 In her teenage years, author Mary Visker began to feel a growing desire to serve a mission when she was old enough. It wasn't until she was in her sixties that the dream came true. *Miracles, Personal Revelations, A Thankful Heart* chronicles Visker's unique experiences and shares how each of three missions brought her closer to the Lord. He increased her ability to see and understand the miracles coming from His hands to bless lives. She discusses the miracles encountered daily, offering a message of hope to all who struggle. US Review of Books and Pacific Book Review both heralded Visker's writing— "Visker witnessed and

experienced many miraculous and vividly depicted occurrences...a woman with blurred vision received donated glasses giving her back her sight children were saved from drowning... Outbreaks of the dreaded dengue fever were managed and lives saved." — US Review of Books "An inspiration for those who seek to understand and develop a closer relationship with their Lord...contains sweet and bittersweet stories of miracles and reminders to be thankful for every blessing, and every challenge we are given...Seekers will be satisfied, and believers will be challenged." —Pacific Book Review

 NATIONAL BESTSELLER "Destined to become an adventure classic."
 —Anchorage Daily News Hailed as "gripping" (New York Times) and "beautiful" (Washington Post), *The Adventurer's Son* is Roman Dial's extraordinary and widely acclaimed account of his two-year quest to unravel the mystery of his son's disappearance in the jungles of Costa Rica. In the predawn hours of July 10, 2014, the twenty-seven-year-old son of preeminent Alaskan scientist and National Geographic Explorer Roman Dial, walked alone into Corcovado National Park, an untracked rainforest along Costa Rica's remote Pacific Coast

that shelters miners, poachers, and drug smugglers. He carried a light backpack and machete. Before he left, Cody Roman Dial emailed his father: "I am not sure how long it will take me, but I'm planning on doing 4 days in the jungle and a day to walk out. I'll be bounded by a trail to the west and the coast everywhere else, so it should be difficult to get lost forever." They were the last words Dial received from his son. As soon as he realized Cody Roman's return date had passed, Dial set off for Costa Rica. As he trekked through the dense jungle, interviewing locals and searching for clues—the authorities suspected murder—the desperate father was forced to confront the deepest questions about himself and his own role in the events. Roman had raised his son to be fearless, to be at home in earth's wildest places, travelling together through rugged Alaska to remote Borneo and Bhutan. Was he responsible for his son's fate? Or, as he hoped, was Cody Roman safe and using his wilderness skills on a solo adventure from which he would emerge at any moment? Part detective story set in the most beautiful yet dangerous reaches of the planet, *The Adventurer's Son* emerges as a far deeper tale of discovery—a journey to understand the truth about those we love the most. *The Adventurer's Son* includes fifty black-and-white photographs.

Since we left the Colorado Chiquito we have seen no evidences that the tribe of Indians inhabiting the plateaus on either side ever come down to the river; but about eleven o'clock to-day we discover an Indian garden at the foot of the wall on the right, just where a little stream with a narrow flood plain comes down through a side canyon. Along the valley the Indians have planted corn, using for irrigation the water which bursts out in springs at the foot of the cliff. The corn is looking quite well, but it is not sufficiently advanced to give us roasting ears; but there are some nice green squashes. We carry ten or a dozen of these on board our boats and hurriedly leave, not willing to be caught in the robbery, yet excusing ourselves by pleading our great want. -from "August 26" Sometimes published under the name *The Exploration of the Colorado River and Its Canyons*, but more properly known by its original title, *Canyons of the Colorado* is the gripping personal account of the first navigation of the Colorado River, in 1869, by the man who led the journey. American geologist and explorer JOHN WESLEY POWELL (1834-1902), head of the Powell Geographic Expedition and later director

of the U.S. Geological Survey, here regales us with the thrilling tale of the ten-man team and its assignment to map the last unmapped regions of the western territories of the United States. The highlight of their three-month trip: the first known river journey through the wildness of the Grand Canyon. This replica of the 1895 edition includes all the original halftone illustrations. A classic of real-life adventure literature, it continues to captivate armchair explorers today. *Wallowa-Whitman National Forest (N.F.), Hells Canyon National Recreation Area (N.R.A.) It's easier to stay alive if you know what's out there. That's the philosophy behind *Dead Reckoning*, an honest, unflinching, sometimes-thrilling collection of close calls and catastrophes in the Great Outdoors. Emma Walker's narrative nonfiction covers outdoor activities ranging from hiking to sea kayaking to backcountry skiing, all in accessible, easy-to-understand terms. At the end of each chapter, she distills lessons learned for staying safe in the outdoors—all with a relatable (and occasionally vulnerable) twist.

On May 24, 1869, John Wesley Powell and nine crewmen in four wooden rowboats set off down the Green River to map the final blank spot on the American map. Three months later, six ragged men in only two

boats emerged from the Grand Canyon. And what happened along the rugged 1,000 river miles in between quickly became the stuff of legend. Today, the JWP route offers some of the most adventurous paddling in the United States. Across six southwestern states, paddlers will find a surprising variety of trips. Enjoy flatwater floats through Canyonlands and the Uinta Basin; whitewater kayaking or rafting in Dinosaur National Monument and Cataract Canyon; afternoon paddleboarding on Flaming Gorge Reservoir and Lake Powell; multiday expeditions through Desolation Canyon and the Grand Canyon; and much more, including remarkable hikes and excursions to ancestral ruins, historic sites, museums, and waterfalls. Paddling the John Wesley Powell Route is a narrated guide that combines a multi-chapter retelling of the dramatic 1869 expedition with stunning landscape photography, modern discoveries along the route, overview maps, and information about permits, shuttles, access points, rental equipment, guided trips, and further readings. Come celebrate the dramatic 1869 expedition by exploring the route and learning the story. *Lonely Planet Yellowstone & Grand Teton National Parks* The Countryman Press

There is a ranch that runs for several miles along the last free-flowing stretch of the Snake River. A beautiful but harsh environment, hellishly hot in the summer and cut off from the outside world for much of the winter, the area is also in the middle of two equally harsh controversies: one over the breaching of the dams on the lower Snake and the other concerning new land management plans in Hells Canyon. T. Louise Freeman-Toole, a sixth-generation Californian, moves to a small Idaho town, little suspecting how profoundly she will be affected by her new life and surroundings. Her frequent visits to the last homestead ranch on the middle Snake River and her friendship with the eighty-year-old ranch owner and his daughter lead her to discover the spirit of the West and her own place there. With deft and evocative prose, Freeman-Toole takes us along as she and her son round up cattle, fix fences, hike, kayak, meet bears, elk, and sturgeon, and encounter rural traditions and values that force her to reexamine her own views on environmentalism, the treatment of animals, property rights, child rearing, and death. Whether investigating her family's roots in Los Angeles, exploring the threats that tourism, recreation, population growth, and sprawl pose for Hells Canyon, or chronicling her ten-year romance with the rugged and spectacular landscape,

Freeman-Toole is an able guide to the fraught territory where old ways and new realities, fierce loyalties and political passions, and memory and longing uneasily meet.

During the depression days of the early 1930s the Jordan family-Len Jordan (later governor of Idaho and a United States senator), his wife Grace, and their three small children-moved to an Idaho sheep ranch in the Snake River gorge just below Hell's Canyon, deepest scratch on the face of North America. "Cut off from the world for months at a time, the Jordans became virtually self-sufficient. Short of cash but long on courage, they raised and preserved their food, made their own soap, and educated their children."- Sterling North, *New York World-Telegram* "Home Below Hell's Canyon is valuable because it writes a little-known way of life into the national chronicle.
