A unique and poignant poetry collection which with raw honesty, seeks to tell the truth. The poems are insolent, funny and clever. They are also compassionate and kind. The collection wants its readers to think, to question, to be daring. There are poems about God and poems about man, there are poems about death and poems about truth, poems of sorrow, and poems about how we should live. It sneers at the pompous and self-important, at those who think they have an innate right to be in charge and who hate to be questioned. "So easy it would be to lose myself in despair of mankind, The vile and ceaseless hypocrite, with its mafias, gangster Governments and insufferable religions. Man was born in Chains, captured in a social concrete that rarely softens." - 'When I Think Of Giving Up.'

 "Fascinating . . . Purity is in the mind of the beholder, but beware the man who vows to protect yours." —Margaret Talbot, *The New Yorker*
 Anthony Comstock, special agent to the U.S. Post Office, was one of the most important men in the lives of nineteenth-century women. His eponymous law, passed in 1873, penalized the mailing of contraception and obscenity with long sentences and steep fines. The word Comstockery came to connote repression and prudery. Between 1873 and Comstock's death in 1915, eight remarkable women were charged with violating state and federal Comstock laws. These "sex radicals" supported contraception, sexual education, gender equality, and women's right to pleasure. They took on the fearsome censor in explicit, personal writing, seeking to redefine work, family, marriage, and love for a bold new era. In *The Man Who Hated Women*, Amy Sohn tells the overlooked story of their valiant attempts to fight Comstock in court and in the press. They were publishers, writers, and doctors, and they included the first woman presidential candidate, Victoria C. Woodhull; the virgin sexologist Ida C. Craddock; and the anarchist Emma Goldman. In their willingness to oppose a monomaniac who viewed reproductive rights as a threat to the American family, the sex radicals paved

the way for second-wave feminism. Risking imprisonment and death, they redefined birth control access as a civil liberty. *The Man Who Hated Women* brings these women's stories to vivid life, recounting their personal and romantic travails alongside their political battles. Without them, there would be no Pill, no Planned Parenthood, no *Roe v. Wade*. This is the forgotten history of the women who waged war to control their bodies.

As a leading Confederate general, Braxton Bragg (1817-1876) earned a reputation for incompetence, for wantonly shooting his own soldiers, and for losing battles. This public image established him not only as a scapegoat for the South's military failures but also as the chief whipping boy of the Confederacy. The strongly negative opinions of Bragg's contemporaries have continued to color assessments of the general's military career and character by generations of historians. Rather than take these assessments at face value, Earl J. Hess's biography offers a much more balanced account of Bragg, the man and the officer. While Hess analyzes Bragg's many campaigns and battles, he also emphasizes how his contemporaries viewed his successes and failures and how these reactions affected Bragg both personally and professionally. The testimony and opinions of other members of the Confederate army--including Bragg's superiors, his fellow generals, and his subordinates--reveal how the general became a symbol for the larger military failures that undid the Confederacy. By connecting the general's personal life to his military career, Hess positions Bragg as a figure saddled with unwarranted infamy and humanizes him as a flawed yet misunderstood figure in Civil War history.

"Amid the ugly realities of contemporary America, *American Hate* affirms our courage and inspiration, opening a roadmap to reconciliation by means of the victims' own words." —NPR Books
 "The collection offers possible solutions for how people, on their own or working with others, can confront hate." —San Francisco Chronicle
 A San Francisco Chronicle Books Pick One of Bitch Media's "13 Books Feminists Should Read in August" One of Paste Magazine's "The 10 Best Books of August 2018" A moving and timely collection of testimonials from people impacted by hate before and after the 2016 presidential election
In American Hate: Survivors Speak Out, Arjun Singh Sethi, a community activist and civil rights lawyer, chronicles the stories of individuals affected by hate. In a series of powerful, unfiltered testimonials, survivors tell their stories in their own words and describe how the bigoted rhetoric and policies of the Trump administration have intensified bullying, discrimination, and even violence toward them and their communities. We hear from the family of Khalid Jabara, who was murdered in Tulsa, Oklahoma, in August 2016 by a man who had previously harassed and threatened them because they were Arab American. Sethi brings us the story of Jeanette Vizguerra, an undocumented mother of four who took sanctuary in a Denver church in February 2017 because she feared deportation under Trump's cruel immigration enforcement regime. Sethi interviews Taylor Dumpson, a young black woman who was elected student body president at American University only to find nooses hanging across campus on her first day in office. We hear from many more people impacted by the Trump administration, including Native, black, Arab, Latinx, South Asian, Southeast Asian, Muslim, Jewish, Sikh, undocumented, refugee, transgender, queer, and people with disabilities. A necessary book for these times, *American Hate* explores this tragic moment in U.S. history by empowering survivors whose voices white supremacists and right-wing populist movements have tried to silence. It also provides ideas and practices for resistance that all of us can take to combat hate both now and in the future.

