**A World Without Hunger** Bloomsbury Publishing USA  
 "The Nineteenth Amendment was ratified in 1920 giving women in the United States the right to vote. 100 Years of the Nineteenth Amendment looks back at this 100-year history and asks, how has women's political engagement unfolded over the last century? The book's chapters consider women's successes in the political realm but also biases that women still confront. Volume contributors pay particular attention to the diverse backgrounds and perspectives women bring to the political arena, reminding us of the insights provided by an intersectional perspective" (ed.).  
**The 100 Most Influential Writers of All Time** The Rosen Publishing Group, Inc  
 The authors use quantitative analysis to rank the prominence of more than 1,000 of history's biggest figures, while also discussing trends gleaned from the rankings, as well as the computational methods used to determine the rankings.  
**100 Years of the Nineteenth Amendment** The Rosen

Publishing Group, Inc  
 Profiles one hundred of the most influential writers throughout history, including Homer, Chaucer, Shakespeare, Dickens, Dostoyevsky, George Eliot, and J.K. Rowling.  
**Britannica Guide to 100 Most Influential Americans** Citadel Press  
 This volume of over thirty essays is organised around five primary dimensions of Hillary Clinton's influence: policy, activism, campaigns, women's ambition and impact on parents and their children. Combining personal narrative with scholarly expertise in political science, this volume looks at American politics through the career of Hillary Clinton in order to illuminate overarching trends related to elections, gender and public policy. Featuring an extraordinarily varied list of contributors working within the field of political science, and a fresh interdisciplinary approach, this book will appeal to broad range of politically engaged audiences, practitioners and scholars.

Consumer advocate, activist, humanitarian, and former presidential candidate Ralph Nader is arguably the most provocative and important progressive voice in America today—a fearless reformer whom *The Atlantic* named one of the 100 most influential figures in American history. In these troubling times of intractable fiscal and social distress, Nader offers a new program to help rescue America: *The Seventeen Solutions*. His powerful, paradigm-shifting proposals address some of the most pressing concerns in our country today—from corporate crime to tax reform to health care and housing—and they should find a receptive audience not only among liberals, progressives, disillusioned Democrats, Rachel Maddow fans, and Occupy Wall Street supporters, but all concerned Americans.

**The 100 Most Influential Women of All Time** Encyclopaedia Britannica, Inc.

The year 2011 will go down in history as a turning point for the Arab world. The popular unrest that swept across the region and led to the toppling of the Ben Ali, Mubarak, and Qaddafi regimes in Tunisia, Egypt, and Libya has fundamentally altered the social, economic, and political outlooks of these countries and the region as a whole. This book assesses the transition processes unleashed by the uprisings that took place in Egypt and Tunisia in 2011. The wave of unrest and popular mobilisation that swept through these countries is treated as the point of departure of long and complex processes of change, manipulation, restructuring, and entrenchment of the institutional structures and logics that defined politics. The book explores the constitutive elements of institutional development, namely processes of constitution making, electoral politics, the changing status and power of the judiciary, and the interplay between the civilian and the military apparatuses in Egypt and Tunisia. It also considers the extent to which these two countries have become more democratic, as a result of their institutions being more legitimate, accountable, and responsive, at the beginning of 2014 and from a comparative perspective. The impact of temporal factors in shaping transition paths is highlighted throughout the book. The book provides a comprehensive assessment of political and institutional transition processes in two key countries in North Africa and its conclusions shed light on similar processes

that have taken place throughout the region since 2011. It will be a valuable resource for anyone studying Middle Eastern and North African politics, area studies, comparative institutional development and democratisation.

The 100 Most Influential Philosophers of All Time Bloomsbury Publishing

Shining the spotlight on a hundred men and women who really made a difference to the world's most powerful nation, this book features the lives and achievements of extraordinary Americans—presidents and sports figures, film stars and physicists, generals and Internet mavericks—from the age of the Founding Fathers to the present. Telling the stories of lives of men and women over the last 300 years, the book celebrates their achievements and presents a revealing history of the United States. Selected by the editors of *Encyclopaedia Britannica*, the book contains surprises and insights into the personalities that created America and is bound to cause debate.

This short book rewrites the history of modern American liberalism. It shows that what we think of as liberalism—the top-and-bottom coalition we associate with President Obama—began not with Progressivism or the New Deal but rather in the wake of WWI, in disillusionment with American society. In the 1920s, the first thinkers to call themselves liberals adopted the hostility to bourgeois life that had long characterized European intellectuals of both the left and right. The aim of liberalism's founders—such as Herbert Croly, Randolph Bourne, H.G. Wells, Sinclair Lewis, and H.L. Mencken—was to create an American version of the aristocracy long associated with European statism. Critical of mass democracy and middle-class capitalism, liberals despised the businessman's pursuit of profit as well as the conventional individual's pursuit of pleasure; and in the 1950s liberalism expressed itself in the scornful critique of popular culture. It was precisely the success of a recently elevated middle-class culture that frightened the leaders of the New Class, who took up the priestly task of de-democratizing America in the name of administering newly developed rights. The neo-Malthusianism that emerged from the 1960s did not aim to control the breeding habits of the lower classes, as its eugenicist precursors had done, but to mock and restrain the buying habits of the middle class. Today's brand of liberalism, led by Barack Obama, has displaced the old Main Street private-sector middle class with a new middle class composed of public-sector workers allied with crony capitalists and the country's arbiters of elite style and taste.

