Community Policing

Little, Brown

Community policing is a philosophy and organizational strategy that expands the

traditional police mandate of fighting crime to include forming partnerships with citizenry that endorse mutual support and participation. The first textbook of its kind, *Community Policing: A Contemporary Perspective* delineates this progressive approach,

combining the accrued wisdom and experience of its established authors with the latest research based insights to help students apply what is on the page to the world beyond. 'Spotlight on Community Policing Practice' sections feature real-life community

policing programs in various cities, and problem-solving case studies cover special topics. The text has been revised throughout to include the most current developments in the field such as how the current climate of suspicion associated with terrorism threats affects the trust so necessary for community policing, and how the newest technologies can be harnessed to facilitate police interactions with citizens. Additionally, the book now explores the fragmentation of authority

and emphasizes the importance of partnerships among the numerous law enforcement agencies, government agencies, and private social service agencies. * Each chapter contains learning objectives, key terms, and discussion questions that encourage comprehension * Video and Internet links provide additional coverage of topics discussed throughout the text. * Includes a 'Ten Principles of Community Policing' addendum Jharkhand PRT Paper - III

How did the land of the free become the home of the world's largest prison system? Elizabeth Hinton traces the rise of mass incarceration to an ironic source: not the War on Drugs of the Reagan administration but the War on Crime that began during Johnson's Great Society at the height of the civil rights era.

This book provides an
examination of noble
cause, how it emerges as
a fundamental principle of
police ethics and how it
can provide the basis for
corruption. The noble
cause — a commitment to
"doing something about
bad people" — is a central
"ends-based" police ethic
that can be corrupted
when officers violate the
law on behalf of
personally held moral
values. This book is about
the power that police use

to do their work and how it can corrupt police at the individual and organizational levels. It provides students of policing with a realistic understanding of the kinds of problems they will confront in the practice of police work.

 Since 1980, the number of people in U.S. prisons has increased more than 450%. Despite a crime rate that has been falling steadily for decades, California has led the way in this explosion, with

what a state analyst called "the biggest prison building project in the history of the world." Golden Gulag provides the first detailed explanation for that buildup by looking at how political and economic forces, ranging from global to local, conjoined to produce the prison boom. In an informed and impassioned account, Ruth Wilson Gilmore examines this issue through statewide, rural, and urban perspectives to explain how the expansion developed from

surpluses of finance capital, labor, land, and state capacity. Detailing crises that hit California's economy with particular ferocity, she argues that defeats of radical struggles, weakening of labor, and shifting patterns of capital investment have been key conditions for prison growth. The results—a vast and expensive prison system, a huge number of incarcerated young people of color, and the increase in punitive justice such as the "three strikes" law—pose

profound and troubling questions for the future of California, the United States, and the world. Golden Gulag provides a rich context for this complex dilemma, and at the same time challenges many cherished assumptions about who benefits and who suffers from the state's commitment to prison expansion.
