From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called “the Dear Abby of the work world.” Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit “reply all” • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager “A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work.”—Booklist (starred review) “The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience.”—Library Journal (starred review) “I am a huge fan of Alison Green's Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor.”—Robert Sutton, Stanford professor and author of *The No Asshole Rule* and *The Asshole Survival Guide* “Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way.”—Erin Lowry, author of *Broke Millennial: Stop Scraping By and Get Your Financial Life Together*

Committed trainers and owners can solve this problem!

Treating separation anxiety in dogs is not quick or easy—but it can be done. The successful ingredients are cooperation, commitment and time on the part of the dog trainer and the owners. In this important new book, author Malena DeMartini-Price shares her 5 Phase Treatment Protocol and related strategies to help dogs overcome the fear of being left alone and addresses the trauma it can inflict on both the dog and their owners. Trainer handouts, detailed step-by-step training tips and a sample initial interview questionnaire are included.

Learn about:

- The critical role that “suspending absences” plays in the early part of the treatment plan and how owners and trainers can make this more manageable.
- How dog trainers can make the treatment of separation anxiety in dogs a specialized business.

- The role that management techniques and medications can play to help support the recommended behavior modification strategies.
- How technology, including remote feeding devices and web cams, can be used to monitor a dog's progress in overcoming his fear of being left alone.

A dog book for the 99%, *The Dog Walker* is a hugely entertaining look at the world's greatest job—by an activist who spent a decade as a dog walker for the political class Dog walking: it's every eight-year-old's dream! You spend your day outdoors; you interact exclusively with silly, loving, ridiculous dogs; and you get paid for it. But the reality is . . . well, actually, the reality is pretty great, too, at least according to the anarchist Joshua Stephens's eye-opening account of the dog walker's life. An Anthony Bourdain of the dog walking set, Stephens reports on what every master of the trade—and every informed consumer—needs to know: always keep a spare set of keys, always have references, and never, ever board your beloved pet. But Stephens also goes deeper: he shows us what dog walking reveals about everything from gentrification to street harassment, and why radical empathy must always anchor every interaction—canine or otherwise. Rich with hilarious anecdotes, brilliant observations, and a powerful political conscience, *The Dog Walker* calls to mind David Rakoff at his most sardonic—if, that is, Rakoff had been an anarchist who walked dogs for a living. An irreverent and perceptive fish-out-of-water story, *The Dog Walker* is totally irresistible.

A dog is an ideal workout partner: always supportive, happy to go for a walk and never judgmental. The human-companion animal bond is a great way to help you and your dog lose weight or stay fit. When people and dogs exercise together, fitness and health happen on both ends of the leash. As the obesity epidemic spreads, 70% of Americans and 50% of dogs are overweight or obese, resulting in staggering health care costs and suffering. The causes, consequences, and treatment for overweight and obesity are strikingly similar in people and dogs. *Walk a Hound, Lose a Pound*, written by an expert veterinary surgeon and a leading nurse researcher, helps you move from a food-centered relationship with dogs, to an exercise-centered relationship. Even better, you don't have to own a dog! The book gives several creative suggestions to exercise or walk a dog even if you do not or cannot have one. This volume is designed for dog lovers, dog owners and families. Based on the latest scientific findings, it will also help professionals (including physicians, veterinarians, and physical therapists) fight obesity and promote fitness in both people and pets. Dog-walking programs can easily be implemented in neighborhoods, parks, workplaces, animal shelters, hospitals, retirement homes and obesity clinics, and this book shows you how to establish them. In nearly every health care profession, practitioners are teaching human patients and dog owners on a daily basis about the risks of obesity. Never has there been a more compelling time for innovative approaches to increasing physical activity, reforming sedentary lifestyles, and enhancing fitness. *Walk a Hound, Lose a Pound* provides specific strategies for people and dogs to exercise together, lose weight together, and have fun in the process.

