 Review).
 Empire of the
 Summer Moon

spans two astonishing stories. The first traces the rise and fall of the Comanches, the most powerful Indian tribe in American history. The second entails one of the most remarkable narratives ever to come out of the Old West: the epic saga of the pioneer woman Cynthia Ann Parker and her mixed-blood son Quanah, who became the last and greatest chief of the Comanches.

Although readers may be more familiar with the tribal names Apache and Sioux, it was in fact the legendary fighting ability of the Comanches that determined when the American West opened up. Comanche boys became adept bareback riders by age six; full Comanche braves were considered the best horsemen who ever rode. They were so masterful at war and so

skillful with their arrows and lances that they stopped the northern drive of colonial Spain from Mexico and halted the French expansion westward from Louisiana. White settlers arriving in Texas from the eastern United States were surprised to find the frontier being rolled backward by Comanches incensed by the invasion of their tribal lands. The war with the Comanches

lasted four decades, in effect holding up the development of the new American nation. Gwynne's exhilarating account delivers a sweeping narrative that encompasses Spanish colonialism, the Civil War, the destruction of the buffalo herds, and the arrival of the railroads, and the amazing story of Cynthia Ann Parker and her son Quanah—a historical feast for anyone

interested in how the United States came into being. Hailed by critics, S. C. Gwynne's account of these events is meticulously researched, intellectually provocative, and, above all, thrillingly told. *Empire of the Summer Moon* announces him as a major new writer of American history. *Sassanian Elite Cavalry AD 224-642* Pearson Education #1 NEW YORK TIMES BESTSELLER •

The thrilling history of the Targaryens comes to life in this masterly work, the inspiration for HBO's *Game of Thrones* prequel series *House of the Dragon* "The thrill of *Fire & Blood* is the thrill of all Martin's fantasy work: familiar myths debunked, the whole trope table flipped."—*Entertainment Weekly* Centuries before the events of *A Game of Thrones*, *House Targaryen*—th

e only family of dragonlords to survive the Doom of Valyria—took up residence on Dragonstone. *Fire & Blood* begins their tale with the legendary Aegon the Conqueror, creator of the Iron Throne, and goes on to recount the generations of Targaryens who fought to hold that iconic seat, all the way up to the civil war that nearly tore their dynasty apart. What really happened during the Dance of the

Dragons? Why was it so deadly to visit Valyria after the Doom? What were Maegor the Cruel's worst crimes? What was it like in Westeros when dragons ruled the skies? These are but a few of the questions answered in this essential chronicle, as related by a learned maester of the Citadel. Readers have glimpsed small parts of this narrative in such volumes as *The World of Ice & Fire*, but

now, for the first time, the full tapestry of Targaryen history is revealed. With all the scope and grandeur of Gibbon's *The History of the Decline and Fall of the Roman Empire*, *Fire & Blood* is the first volume of the definitive two-part history of the Targaryens, giving readers a whole new appreciation for the dynamic, often bloody, and always fascinating history of Westeros. Praise for *Fire & Blood* "A

masterpiece of popular historical fiction.”—The Sunday Times “The saga is a rich and dark one, full of both the title’s promised elements. . . . It’s hard not to thrill to the descriptions of dragons engaging in airborne combat, or the dilemma of whether defeated rulers should ‘bend the knee,’ ‘take the black’ and join the Night’s Watch, or simply meet an inventive and horrible end.”—The

Guardian *Empire of the Summer Moon* Great Publishing Visit any of the approximately 150 national military cemeteries in the United States, and collectively you will find nearly 1,000,000 headstones marking the final resting place of U.S. Military personnel killed in battles beginning with the Civil War to the present. Spend an extra few minutes reading the

names on the headstones, and you will find representative s of every ethnic, religious, geographic, and societal group existing in America today. Their names, dates of birth and death, their military rank and last unit, and their home state are clearly carved in stone. That’s only half the story. Lift your eyes, look around, and you will see other identical headstones—i dential in shape and

size but different in that these stones bear no name except "Unknown." *The Minecraft Guide for Parents* Trafalgar Square Books 'Wishful Drinking is a touching and incisive account of bipolarity, addiction and motherhood.' Independent 'No motive is pure. No one is good or bad - but a hearty mix of both. And sometimes life actually gives to you by taking away.' Carrie Fisher

in *Wishful Drinking* In *Wishful Drinking*, Carrie Fisher told the true and intoxicating story of her life with inimitable wit. Born to celebrity parents, she was picked to play a princess in a little movie called *Star Wars* when only 19 years old. "But it isn't all sweetness and light sabres." Alas, aside from a demanding career and her role as a single mother (not to

mention the hyperspace hairdo), Carrie also spends her free time battling addiction and weathering the wild ride of manic depression. It's an incredible tale: from having Elizabeth Taylor as a stepmother, to marrying (and divorcing) Paul Simon, and from having the father of her daughter leave her for a man, to ultimately waking up one morning and finding a friend dead