Contemporary public speaking remains an important part of our national life and a substantial force in shaping current events. Many of America's most important moments and issues, such as wars, scandals, election campaigns, September 11, 2001, have been defined by oratory. Here, over 50 essays cover a substantial and interesting group of major American social, political, economic, and cultural figures from the 1960s to the present. Each entry explains the biographical forces that shaped a speaker and his or her rhetorical approach, focuses mainly on a discussion of the orator's major speeches within the context of historical events, and concludes with an appraisal of the speaker and his or her contribution to American political and social life. All entries incorporate chronologies of major speeches, bibliographies including primary sources, biographies, and critical

studies and archival collections or Web sites appropriate for student research. Entries include high profile individuals such as: John D. Ashcroft, Elizabeth Dole, Jerry Falwell, Anita Hill, Ralph Nader, Ronald Reagan, Janet Reno, Gloria Steinem, Malcolm X; and many others. Excerpts of major speeches and sidebars complement the text. Ideal for researchers and students in public speaking classes, American history classes, American politics classes, contemporary public address classes, and rhetorical theory/criticism classes.

Since 1619, when Africans first came ashore in the swampy Chesapeake region of Virginia, there have been many individuals whose achievements or strength of character in the face of monumental hardships have called attention to the genius of the African American people. This book attempts to distill from many wonderful possibilities the 100 most outstanding examples of greatness. Pioneering scholar of African American Studies Molefi Kete Asante has used four criteria in his selection: the individual's significance in the general progress of African Americans toward full equality in the American social and political system; self-sacrifice and the demonstration of risk for the collective good; unusual will and determination in the face of the greatest danger or against the most stubborn odds; and personal achievement that reveals the best qualities of the African American people. In adopting these criteria Professor Asante has sought to steer away from the usual standards of popular culture, which often elevates the most popular, the wealthiest, or the most photogenic to the cult of celebrity. The individuals in this book - examples of lasting greatness as opposed to the ephemeral glare of celebrity fame - come from four centuries of African American history. Each entry includes brief biographical information, relevant dates, an assessment of the individual's place in African American history with particular reference to a historical timeline, and a discussion of his or her unique impact on American society. Numerous pictures and illustrations will accompany the articles. This superb reference work will complement any library and be of special interest to students and scholars of American and African American history.

research garnered her the Nobel Prize in Medicine. The detailed profiles of these and many other notable scientists collected in these pages are bound to fascinate and inspire readers.

*Who's Bigger?* Harper Collins

Straight talk about George W. Bush, corporate government, and the whole charade of presidential campaigning -- from the last honest man in American politics Ralph Nader -- brilliant visionary, relentless activist -- may be the most honest man left in politics. And yet his presidential campaigns have faced consistent opposition -- mainly from Democrats afraid that competition from an inspiring independent could dent their voting block. Now, in *The Good Fight*, Nader swings back harder than ever at those who "want to block the American people from having more voices and choices" and have lost touch with the concept that votes must be earned, not inherited or entitled. While taking on corporate-occupied Washington and the government's daily abuse of ordinary citizens, he urges a speedy return to stronger civic motivation. If fed-up citizens don't actively join the fight for better leadership, then ultimately we have no one to blame but ourselves for the inadequate checks on the erosion of our civil liberties. In an era when politicians sell us rhetoric and then sell out our principles, Nader stands as a crucial voice of candor. *The Good Fight* is a stirring response to politics as usual, one that will captivate readers of all political stripes and help us define what we must do to shape the brightest future for our nation.

The 100: The Greatest People in History New York, Putnam

Comprehensive accounts of the lives and careers of important contemporary figures in politics, science, religion, and the arts.

*The 100 Most Important Sporting Events in American History* Britannica Educational Publishing

This engaging and informative work highlights the 100 biggest moments in the history of American sports, illustrating powerful connections between sporting events and significant social issues of the time. In this homage to sports history, author Lew Freedman compiles athletic feats that caught fans off guard, inspired awe, and left viewers on the edge of their seats, all while making an impression on the world at large. Freedman ranks 100 of the greatest moments in sports, reflecting on the dramatic impact of the events as well as their greater influence on American society of the time. The work showcases the social, historical, and cultural background of memorable games, teams, and athletes, highlighting the enduring value and importance of each selection. An introduction discusses the history of sports and explains the criteria for choosing the 100 sporting events in the book. Fascinating, little-known facts punctuate entries, such as how the athletic accomplishments of Jackie Robinson and Joe Louis helped ease racial tensions in the United States; why the passage of Title IX changed gender relations in the United States forever; and which technologies have altered the way Americans view sport. Content also traces the tremendous advancements of safety gear in sports, from the batting helmet and catchers' shin guards in baseball, to the hardshell helmet and face guard in football, to the face mask for goalies in hockey.