"Since pets communicate nonverbally, this book will help you recognize if your pet is suffering from [fear, anxiety, and stress]. By knowing your dog's body language, vocalizations, and changes in normal habits, you can make an accurate diagnosis and take action to prevent triggers or treat the fallout if they do happen"--Amazon.com.

Cesar Millan—nationally recognized dog expert—helps you see the world through the eyes of your dog so you can finally eliminate problem behaviors. From his appearances on The Oprah Winfrey Show to his roster of celebrity clients to his reality television series, Cesar Millan is America's most sought-after dog-behavior expert. But Cesar is not a trainer in the traditional sense—his expertise lies in his unique ability to comprehend dog psychology. Tracing his own amazing journey from a clay-walled farm in Mexico to the celebrity palaces of Los Angeles, Cesar recounts how he learned what makes dogs tick. In *Cesar's Way*, he shares this wisdom, laying the groundwork for you to have stronger, more satisfying relationships with your canine companions. Cesar's formula for a contented and balanced dog seems impossibly simple: exercise, discipline, and affection, in that order. Taking readers through the basics of dog psychology and behavior, Cesar shares the inside details of some of his most fascinating cases, using them to illustrate how common behavior issues develop and, more important, how they can be corrected. You'll learn:

- What your dog really needs may not be what you're giving him
- Why a dog's natural pack instincts are the key to your happy relationship
- How to relate to your dog on a canine level
- There are no "problem breeds," just problem owners
- How to choose a dog who's right for you and your family
- The difference between discipline and punishment
- And much more!

Filled with fascinating anecdotes about Cesar's longtime clients, and including forewords by the president of the International Association of Canine Professionals and Jada Pinkett Smith, this is the only book you'll need to forge a stronger, more rewarding connection with your four-legged companion.

Refreshing and insightful, rich with humour and brimming with life, this is the story of Nina Shepard, dog walker extraordinaire. With the keys to many strangers' apartments, Nina has the access, the freedom, and the choice to cross a moral boundary, and several foyers, and enter into other people's lives. And so she falls in love with Daniel, a man she has never met but whom she thinks she knows from snooping in his apartment when she picks up his dog for walks. But both Nina and Daniel are imposters, pretending to be what they are not. By the time they learn who the other really is, after mishaps and mistaken identities, deception and lost dogs, it's too late. They've learned too much about themselves and will never be the same again.

Treating Separation Anxiety In Dogs Dogwise Publishing

"Sparkles with humor, joy and wit. London's Number One Dog-Walking Agency bounds along with the energy of a rambunctious pup and exudes the wisdom of a beloved canine with an old soul (you know the type)." — BookPage The irresistibly charming memoir of a young woman who started her own business as a dog walker for London's busy, well-heeled dog lovers. A true love letter to London, dogs, and growing up. Aside from the odd biter or growler, the occasional bolter and the one dog who didn't want to walk, the canines were the easy part. They were a muddy, messy joy in all shapes, sizes and breeds, from greedy Labradors to pampered pugs and everything in between. It was the owners who were the real challenge, a giddy mix of the over-protective, the clueless, the eccentrics and the perfectionists. There is no rule book on how to navigate the obsessions of the London dog owner. A degree in human psychology would have been far preferable to any sort of animal qualification. Not that I had either... In 2006, Kate MacDougall was working a safe but dull job at the venerable auction house Sotheby's in London. After a clumsy accident nearly destroyed a precious piece of art, she quit Sotheby's and set up her own dog-walking company. Kate knew little about dogs and nothing about business, and no one thought being a professional dog walker was a good use of her university degree. Nevertheless, Kate embarked upon an entirely new and very much improvised career walking some of the city's many pampered pooches, branding her company "London's Number One Dog Walking Agency." With sharp wit, delightful observations, and plenty of canine affection, Kate reveals her unique and unconventional coming-of-age story, as told through the dogs, and the London homes and neighborhoods they inhabit. One walk at a time, she journeys from a haphazard twentysomething to a happily—and surprisingly—settled adult, with love, relationships, drama, and home ownership along the way. But, as Kate says, "It's all down to the dogs" and what they taught her about London—and life.
