During the Cold War, freedom of expression was vaunted as liberal democracy's most cherished possession—but such freedom was put in service of a hidden agenda. In *The Cultural Cold War*, Frances Stonor Saunders reveals the extraordinary efforts of a secret campaign in which some of the most vocal exponents of intellectual freedom in the West were working for or subsidized by the CIA—whether they knew it or not. Called "the most comprehensive account yet of the [CIA's] activities between 1947 and 1967" by the *New York Times*, the book presents shocking evidence of the CIA's undercover program of cultural interventions in Western Europe and at home, drawing together declassified documents and exclusive interviews to expose the CIA's astonishing campaign to deploy the likes of Hannah Arendt, Isaiah Berlin, Leonard Bernstein, Robert Lowell, George Orwell, and Jackson Pollock as weapons in the Cold War. Translated into ten languages, this classic work—now with a new preface by the author—is "a real contribution to popular

understanding of the postwar period" (*The Wall Street Journal*), and its story of covert cultural efforts to win hearts and minds continues to be relevant today.

*Hoosiers and the American Story* St. Martin's Press

Bridging the fields of conservation, art history, and museum curating, this volume contains the principal papers from an international symposium titled "Historical Painting Techniques, Materials, and Studio Practice" at the University of Leiden in Amsterdam, Netherlands, from June 26 to 29, 1995. The symposium—designed for art historians, conservators, conservation scientists, and museum curators worldwide—was organized by the Department of Art History at the University of Leiden and the Art History Department of the Central Research Laboratory for Objects of Art and Science in Amsterdam. Twenty-five contributors representing museums and conservation institutions throughout the world provide recent research on historical painting techniques, including wall painting and polychrome sculpture. Topics cover the latest art historical research and scientific analyses of original techniques and materials, as well as historical sources, such as medieval treatises and descriptions of painting techniques in historical literature. Chapters include the painting methods of Rembrandt and Vermeer, Dutch 17th-century landscape painting, wall

paintings in English churches, Chinese paintings on paper and canvas, and Tibetan thangkas. Color plates and black-and-white photographs illustrate works from the Middle Ages to the 20th century.

A vivid trip through the mind of the top professional wrestler in the business—a nobody from nowhere who achieved his ambitions and walked away with the gold and the girl of his dreams. Ride alongside Jon Moxley as he retraces some of the highways traveled on his remarkable journey. Revel in the never-before-told stories about his early life in Cincinnati, Ohio; the gritty independent wrestling scene where he cut his teeth; the complicated corporate landscape of the WWE where he bucked against authority; and the rebellious upstart AEW, where he won the championship in 2020 and was finally free to achieve the vision of the wrestler he'd always wanted to be. With plenty of pitstops and revelatory insights, including grisly ultraviolent encounters, crazy characters who became lifelong friends, and his unforgettable matches in Japan, MOX is the riveting account of the life of a brawler. It is a tale written in blood and soaked in debauchery, with a good dose of wisdom accumulated along the way. More than a backstage pass into the arena, MOX is a ticket into the ring. Once inside, you'll never look at pro wrestling the same again.

Warfare in the Old Testament brides the gap between the modern reader and the world of the Old Testament by using textual and physical evidence to describe ancient military practices in Israel, Egypt, Philistia, Assyria, Babylon, and Persia. Filled with illustrations and maps, this full-color volume enriches many biblical accounts by showing how Israel and the surrounding nations did battle. Of special interest are the author's treatments of the role that religion played in ancient warfare practices.

YES! YES! YES! Daniel Bryan is the real deal. Everyone's favorite underdog, he's proven to the world and to all of WWE that looks can be deceiving. Just ask everyone who's ever underestimated him...right before he went out and whipped the WWE Universe into a frenzy. This is Bryan's behind-the-scenes story told for the first time ever — from his beginnings as a child wanting to wrestle to his ten years on the circuit before finally making it in WWE. When his "YES!" chant becomes a full-fledged movement, his career skyrockets. This book chronicles all the hard work, values, influences, unique life choices and more leading to his watershed week at WrestleMania 30. You won't want to miss it. Yes! We're sure about this.

The electric and daring independent wrestling tag team share their inspiring story of how two undersized, ambitious athletes from Southern California became the idols of millions of popular sports fans, coveted among the ranks of AEW's elite wrestling lineup. Featuring over 60 photographs and alternating between each brother's perspective, this entertaining memoir is a complete portrait of what it means to grow into—and give back to—wrestling, the sport and profession they embody and love. Famous for their highflying moves, Superkicks, and viral videos, Matt and Nick Jackson are two of the hottest and most talented competitors in professional wrestling today. Known as the Young Bucks, this pair of ambitious brothers are an inspiration to both fans and aspiring wrestlers worldwide due to their message of resilience and determination. That they are also faithful family men devoted to their loved ones gives them additional appeal. Young Bucks begins in Southern California, where two young boys grew up dreaming of success and fame. Matt and Nick look back on the sacrifices they made to achieve their ambitions, from taking odd jobs to pay for their own wrestling ring to hosting backyard events with friends. They share their joy at being recruited into the independent California wrestling circuit and the work it took to finally make it professionally, and speak frankly about what it means to have the support of millions of fans cheering their talents in arenas nationwide. The Young Bucks talk endearingly about their sport, their faith, and their families, sharing personal reflections and behind-the-scenes anecdotes while paying tribute to the wrestling acts and inspirations that came before them. They also elaborate on this historical time in the evolution of wrestling, as the sport and its culture dramatically change day by day. Told with the brothers' signature wit and charm, Young Bucks is warm, heartfelt story of hope, perseverance, and undying ambition.

