 Safe, efficient, code-compliant electrical installations are made simple with the latest publication of this widely popular resource. Like its highly successful previous editions, the National Electrical Code? 2011 LOOSE LEAF combines solid, thorough, research-based content with the tools you need to build an in-depth understanding of the most important topics. It provides the full text of the updated Code regulations alongside expert commentary from code specialists, offering code rationale, clarifications for new and updated rules, and practical, real-world advice on how to apply the code. And in a loose-leaf format, it's easy to customize your experience with the Code by adding job- and situation- specific

materials. New to the 2011 edition are articles including first-time Article 399 on October, Overhead Conductors with over 600 volts, first-time Article 694 on Small Wind Electric Systems, first-time Article 840 on Premises Powered Broadband Communications Systems, and more. This winning combination has created a valuable reference for those in or entering careers in electrical design, installation, inspection, and safety.

If you think that your present tax accountant (if you have one) is providing you with all of the tax planning advice you need, then you should think again. The typical tax preparer, even the average CPA, lacks the graduate tax education and/or professional experience needed to advise you of all the tax-saving strategies available to the one-person business. Most tax preparers unfortunately spend their time just recording the past and filling out tax forms. Therefore, you are the person ultimately responsible for reducing your own tax burden. Here are just a few examples of how TAX STRATEGIES FOR THE ONE-PERSON BUSINESS (2020 / 2021) might help you save hundreds, if not thousands, of tax dollars each year: \* Determine whether your business should incorporate, or if your LLC should make an election to be taxed as a regular C corporation or an S corporation \* Save self-employment tax (Social Security tax and Medicare tax), as well as Obamacare tax, by paying yourself a low but "reasonable" salary from your S Corporation \* Contribute up to 100% of your earnings, and/or your employee-spouse's earnings, to a one-person 401k plan \* Avoid making "quarterly" estimated tax payments, and incurring penalties, by having the "safe harbor" amount of taxes withheld from your yearly salary \* Consider a Section 444 fiscal year election to possibly defer taxes and improve personal tax planning.