United in Hate analyzes the Left's contemporary romance with militant Islam as a continuation of the Left's love affair with communist totalitarianism in the twentieth century. Just as the Left was drawn to the communist killing machines of Lenin, Stalin, Mao, Pol Pot and Castro, so too it is now attracted to radical Islam. Both the radical Left and radical Islam possess a profound hatred for Western culture, for a capitalist economic structure that recognizes individual achievement and for the Judeo-Christian heritage of the United States. Both seek to establish a new world order: leftists in the form of a classless communist society and Islamists in the form of a caliphate ruled by Sharia law. To achieve these goals, both are willing to wipe the slate clean by means of limitless carnage, with the ultimate goal of erecting their utopia upon the ruins of the system they have destroyed.

United in Hate John Sparks

Why did Life Magazine dub her "the most hated woman in America"? Did she unravel the moral fiber of America or defend the Constitution? They found her heaped in a shallow grave, sawed up, and burned. Thus ended Madalyn Murray O'Hair, the articulate "atheist bitch" whose 1963 U.S. Supreme Court case ended school prayer. Her Christian-baiting lawsuits spanned three more decades; she was on TV all over the country, foul-mouthed, witty, and passionate, launching today's culture wars over same-sex marriage and faith-based initiatives. She was a man-hater who loved sex, a bully whose heart broke for the downtrodden. She was accused of schizophrenia, alcoholism, and embezzlement, but never cowardice or sloth. She was an ideologue who spewed toxic rage even at the followers who made

her a millionaire. She was a doting mother who accosted people to ask them to be sexual partners for her lonely children, and whose cannibalistic love led her children to their grave. She thrived on her fame, but just as the curtain of obscurity began to lower, the family vanished in one of the strangest of America's true crimes. This is the real story of "the most hated woman in America," by the only author to interview the killer and those close to him and to witness the family's secret burial in Austin, Texas. From the First Chapter The sky was gray and drizzling, but it had stopped at the funeral home by quarter to nine. Billy Murray hadn't spoken to his three family members for more than twenty years, but he wanted to give them a decent burial. Bill was an ordained minister, but he didn't pray over the charred, sawed-up remains. "Baptists don't pray for the dead," he said. "They either accept Christ before they died or they didn't." He had his mother cremated in accordance with her oft-expressed wish. Her urn sat at the head of the burial vault, as was appropriate, for she had ruled the other two with an iron hand. She was Madalyn Murray O'Hair, 76, founder of American Atheists, and the Most Hated Woman in America—a sobriquet she relished. The other two were his half-brother, Jon Garth Murray, 40, and his daughter, Robin Murray-O'Hair, 30. It had taken five years to find them and bring them to the cemetery for the service, which was kept secret from the public. It was their second burial. Jerry Carruth, the prosecutor who had searched for the family for nearly four years, had watched them being excavated from their shallow mass grave on a South Texas ranch some months before. He was watching the shoveling, looking for the hip replacement joint Madalyn had gotten in 1988. When they found that, he'd know he'd found Madalyn. "There it was," he said, "shining in the sun like a trailer hitch.">