**The Text of New Testament** R. R. Bowker

On the bustling docks along the River Thames, Great Britain's merchant ships unload the treasures of the world. And here, in dank and sinister alleys, sex merchants ply their lucrative trade. The dreaded kingpin of this dark realm is Jericho Phillips, who seems far beyond the reach of the law. But when thirteen-year-old Fig is found with his throat cut, Commander William Monk of the River Police swears that Phillips will hang for this abomination. Monk's wife, Hester, draws a highly unusual guerrilla force to her husband's cause—a canny ratcatcher, a retired brothel keeper, a

fearless street urchin, and a rebellious society lady. To one as criminally minded as Phillips, these folks are mere mosquitoes, to be sure. But as he will soon discover, some mosquitoes can have a deadly sting.

**Who's who Among African Americans** Simon and Schuster

#1 NEW YORK TIMES BESTSELLER • From the indie rock sensation known as Japanese Breakfast, an unforgettable memoir about family, food, grief, love, and growing up Korean American—“in losing her mother and cooking to bring her back to life, Zauner became herself” (NPR). • CELEBRATING OVER ONE YEAR ON THE NEW YORK TIMES BESTSELLER LIST In this exquisite story of family, food, grief, and endurance, Michelle Zauner proves herself far more than a dazzling singer, songwriter, and guitarist. With humor and heart, she tells of growing up one of the few Asian American kids at her school in Eugene, Oregon; of struggling with her mother's particular, high expectations of her; of a painful adolescence; of treasured months spent in her grandmother's tiny apartment in Seoul, where she and her mother would bond, late at night, over heaping plates of food. As she grew up, moving to the East Coast for college, finding work in the restaurant industry, and performing gigs with her fledgling band—and meeting the man who would become her husband—her Koreanness began to feel ever more distant, even as she found the life she wanted to live. It was her mother's diagnosis of terminal cancer, when Michelle was twenty-five, that forced a reckoning with her identity and brought her to reclaim the gifts of taste, language, and history her mother had given her. Vivacious and plainspoken, lyrical and honest, Zauner's voice is as radiantly alive on the page as it is onstage. Rich with intimate anecdotes that will resonate widely, and complete with family photos, *Crying in H Mart* is a book to cherish, share, and reread.

*The 2030 Spike* Gale Cengage

The clock is relentlessly ticking! Our world teeters on a knife-edge between a peaceful and prosperous future for all, and a dark winter of death and destruction that threatens to smother the light of civilization. Within 30 years, in the 2030 decade, six powerful 'drivers' will converge with unprecedented force in a statistical spike that could tear humanity apart and plunge the world into a new Dark Age. Depleted fuel supplies, massive population growth, poverty, global climate change, famine, growing water shortages and international lawlessness are on a crash course with potentially catastrophic consequences. In the face of both doomsaying and denial over the state of our world, Colin Mason cuts through the rhetoric and reams of conflicting data to muster the evidence to illustrate a broad picture of the world as it is, and our possible futures. Ultimately his message is clear; we must act decisively, collectively and immediately to alter the trajectory of humanity away from catastrophe. Offering over 100 priorities for immediate action, *The 2030 Spike* serves as a guidebook for humanity through the treacherous minefields and wastelands ahead to a bright, peaceful and prosperous future in which all humans have the opportunity to thrive and build a better civilization. This book is powerful and essential reading for all people concerned with the future of humanity and planet earth.

'Blown to Bits' is about how the digital explosion is changing everything. The text explains the technology, why it creates so many surprises and why things often don't work the way we expect them to. It is also about things the information explosion is destroying: old assumptions about who is really in control of our lives.

*Enquiries Concerning the Human Understanding and Concerning the Principles of Morals* MOX

The classical Rabbinic tradition (legal, discursive, and exegetical) claims to be Oral Torah, transmitted by word of mouth in an unbroken chain deriving its authority ultimately from diving revelation to Moses at Sinai. Since the third century C.E., however, this tradition has been embodied in written texts. Through judicious deployment and analysis of the evidence, Martin Jaffee is able to show that the Rabbinic tradition, as we have it, developed through a mutual interpretation of oral and written modes.

Enquiry concerning the principles of morals / Hume, David, 1711-1776.

