), but rather to provide order to enjoy the space you have, handle the tough times with grace, and aspire to live the best life possible!

We live in an age when the growth of the Internet has made it easier than ever to gain access to information and accumulate knowledge. But information is not the same as meaning, nor is knowledge identical with wisdom. Many people feel engulfed by a tsunami of facts in which they can find no meaning. In thirteen short, accessible chapters McGrath, author of the bestselling *The Dawkins Delusion*, leads the reader through a nontechnical discussion of science and faith. How do we make sense of the world around us? Are belief in science and the Christian faith compatible? Does the structure of the universe point toward the existence of God? McGrath's goal is to help readers see that science is neither anathema to faith, nor does it supersede faith. Both science and faith help with the overriding human desire to make sense of things. Faith is a complex idea. It is not a blind leap into the dark but a joyful discovery of a bigger picture of wondrous things of which we are all a part.

Have you ever wondered why we Christians do what we do for church every Sunday morning? Why do we "dress up" for church? Why does the pastor preach a sermon each week? Why do we have pews, steeples, and choirs? This ground-breaking book, now in affordable softcover, makes an unsettling proposal: most of what Christians do in present-day churches is rooted, not in the New Testament, but in pagan culture and rituals developed long after the death of the apostles. Coauthors Frank Viola and George Barna support their thesis with compelling historical evidence and extensive footnotes that document the origins of modern Christian church practices. In the process, the authors uncover the problems that emerge when the church functions more like a business organization than the living organism it was created to be. As you reconsider Christ's revolutionary plan for his church—to be the head of a fully functioning body in which all believers play an active role—you'll be challenged to decide whether you can ever do church the same way again.
