Discover and create a dynamic new model for growing your business by connecting with customers outside your usual field of view Do you think you know your ideal customer? Think again. Many businesses create an ideal consumer profile—aiming all their sales and marketing efforts towards this single type of person—and end up missing out on endless opportunities to sell their services or products. Award-winning business coach, speaker and author Pamela Slim has helped thousands of entrepreneurs around the world start, sustain, and scale their businesses. In *The Widest Net*, she explains how to build strong diverse relationships, identify and connect with new partners, expand markets, generate leads, and find new customers in places you may never have considered. Social media is a valuable business tool, but it can often create a comfortable cocoon for entrepreneurs, marketers, and leaders who all need to understand the entirety of the marketplace, not just their own social graph. With this book as a guide, you'll learn how to connect with potential clients and customers using the true breadth of the marketplace, which she calls an ecosystem of living connections. *The Widest Net* shows how to: Search outside your own lens/bias/routine/history to target ideal customers. Attract the interest and attention of new leads by learning more about them authentically. Develop products and services suited to these customers. Sell through a trusted reciprocity framework where your customers become part of your ecosystem and you each help the other grow. Build and sustain loyalty and trust with new customers. Nurture a diverse and resilient customer base by identifying and adjusting to the ideal customer target over time.

When David Westin became president of ABC News in March 1997, the division was treading water. "It looked like all the really important news was behind us," he writes. Hardly. For the next thirteen years, Westin would preside over ABC News during some of the most important and perplexing events in its history: • President Clinton's impeachment • The tied 2000 presidential election • The 9/11 attacks • Conflicts in Iraq and Afghanistan • The swift boat smear campaign against Senator John Kerry Exit Interview is a behind-the-scenes look at Westin's tenure and the major news that marked it. He takes us inside the chaos of the newsroom—alongside major players such as Peter Jennings, Barbara Walters, Diane Sawyer, and Bob Woodruff—where what looks clear and certain from the outside is often mired in conflict and urgency. Neither an apology nor a critique, the book charts the ups and downs of fourteen formative years in network news, addressing basic questions about how our news is reported, from the point of view of someone who was there. With milestones from the recent past, Westin explores the uncertainty inherent in his job, and its central question: Is it possible for journalists to be both good at their jobs and people of good moral character?

Selected by the Modern Library as one of the 100 best nonfiction books of all time From the Modern Library's new set of beautifully repackaged hardcover classics by Truman Capote—also available are *Breakfast at Tiffany's* and *Other Voices, Other Rooms* (in one volume), *Portraits and Observations*, and *The Complete Stories* Truman Capote's masterpiece, *In Cold Blood*, created a sensation when it was first published, serially, in *The New Yorker* in 1965. The intensively researched, atmospheric narrative of the lives of the Clutter family of Holcomb, Kansas, and of the two men, Richard Eugene Hickock and Perry Edward Smith, who brutally killed them on the night of November 15, 1959, is the seminal work of the "new journalism." Perry Smith is one of the great dark characters of American literature, full of contradictory emotions. "I thought he was a very nice gentleman," he says of Herb Clutter. "Soft-spoken. I thought so right up to the moment I cut his throat." Told in chapters that alternate between the Clutter household and the approach of Smith and Hickock in their black Chevrolet, then between the investigation of the case and the killers' flight, Capote's account is so detailed that the reader comes to feel almost like a participant in the events.

alive.”—The New York Times Book Review “Luxuriantly created and richly told.”—The Cleveland Plain Dealer

In-depth interviews and close observation are essential to the work of social scientists, but inserting one's researcher-self into the lives of others can be daunting, especially early on. Esteemed sociologist Annette Lareau is here to help. Lareau's clear, insightful, and personal guide is not your average methods text. It promises to reduce researcher anxiety while illuminating the best methods for first-rate research practice. As the title of this book suggests, Lareau considers listening to be the core element of interviewing and observation. A researcher must listen to people as she collects data, listen to feedback as she describes what she is learning, listen to the findings of others as they delve into the existing literature on topics, and listen to herself in order to sift and prioritize some aspects of the study over others. By listening in these different ways, researchers will discover connections, reconsider assumptions, catch mistakes, develop and assess new ideas, weigh priorities, ponder new directions, and undertake numerous adjustments—all of which will make their contributions clearer and more valuable. Accessibly written and full of practical, easy-to-follow guidance, this book will help both novice and experienced researchers to do their very best work. Qualitative research is an inherently uncertain project, but with Lareau's help, you can alleviate anxiety and focus on success.