*Who's who Among African Americans* Kregel Academic

A supplemental textbook for middle and high school students, Hoosiers and the American Story provides intimate views of individuals and places in Indiana set within themes from American history. During the frontier days when Americans battled with and exiled native peoples from the

East, Indiana was on the leading edge of America's westward expansion. As waves of immigrants swept across the Appalachians and eastern waterways, Indiana became established as both a crossroads and as a vital part of Middle America. Indiana's stories illuminate the history of American agriculture, wars, industrialization, ethnic conflicts, technological improvements, political battles, transportation networks, economic shifts, social welfare initiatives, and more. In so doing, they elucidate large national issues so that students can relate personally to the ideas and events that comprise American history. At the same time, the stories shed light on what it means to be a Hoosier, today and in the past.

Experience the thrilling journey of a wrestling superstar in this no-holds-barred memoir from the first undisputed WWE heavyweight champion. Chris Jericho is the first undisputed Heavyweight Champion of the WWE and WCW, and has been called one of the fifty greatest wrestlers of all time. Now retired, he is writing his memoir, telling the story of his journey from wrestling school in Canada to his time in leagues in Mexico and Japan to his big break in the WCW. He'll dish the dirt on how he worked his way through the ranks alongside major wrestling stars like Chris Benoit and Lance Storm to become a major superstar.

*The Popol Vuh* Orbis Books

New York Times Bestseller • Finalist for the Pulitzer Prize • An Oprah's Book Club Selection

“Powerful . . . [Kingsolver] has with infinitely steady hands worked the prickly threads of religion, politics, race, sin and redemption into a thing of terrible beauty.” —Los Angeles Times Book Review The Poisonwood Bible, now celebrating its 25th anniversary, established Barbara Kingsolver as one of the most thoughtful and daring of modern writers. Taking its place alongside the classic works of postcolonial literature, it is a suspenseful epic of one family's tragic undoing and remarkable reconstruction over the course of three decades in Africa. The story is told by the wife and four daughters of Nathan Price, a fierce, evangelical Baptist who takes his family and mission to the Belgian Congo in 1959. They carry with them everything they believe they will need from home, but soon find that all of it—from garden seeds to Scripture—is calamitously transformed on African soil. The novel is set against one of the most dramatic political chronicles of the twentieth century: the Congo's fight for independence from Belgium, the murder of its first elected prime minister, the CIA coup to install his replacement, and the insidious progress of a world economic order that robs the fledgling African nation of its autonomy. Against this backdrop, Orleana Price reconstructs the story of her evangelist husband's part in the Western assault on Africa, a tale indelibly darkened by her own losses and unanswerable questions about her own culpability. Also narrating the story, by turns, are her four daughters—the teenaged Rachel; adolescent twins Leah and Adah; and Ruth May, a prescient five-year-old. These sharply observant girls, who arrive in the Congo with racial preconceptions forged in 1950s Georgia, will be marked in surprisingly different ways by their father's intractable mission, and by Africa itself. Ultimately each must strike her own separate path to salvation. Their passionately intertwined stories become a compelling exploration of moral risk and personal responsibility.

*The Examiner* Routledge

Michael Dobkowski and Isidor Walliman have edited a book that, although ominous, is not a fatalistic look at the future. The Coming Age of Scarcity lays out the perils of not recognizing the reality of genocide or of acknowledging the full implications of warfare. Showing how scarcity and surplus populations can lead to disaster, The Coming Age of Scarcity is about evil. It tells of "ethnic cleansing" and excavates the world's expanding killing fields. The writers in this volume are all too aware that the future suggests that present-day population growth, land resources, energy consumption, and per capita consumption cannot be sustained without leading to greater catastrophes. The essays in this volume ask: What is the solution in the face of mass death and genocide? As philosopher John K. Roth says in the Foreword, "The essays can sensitize us against despair and indifference because history shows that human-made mass death and genocide are not inevitable, and no events related to them will ever be."

Oxford University Press

Nanoscience is not physics, chemistry, engineering or biology. It is all of them, and it is time for a text that integrates the disciplines. This is such a text, aimed at advanced undergraduates and beginning graduate students in the sciences. The consequences of smallness and quantum behaviour are well known and described Richard Feynman's visionary essay 'There's Plenty of

Room at the Bottom' (which is reproduced in this book). Another, critical, but thus far neglected, aspect of nanoscience is the complexity of nanostructures. Hundreds, thousands or hundreds of thousands of atoms make up systems that are complex enough to show what is fashionably called 'emergent behaviour'. Quite new phenomena arise from rare configurations of the system. Examples are the Kramer's theory of reactions (Chapter 3), the Marcus theory of electron transfer

(Chapter 8), and enzyme catalysis, molecular motors, and fluctuations in gene expression and splicing, all covered in the final Chapter on Nanobiology. The book is divided into three parts. Part I (The Basics) is a self-contained introduction to quantum mechanics, statistical mechanics and chemical kinetics, calling on no more than basic college calculus. A conceptual approach and an array of examples and conceptual problems will allow even those without the mathematical tools

to grasp much of what is important. Part II (The Tools) covers microscopy, single molecule manipulation and measurement, nanofabrication and self-assembly. Part III (Applications) covers electrons in nanostructures, molecular electronics, nano-materials and nanobiology. Each chapter starts with a survey of the required basics, but ends by making contact with current research literature.
