Puppy Training Simon and Schuster Cesar Millan—nationally recognized dog expert—helps you see the world through the eyes of your dog so you can finally eliminate problem behaviors. From his appearances on The Oprah Winfrey Show to his roster of

celebrity clients to his reality television series, Cesar Millan is America's most sought-after dog-behavior expert. But Cesar is not a trainer in the traditional sense—his expertise lies in his unique ability to comprehend dog psychology. Tracing his own amazing journey from a clay-walled farm in Mexico to the celebrity palaces of Los Angeles, Cesar recounts how

he learned what makes dogs tick. In *Cesar's Way*, he shares this wisdom, laying the groundwork for you to have stronger, more satisfying relationships with your canine companions. Cesar's formula for a contented and balanced dog seems impossibly simple: exercise, discipline, and affection, in that order. Taking readers through the basics of dog psychology

and behavior, Cesar shares the inside details of some of his most fascinating cases, using them to illustrate how common behavior issues develop and, more important, how they can be corrected. You'll learn: • What your dog really needs may not be what you're giving him • Why a dog's natural pack instincts are the key to your happy relationship • How to relate to your dog on a canine level

• There are no “problem breeds,” just problem owners • How to choose a dog who’s right for you and your family • The difference between discipline and punishment • And much more! Filled with fascinating anecdotes about Cesar’s longtime clients, and including forewords by the president of the International Association of Canine Professionals and Jada Pinkett Smith,

this is the only book you’ll need to forge a stronger, more rewarding connection with your four-legged companion.

The Monks of New Skete
THE ART OF RAISING A PUPPY
The authors of the classic guide How to Be Your Dog's Best Friend now tell you everything you need to know about the crucial first months of

your puppy's life. From the decision to adopt a pup through the practical steps of choosing the right breed, preparing your home, caring for your new charge, and practicing basic obedience exercises, the Monks of New Skete offer clear, compassionate guidelines for raising a puppy. Renowned for breeding German shepherds, the Monks train their own beautiful dogs, and

dogs of any breed, according to a unique program based on understanding canine behavior and enhancing the bond between dog and owner. This communion begins in puppyhood and is based on deep respect and affection.
