without exception the chapters describing the military operations are printed here for the first time. In describing the diplomatic and secondary aspects I have borrowed freely from articles of mine printed in various magazines and newspapers. One freakish pass in a match against the Broncos in Brisbane in 2003 made Sione Faumuina an overnight rugby league sensation. But Sione would learn the hard way that fame comes at a price, and good intentions are not enough, especially when alcohol takes hold. He seemingly had it all, but for most of his career he struggled with the demands made on a professional athlete, and the temptations that are all around during the downtimes. The *Second Phase* tells Sione's story, from childhood, through professional sport in both hemispheres, to the life of a blue collar worker, to starting a business, and a family, in Australia. Sione pulls no punches, unveiling

his shortcomings for all to see. At 35, he has many chapters to write, but he appears to be on the right path, and this autobiography is a courageous part of his transformation.

TAKING THE PAUSE

OUT OF MENOPAUSE

Menopause is a fact of every woman's life. For 75% of women, the symptoms they experience will have a detrimental effect on their ability to work, interact with colleagues and maintain relationships with those they love. It can have a corrosive effect on women's confidence, social ability and even their sense of self. Moving forward, it is important to create a conversation around menopause and how organizations and individuals can be more empathetic to women at this stage of life. In this book, Kate

explores the best ways to cope with these changes, how to manage new and existing relationships and how to manage your future—all in an accessible and entertaining way.
