(Keyboard Instruction). Written by Kansas City's first-call keyboardist Wayne Hawkins, Piano Aerobics is a multi-style, 40-week workout program for building real-world technique. Often when students decide to play in contemporary styles, they lack the chops for the job. The exercises in Piano Aerobics will introduce students to styles such as jazz, salsa, swing, rock,

blues, new age, gospel, stride and bossa nova, and help them play with more musical flair. Concepts covered include: keeping time; hand independence; articulations; building a better touch; strengthening weak fingers; accompanying; using the thumb; ear training; and more. The accessible online audio features professional musicians performing accompaniment tracks in each style.

At 2.26 million, incarcerated Americans not only outnumber the nation's fourth-largest city, they make up a national constituency bound by a shared condition. Fourth City: Essays from the Prison in America presents more than seventy essays from twenty-seven states, written by incarcerated Americans chronicling their experience inside. In essays as moving as they are eloquent, the authors speak out against a national prison complex that fails so

badly at the task of rehabilitation that 60% of the 650,000 Americans released each year return to prison. These essays document the authors' efforts at self-help, the institutional resistance such efforts meet at nearly every turn, and the impact, in money and lives, that this resistance has on the public. Directly confronting the images of prisons and prisoners manufactured by popular media, so-called reality TV, and for-profit local and national news sources, Fourth City recognizes American prisoners as our primary, frontline witnesses to the dysfunction of the largest prison system on earth. Filled with deeply personal stories of coping, survival, resistance, and transformation, Fourth City should be read by every American who believes that law should achieve order in the cause of justice rather than at its cost.

The essential guide to the theory and application of the Social Change Model Leadership for a Better World provides an approachable introduction to the Social Change Model of Leadership Development (SCM), giving students a real-world context through which to explore the seven C's of leadership for social change as well as approaches to socially responsible leadership. From individual, group, and community values through the mechanisms of societal change itself, this book provides fundamental coverage of this increasingly vital topic.

Action items, reflection, and discussion questions throughout encourage students to think about how these concepts apply in their own lives. The Facilitator's Guide includes a wealth of activities, assignments, discussions, and supplementary resources to enrich the learning experience whether in class or in the co-curriculum. This new second edition includes student self-assessment rubrics for each element of the model and new discussion on the critical roles of leadership self-efficacy, social perspective, and social justice perspectives. Content is enriched with research on how this approach to leadership is developed, and two new chapters situate the model in a broader understanding of leadership and in applications of the model. The Social Change Model is the most widely-used leadership model for college students, and has shaped college leadership curricula at schools throughout the U.S. and other countries including a translation in Chinese and Japanese. This book provides a comprehensive exploration of the model, with a practical, relevant approach to real-world issues. Explore the many facets of social change and leadership Navigate group dynamics surrounding controversy, collaboration, and purpose Discover the meaning of citizenship and your commitment to the greater good
