What fans don't love to relive the good times of their favorite team? Likewise, in a twisted sort of way, what fans can really resist a self-pitying look back on some of those times that tested their allegiance? Those forgettable games, seasons, and plays that made the good times even better? *The Good, the Bad, & the Ugly* presents all the best moments and personalities in the history of the Seattle Seahawks. It also unmasks, but doesn't revel in, the bad, the regrettably awful and the unflinchingly ugly. In entertaining—and unsparing—fashion, this book sparkles with Seahawks highlights, lowlights, wonderful and wacky memories, legends and goats, the famous and the infamous. You'll relive the Jim Zorn fake field goal on Monday night but also the Brian Bosworth fiasco. The heady play of Steve Largent but also the near move to Los Angeles. *The Good, the Bad, & the Ugly* includes the best and worst Seahawks teams and players of all time, the most clutch performances and performers, the biggest choke jobs and chokers, great comebacks and blown

leads, plus overrated and underrated Seahawks players and coaches. There are Seahawks you loved for all the right reasons, and those you couldn't stand, sublime and embarrassing records, and trades, both savvy and savagely bad. Brawls and fights. Rivalries. Compelling photos. And much, much more. If you're a through-thick-and-thin Seahawks fan, *The Good, the Bad, & the Ugly* is especially for you. It will remind you of the good and great times and bring a knowing smile about some of those other times, when you proved to yourself just how loyal you are. For everyone else, this warts-and-all portrait of the Seahawks will provide countless fond memories, goose bumps, and laughs.

The University of Nebraska-Lincoln is one of the most storied and decorated football programs in NCAA history—since its inception in 1890, the program has claimed five National Championships, all of which are explored in this essential guide, along with the personalities, events, and facts that any and every Cornhuskers fan should know. The book recalls the key moments and players from Tom Osborne's reign on the Nebraska sidelines from the 1970s to the 1990s—an unprecedented period that included 13 conference championships and three national championships—as well as

the program's early years and recent success under head coach Bo Pelini. Author Sean Callahan also includes the unforgettable players who have worn the Scarlet and Cream, including Johnny Rodgers, Mike Rozier, Tommie Frazier, and Ndamukong Suh. More than a century of team history is distilled to capture the essential moments, highlighting the personalities, games, rivalries, and plays that have come together to make Nebraska one of college football's legendary programs. **Scorecasting** Bearport Publishing

In *Scorecasting*, University of Chicago behavioral economist Tobias Moskowitz teams up with veteran Sports Illustrated writer L. Jon Wertheim to overturn some of the most cherished truisms of sports, and reveal the hidden forces that shape how basketball, baseball, football, and hockey games are played, won and lost. Drawing from Moskowitz's original research, as well as studies from fellow economists such as bestselling author Richard Thaler, the authors look at: the influence home-field advantage has on the outcomes of games in all sports and why it exists; the surprising truth about the universally accepted axiom that defense wins championships; the subtle biases that umpires exhibit in calling balls and strikes in key situations; the unintended consequences of referees' tendencies in every sport to "swallow the whistle," and more. Among

the insights that Scorecasting reveals: • Why Tiger Woods is prone to the same mistake in high-pressure putting situations that you and I are • Why professional teams routinely overvalue draft picks • The myth of momentum or the "hot hand" in sports, and why so many fans, coaches, and broadcasters fervently subscribe to it • Why NFL coaches rarely go for a first down on fourth-down situations—even when their reluctance to do so reduces their chances of winning. In an engaging narrative that takes us from the putting greens of Augusta to the grid iron of a small parochial high school in Arkansas, Scorecasting will forever change how you view the game, whatever your favorite sport might be.

These are short stories based on musings of a seasoned citizen. Some are preposterous and others just posteros, according to the author. They are sprinkled with oddly named fictional characters, some based on real people. You could call the author a Cracker Barrel philosopher, but that might be an insult to the restaurant chain.

The perfect gift for the Twelfth Man in any household, here is a fun and funny fan's history of the Seattle Seahawks. Since the franchise's beginnings more than 30 years ago, there's no doubt who has been the greatest member of the Seattle Seahawks. After all, who was there at the opening of the Kingdome only to watch that fabled stadium, years later, turn to dust? Who endured the embarrassment of The Boz? Living up to our reputation as some of the loudest, most supportive fans in the NFL. Notes from a 12 Man isn't just the teams' history, it's our history. Even die-hard fans of the Pittsburgh Steelers can only imagine what it was like to play against the premier teams and players in the black and gold's history. Just how hard did Jack Lambert hit? How did opponents plan for Franco Harris's combination of speed and power? What was it like trying to block Joe Greene and Dwight White? What was the feeling seeing a Ben Roethlisberger pass soaring downfield toward Hines Ward, or Troy Polamalu taking a bead on a receiver cutting over the middle? In Facing the Pittsburgh Steelers, John McFarland takes Steelers fans inside the locker rooms, onto the sidelines, and out on the field with opposing players. McFarland interviews some of the biggest names in the game to get their perspectives on playing against the best teams in Steelers history. He covers the most dramatic moments, most intense rivalries, and most memorable games from Pittsburgh's pro football lore—from the other side of the line of scrimmage. The Worst Call Ever! Xlibris Corporation

A Wall Street Journal bestseller, now in paperback. Poker champion turned decision strategist Annie Duke teaches you how to get comfortable with uncertainty and make better decisions. Even the best decision doesn't yield the best outcome every time. There's always an element of luck that you can't control, and there's always information hidden from view. So the key to long-term success (and avoiding worrying yourself to death) is to think in bets: How sure am I? What are the possible ways things could turn out? What decision has the highest odds of success? Did I land in the unlucky 10% on the strategy that works 90% of the time? Or is my success attributable to dumb luck rather than great decision making? Annie Duke, a former World Series of Poker champion turned consultant, draws on examples from business, sports, politics, and (of course)

poker to share tools anyone can use to embrace uncertainty and make better decisions. For most people, it's difficult to say "I'm not sure" in a world that values and, even, rewards the appearance of certainty. But professional poker players are comfortable with the fact that great decisions don't

always lead to great outcomes, and bad decisions don't always lead to bad outcomes. By shifting your thinking from a need for certainty to a goal of accurately assessing what you know and what

you don't, you'll be less vulnerable to reactive emotions, knee-jerk biases, and destructive habits in your decision making. You'll become more confident, calm, compassionate, and successful in the long run.