Conversations with People Who Hate Me UNC Press Books

On May 27th, 1784, Wolfgang Amadeus Mozart met a flirtatious little starling in a Viennese shop who sang an improvised version of the theme from his Piano Concerto no. 17 in G major. Sensing a kindred spirit in the plucky young bird, Mozart bought him and took him home to be a family pet. For three years, the starling lived with Mozart, influencing his work and serving as his companion, distraction, consolation, and muse. Two centuries later, starlings are reviled by even the most compassionate conservationists. A nonnative, invasive species, they invade sensitive habitats, outcompete local birds for nest sites and food, and decimate crops. A seasoned birder and naturalist, Lyanda Lynn Haupt is well versed in the difficult and often strained relationships these birds have with other species and the environment. But after rescuing a baby starling of her own, Haupt found herself enchanted by the same intelligence and playful spirit that had so charmed her favorite composer. In *Mozart's Starling*, Haupt explores the unlikely and remarkable bond between one of history's most cherished composers and one of earth's most common birds. The intertwined stories of Mozart's beloved pet and Haupt's own starling provide an unexpected window into human-animal friendships, music, the secret world of starlings, and the nature of creative inspiration. A blend of natural history, biography, and memoir, *Mozart's Starling* is a tour de force that awakens a surprising new awareness of our place in the world.

In this fascinating historical and cultural biography, Peter Stanford deconstructs that most vilified of Bible characters: Judas Iscariot, who famously betrayed Jesus with a kiss. Beginning with the gospel accounts, Stanford explores two thousand years of cultural and theological history to investigate how the very name Judas came to be synonymous with betrayal and, ultimately, human evil. But as Stanford points out, there has long been a

counter-current of thought that suggests that Judas might in fact have been victim of a terrible injustice: central to Jesus' mission was his death and resurrection, and for there to have been a death, there had to be a betrayal. This thankless role fell to Judas; should we in fact be grateful to him for his role in the divine drama of salvation? "You'll have to decide," as Bob Dylan sang in the sixties, "Whether Judas Iscariot had God on his side." An essential but doomed character in the Passion narrative, and thus the entire story of Christianity, Judas and the betrayal he symbolizes continue to play out in much larger cultural histories, speaking to our deepest fears about friendship, betrayal, and the problem of evil.

The first comprehensive undercover look at the terrorist movement no one is talking about. Men Who Hate Women examines the rise of secretive extremist communities who despise women and traces the roots of misogyny across a complex spider web of groups. It includes eye-opening interviews with former members of these communities, the academics studying this movement, and the men fighting back. Women's rights activist Laura Bates wrote this book as someone who has been the target of many hate-fueled misogynistic attacks online. At first, the vitriol seemed to be the work of a small handful of individual men... but over time, the volume and consistency of the attacks hinted at something bigger and more ominous. As Bates went undercover into the corners of the internet, she found an unseen, organized movement of thousands of anonymous men wishing violence (and worse) upon women. In the book, Bates explores: Extreme communities like incels, pick-up artists, MGTOW, Men's Rights Activists and more The hateful, toxic rhetoric used by these groups How this movement connects to other extremist movements like white supremacy How young boys are targeted and slowly drawn in Where this ideology shows up in our everyday lives in mainstream media, our playgrounds, and our government By turns fascinating and horrifying, Men Who Hate Women is a broad, unflinching account of the deep current of loathing toward women and anti-feminism that underpins our society and is a must-read for parents, educators, and anyone who believes in equality for women. Praise for Men Who Hate Women: "Laura Bates is showing us the path to both intimate and global survival."—Gloria Steinem "Well-researched and meticulously documented, Bates's book on the power and danger of masculinity should be required reading for us all."—Library Journal "Men Who Hate Women has the power to spark social change."—Sunday Times

The Karl Marx called religion "The opiate of the masses." The Addiction of Religion is a journey into the exploration of how religion shapes our lives. It is a moving view into religion from the perspective religion as an addiction. It raises the question are we addicted to religion? Are we holding on to fallacies that our parents learned from their parents? Where does the LGBTQ community fit into the scope of religion? How do I find acceptance and my soul's true identity in the universe? Can all of the other religions that are not my own really be wrong? What if everything they taught me about religion isn't even real? The Addiction of Religion takes a candid look at several religious points of view to see their similarities and their differences. Look to understand how the addiction to religion starts and grows with us as we grow into adulthood.