beside her in bed. Carrie Fisher's star-studded career included roles in numerous films such as The Blues Brothers and When Harry Met Sally. She was the author of four bestselling novels, Surrender in the Pink, Delusions of Grandma, The Best Awful and Postcards from the Edge, which was made into a hit film starring Shirley MacLaine and Meryl Streep. Carrie's experience

with addiction and mental illness - and her willingness to talk honestly about them - made her a sought-after speaker and respected advocate. She was truly one of the most magical people to walk among us. Further praise for Carrie Fisher:- [Shockaholic] is the finest, funniest chronicler of the maddest celebrity mores.' Sunday Times 'Fisher has a talent for lacerating insight that

masquerades as carefree self-deprecation' Los Angeles Times 'She is one of the rare inhabitants of La-La Land who can actually write' New York Times [GamesMasters Presents: The Ultimate Minecraft Builder's Guide](#) Del Rey "The author describes the handicapping of thoroughbred horse races, covering such factors as the use of computers, what to watch before a race,

and the best jockeys and horse trainers. He also explains 60 ways to build a betting system"-- Library of Congress description [Ultimate Minecraft Secrets](#) Scholastic Inc. This richly illustrated book explores over seven hundred years of European warfare, from the time of Charlemagne to the end of the middle ages (c.1500). The period covered has a distinctive character in military

history. It was an age when organization for war was integral to social structure, when the secular aristocrat was by necessity also a warrior, and whose culture was profoundly influenced by martial ideas. Twelve scholars, experts in their own fields, have contributed to this finely illustrated book. It is divided into two parts. Part I seeks to explore the experience of war viewed

chronologically with separate chapters on, for instance, the Viking age, on the wars and expansion of the eleventh and twelfth centuries, on the Crusades and on the great Hundred Years War between England and France. The chapters in Part II trace thematically the principal developments in the art of warfare; in fortification and siege craft; in the role of armoured cavalymen; in

the employment of mercenary forces; the advent of gunpowder artillery; and of new skills in navigation and shipbuilding. In both parts of the book, the overall aim has been to offer the general reader an impression, not just of the where and the when of great confrontations, but above all of the social experience of warfare in the middle ages, and of the impact of its demands on human resources and

human endurance. *Minecraft for Beginners* Pearson Education Learn how to survive and thrive. Previously published as *Guide to Exploration*, the revised and updated *Guide to Survival* has even more insider info and tips from the experts at game-creator Mojang, making this is the definitive, fully illustrated guide to survival in *Minecraft*. The mysterious world of

Minecraft is just waiting to be explored. But danger lurks around every corner and survival can prove difficult for even the bravest adventurer. Learn how to find resources, craft equipment, and protect yourself. Discover which biomes to avoid when starting out, how to build a mob-proof shelter, where to look for naturally-generated structures laden with loot, and so much more.

Bantam
The Geek Feminist Revolution is a collection of essays by double Hugo Award-winning essayist and fantasy novelist Kameron Hurley. The book collects dozens of Hurley's essays on feminism, geek culture, and her experiences and insights as a genre writer, including "We Have Always Fought," which won the 2013 Hugo for Best Related

Work. The Geek Feminist Revolution will also feature several entirely new essays written specifically for this volume. Unapologetically outspoken, Hurley has contributed essays to The Atlantic, Locus, Tor.com, and others on the rise of women in genre, her passion for SF/F, and the diversification of publishing. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Beginner's Guide For Miners (Unofficial Minecraft Book) Simon and Schuster

Although Minecraft provides something for everyone, what it does not come with are directions, rules, or explanations telling you what the different items and blocks in the game are and what to do with them. The amount of

information in the game can be overwhelming, and it can be difficult to know where to begin. The good news is, you don't need to know everything to start playing. Only the basics. So this mini-encyclopedia looks at some of the basic facets of the game, from common blocks and crafting recipes to enchantments and potions and transportation.

The Horse America Made

Del Rey

Provides readers with tips, techniques, and strategies for playing Minecraft, including how to construct a shelter, furnish buildings, manage farms, craft and enchant items, and create redstone projects.

Minecraft: Guide to Survival Del Rey
The Sassanians

ruled the last great imperial Empire of Persia before the Arab conquests of the 7th century. Rome's only equal in the classical world, the Sassanian Empire had an enormous impact on the development of architecture, mythology, arts, music,

military tactics and technology. Within the Sassanian military, the cavalry was the most influential element, and Sassanian cavalry tactics were adopted by the Romans, Arabs, and Turks. Their cavalry systems of weaponry, battle tactics, Tamgas,

Medallions, court customs, and costumes influenced Romano-Byzantine and medieval European culture, and this book allows the reader to see how a little-studied eastern power affected the development of cavalry traditions in the western world.
