A New York Times Notable Book "This brilliant and magisterial book is a very good bet to...become the definitive study of Johannes Brahms."--  
The Plain Dealer  
Judicious, compassionate, and full of insight into Brahms's human complexity as well as his music, Johannes Brahms is an indispensable biography. Proclaimed the new messiah of Romanticism by Robert Schumann when he

was only twenty, Johannes Brahms dedicated himself to a long and extraordinarily productive career. In this book, Jan Swafford sets out to reveal the little-known Brahms, the boy who grew up in mercantile Hamburg and played piano in beer halls among prostitutes and drunken sailors, the fiercely self-protective man who thwarted future biographers by burning papers, scores and notebooks late in his life. Making unprecedented use of the remaining archival material, Swafford offers richly expanded perspectives on Brahms's youth, on his difficult romantic life-- particularly his longstanding relationship with Clara Schumann--and on his

professional rivalry with Liszt and Wagner. "[Johannes Brahms] will no doubt stand as the definitive work on Brahms, one of the monumental biographies in the entire musical library." -London Weekly Standard "It is a measure of the accomplishment of Jan Swafford's biography that Brahms's sadness becomes palpable.... [Swafford] manages to construct a full-bodied human being."--The New York Times Book Review

A photo essay by Jane Stockdale. This book turns the lens away from the football to show the faces and emotions of the supporters at the 2014 World Cup. Brazil is synonymous with

football. Even so, no one knew what to expect. Massive street protests during last year's Confederations Cup revealed frustration with stadium spending and a deep-rooted desire for change in the country. This year, the authorities braced themselves for more. But when football fans from all over the world arrived, Brazilians threw away their troubles and set about hosting one of the happiest, most exciting World Cups ever. What was it like to follow the action in Brazil? From a farm to the favelas, beach to an A+E department - this photo essay brings you the story of Brazilians and fans from all over the world as they live the agony and ecstasy of the 2014 Brazil

"Charming. . . . A moving testament to the diversity and depths of love."  
—Publishers Weekly  
You'll laugh, you'll cry, you'll be swept away—in less time

than it takes to read this paragraph. Here are 175 true stories—honest, funny, tender and wise—each as moving as a lyric poem, all told in no more than one hundred words. An electrician lights up a woman’s life, a sister longs for her homeless brother, strangers dream of what might have been. Love lost, found and reclaimed. Love that’s romantic, familial, platonic and unexpected. Most of all, these stories celebrate love as it exists in real life: a silly remark that leads to a lifetime together, a father who struggles to remember his son, ordinary moments that burn bright.

Who gets diabetes and why? An in-depth

examination of diabetes in the context of race, public health, class, and heredity. Who is considered most at risk for diabetes, and why? In this thorough, engaging book, historian Arleen Tuchman examines and critiques how these questions have been answered by both the public and medical communities for over a century in the United States. Beginning in the late nineteenth century, Tuchman describes how at different times Jews, middle-class whites, American Indians, African Americans, and Hispanic Americans have been labeled most at risk for developing diabetes, and that such claims have reflected and perpetuated troubling

assumptions about race, ethnicity, and class. She describes how diabetes underwent a mid-century transformation in the public's eye from being a disease of wealth and "civilization" to one of poverty and "primitive" populations. In tracing this cultural history, Tuchman argues that shifting understandings of diabetes reveal just as much about scientific and medical beliefs as they do about the cultural, racial, and economic milieus of their time.

33,000 pages 44 million words 10 billion years of history 1 obsessed man Part memoir and part education (or lack thereof), The Know-It-All chronicles NPR contributor A.J. Jacobs's hilarious, enlightening, and seemingly impossible quest to read the Encyclopaedia Britannica from A to Z. To fill the ever-widening gaps in his Ivy League education, A.J. Jacobs sets for himself the daunting task of reading all thirty-two volumes of the Encyclopaedia Britannica. His wife, Julie, tells him it's a

waste of time, his friends believe he is losing his mind, and his father, a brilliant attorney who had once attempted the same feat and quit somewhere around Borneo, is encouraging but, shall we say, unconvinced. With self-deprecating wit and a disarming frankness, *The Know-It-All* recounts the unexpected and comically disruptive effects *Operation Encyclopedia* has on every part of Jacobs's life -- from his newly minted marriage to his complicated relationship with his father and the rest of his charmingly eccentric New York family to his day job as an editor at *Esquire*. Jacobs's project tests the outer limits of his stamina and forces him

to explore the real meaning of intelligence as he endeavors to join Mensa, win a spot on *Jeopardy!*, and absorb 33,000 pages of learning. On his journey he stumbles upon some of the strangest, funniest, and most profound facts about every topic under the sun, all while battling fatigue, ridicule, and the paralyzing fear that attends his first real-life responsibility -- the impending birth of his first child. *The Know-It-All* is an ingenious, mightily entertaining memoir of one man's intellect, neuroses, and obsessions and a soul-searching, ultimately touching struggle between the all-consuming quest for factual knowledge and the undeniable gift of hard-won wisdom.

From the award-winning champion of culinary simplicity who gave us the bestselling *How to Cook*

*Everything and How to Cook Everything*

*Vegetarian* comes *Food Matters*, a plan for responsible eating that's as good for the planet as it is for your weight and your

health. We are finally starting to acknowledge the threat carbon emissions pose to our ozone layer, but few people have focused on the extent to which our consumption of meat contributes to global warming. Think about it this way: In terms of energy consumption, serving a typical family-of-four steak dinner is the rough equivalent of driving around in an SUV for three hours while leaving all the lights on at home. Bittman offers a no-nonsense rundown on how government policy, big business marketing, and global economics influence what we choose to put on the table each evening. He demystifies buzzwords like "organic,"

"sustainable," and "local" and offers straightforward, budget-conscious advice that will help you make small changes that will shrink your carbon footprint -- and your waistline. Flexible, simple, and non-doctrinaire, the plan is based on hard science but gives you plenty of leeway to tailor your food choices to your lifestyle, schedule, and level of commitment. Bittman, a food writer who loves to eat and eats out frequently, lost thirty-five pounds and saw marked improvement in his blood levels by simply cutting meat and processed foods out of two of his three daily meals. But the simple truth, as he points out, is that as long as you eat more vegetables

and whole grains, the result will be better health for you and for the world in which we live. Unlike most things that are virtuous and healthful, Bittman's plan doesn't involve sacrifice. From Spinach and Sweet Potato Salad with Warm Bacon Dressing to Breakfast Bread Pudding, the recipes in Food Matters are flavorful and sophisticated. A month's worth of meal plans shows you how Bittman chooses to eat and offers proof of how satisfying a mindful and responsible diet can be. Cheaper, healthier, and socially sound, Food Matters represents the future of American eating. The Know-It-All Simon and Schuster NAMED A BEST BOOK OF THE YEAR BY THE
