This volume fills a gap in the existing literature and proposes an interdisciplinary and multicultural comparative approach to the impact of Hallyu worldwide. The contributors analyze the spread of South Korean popular products from different perspectives (popular culture, sociology, anthropology, linguistics) and from different geographical locations (Asia, Europe, North America, and South America). The contributors come from a variety of countries (UK, Japan, Argentina, Poland, Bulgaria, Czech Republic, Indonesia, USA, Romania). The volume is divided into three sections and twelve chapters that each bring a new perspective on the main topic. This emphasizes the impact of Hallyu and draws real and imaginary "maps" of the export of South Korean cultural products. Starting from the theoretical backgrounds offered by the existing literature, each chapter presents the impact of Hallyu in a particular country. This applied character does not exclude transnational comparisons or critical interrogations about the future development of the phenomenon. All authors are speaking about their own, native cultures. This inside perspective adds an important value to the understanding of the impact of a different culture on the "national" culture of each respective country. The contributions to this volume illustrate the "globalization" of the cultural products of Hallyu and show the various faces of Hallyu around the world.

Breaking the Glass Box includes spiritual formation process for liberation from gender oppression through multiple awareness practices of conflicts in han-based Korean culture of society and church. The metaphor has multiple liberation process: "invisible glass box," "visible glass box," "breaking the glass box," and "sticky rice." This liberation process includes conscientization, consciousness-raising, and a heightened cultural awareness in discerning the reasons of interpersonal conflicts in Korean socio-cultural contexts. By exploring the multi-faceted han-jeong dynamics with Feminist theology and Asian Feminism, the important aspects of re-imagining the self and God as spiritual formation have been examined with contemplative practices of Internal Family System (IFS) and self-compassion to create the healthy jeong-filled solidarity group. The "sticky rice" is a new cultural paradigm for Korean women's jeong-filled hospitality. The broken pieces of the glass box will be transformed into the grains of rice by the positive jeong-filled hospitality of cooking sticky rice. In the solidarity group of jeong-filled hospitality, represented by rice ready to cook a serving of delicious sticky rice, people can enjoy the fellowship of healing, forgiving, and reconciling of the sticky rice. These images are intended to promote a healthy community of ministry and spirituality for Korean women.

Korea, Are You at Peace? Bloomsbury Publishing USA
Intended as a companion to the popular KLEAR Textbooks in Korean Language series and designed and edited by a leading Korean linguist, this is the first volume of its kind to treat specifically the critical role of language in Korean culture and society. An introductory chapter provides the framework of the

volume, defining language, culture, and society and their interrelatedness and presenting an overview of the Korean language vis-à-vis its culture and society from evolutionary and dynamic perspectives. Early on, contributors examine the invention and use of the Korean alphabet, South Korea's "standard language" vs. North Korea's "cultured language," and Korean in contact with Chinese and Japanese. Several topics representative of Korean socio-cultural vocabulary (sound symbolic words, proverbs, calendar-related terms, kinship terms, slang expressions) are discussed, followed by a consideration of Korean honorifics and other related issues. Two chapters on Korean media, one on advertisements and the other a comparative analysis of television ads in Korea, Japan, and the U.S., follow. Finally, contributors look at salient features of the language, narrative structure, and dialectal variation. All chapters are accompanied by a set of student questions and a useful bibliography. A beginning level of proficiency in Korean is sufficient to digest the Korean examples with facility, making this volume accessible to a wide range of students. Contributors: Andrew S. Byon, Sungdai Cho, Young-A Cho, Young-mee Y. Cho, Miho Choo, Shin Ja J. Hwang, Ross King, Haejin Elizabeth Koh, Jeyseon Lee, Douglas Ling, Duk-Soo Park, Yong-Yae Park, S. The book known as the Old Testament is actually a collection of stories, songs, prophetic addresses, wise sayings, and other bits of literature composed over centuries and compiled for the use of worshiping communities. These texts appeared in ancient Israel, reflecting its traumas and less frequent triumphs. Far from being comfortable texts that sedate over-stimulated readers, they offer critique of the powerful for the sake of those for whom the only tool of overcoming oppression is language itself. Because of the distance in time and cultural experience, the Old Testament is often inaccessible to modern readers. This introduction bridges that distance and makes the connections across time and culture come alive. The Bible assembles a wide range of literary types because of the needs of the communities first using it as they preserved the legacy of their past, good and bad, for the sake of a viable future. Their legacy continues as relevant as ever. This introduction, then, seeks to help readers make sense of the variety and hear within it points of commonality as well. The Old Testament is a book readers look to for meaning. Christian readers, especially, have difficulty connecting with the theological meanings of the texts. Mark Hamilton offers an introduction that addresses theological issues directly and sensitively. Considering the massive sweep of literary types and ways of expressing ideas about God, A Theological Introduction to the Old Testament offers an alternative to introductions based solely on historical or literary themes.

Manhae (1879-1944), or Han Yongun, was a Korean Buddhist (Son) monk during the era of Japanese colonial occupation (1910-1945). Manhae is a political and cultural hero in Korea, and

his works are studied by college students and school children alike. Everything Yearned For is a collection of 88 love poems, evocative of the mystical love poetry of Rumi, and even reminiscent of the work of Pablo Neruda. Though Manhae's poetry can be read allegorically on many levels - political and religious - it is completely unlike any other poetry in Buddhist or secular realm. The first poem, "My Lover's Silence," narrates the lover's departure and establishes the enduring themes of the work: the happiness of meeting, the sadness of separation, the agony of longing and waiting, and, most of all, the perfection of love in absence that demands the cost of one's ongoing life, as opposed to the relief of death. The Korean word translated in these poems as "love" and "lover" is nim, though nim has many and broad interpretations. Understandably, the identity of Manhae's lover, or "nim" has been the subject of much speculation. Manhae writes in

his own preface: "Nim" is not only a human lover but everything yearned for. All beings are nim for the Buddha, and philosophy is the nim of Kant. The spring rain is nim for the rose, and Italy is the nim of Mazzini. Nim is what I love, but it also loves me. If romantic love is freedom, then so is my nim. But aren't you attached to the lofty name of freedom? Don't you also have a nim? If so, it's only your shadow. I write these poems for the young lambs wandering lost on the road home from the darkening plains.
