National Book Award Finalist: "This man's ideas may be the most influential, not to say controversial, of the second half of the twentieth century."—Columbus Dispatch
At the heart of this classic, seminal book is Julian Jaynes's still-controversial thesis that human consciousness did not begin far back in animal evolution but instead is a learned process that came about only

three thousand years ago and is still developing. The implications of this revolutionary scientific paradigm extend into virtually every aspect of our psychology, our history and culture, our religion—and indeed our future. "Don't be put off by the academic title of Julian Jaynes's *The Origin of Consciousness in the Breakdown of the Bicameral Mind*. Its prose is always lucid and often lyrical...he unfolds his case with the utmost intellectual rigor."—The New York Times
"When Julian Jaynes . . . speculates that until late in the twentieth millennium BC men had no consciousness but were

automatically obeying the voices of the gods, we are astounded but compelled to follow this remarkable thesis."—John Updike, *The New Yorker* "He is as startling as Freud was in *The Interpretation of Dreams*, and Jaynes is equally as adept at forcing a new view of known human behavior."—*American Journal of Psychiatry*

The second book in a seafaring fantasy trilogy that George R. R. Martin has described as “even better than the Farseer Trilogy—I didn’t think that was possible.” As the ancient tradition of Bingtown’s Old Traders slowly erodes under the cold new order of a corrupt ruler, the Vestrits anxiously await the return of their liveship—a rare magic ship carved from sentient wizardwood, which bonds the ships mystically with those who sail them. And Althea Vestrit waits even more avidly, living only to reclaim the ship as her lost inheritance and captain her on the high seas. But the Vivacia has been seized by the ruthless pirate captain Kennit, who holds Althea’s nephew and his father hostage. Althea and her onetime sea mate Brashen resolve to liberate the liveship—but their plan may prove more dangerous than leaving the Vivacia in Kennit’s ambitious grasp. Don’t miss the magic of the Liveship Traders Trilogy: SHIP

In *Circle of Friends*, award-winning journalist Charles Gasparino—one of Wall Street's most knowledgeable observers—follows government investigators and prosecutors as they pursue one of the most aggressive and broad-reaching series of insider-trading cases in the nation's history. A richly textured page-turner of investigative journalism based on extensive reporting, *Circle of Friends* chronicles the massive federal crackdown that has already put some of the biggest names on Wall Street behind bars, including Raj Raratnam,

founder of the Galleon Group, and Rajat Gupta, a former CEO of consulting giant McKinsey & Co. Other similarly sized targets are still waiting nervously, including the biggest one of them all—financial impresario Steve Cohen of SAC Capital, the giant hedge fund that has confounded regulators for years by cranking out a steady stream of market-busting returns. Gasparino goes behind the headlines to reveal how the government makes its case, using every tool at its disposal—and at great expense to taxpayers—to supposedly make the investing world safer for average Americans. Gasparino asks why federal officials are so eager to prosecute these cases: What is the real damage to individuals? Do average investors really care? He explores why insider trading is all the rage these days when the U.S. government has failed to bring a single criminal case against the culprits who caused the 2008 financial crisis. *Circle of Friends* is not a defense of insider trading, but it does offer an account of the politics of Wall Street crime fighting, revealing the behind-the-scenes ambitions that motivate headlines and burnish political careers. A

riveting work of narrative nonfiction, as engrossing and explosive as fictional thrillers of the finest magnitude, Circle of Friends is a wakeup call to the investing public.

The purpose of this report is to describe the fur trade that took place at Grand Portage between Europeans and Native Americans in the 18th and 19th centuries. During this period Grand Portage was important for many reasons. A strategic geographical point in the trade route between the Great Lakes and the Canadian Northwest, it was best known as a trade depot and company headquarters in the period between 1765 and 1804.

For more than a century, trading posts in the American Southwest tied the U.S. economy and culture to those of American Indian peoples—and in this capacity, Hubbell Trading Post, founded in 1878 in Ganado, Arizona, had no parallel. This book tells the story of the Hubbell family, its Navajo neighbors and clients, and what the changing relationship between them reveals about the history of Navajo trading. Drawing on extensive archival material and secondary literature, historian Erica Cottam begins with an account of John Lorenzo Hubbell, who was part Hispanic, part Anglo, and wholly brilliant and charismatic. She examines his trading practices and the strategies he used to meet the challenges of Navajo exchange customs and a seasonal trading cycle. Tracing the trading post's affairs through the upheavals of the twentieth century, Cottam explores the growth of tourism, the development of Navajo weaving, the automobile's advent, and the Hubbells' relationship with the Fred Harvey Company. She also describes the Hubbell family's role in providing Navajo and Hopi demonstrators for world's fairs and other events and in supplying

museums with Native artifacts. Acknowledging the criticism aimed at the Hubbell family for taking advantage of Navajo clients, Cottam shows the family's strengths: their integrity as business operators and the warm friendships they developed with customers and with the artists, writers, archaeologists, politicians, and tourists attracted to Navajo country by its unparalleled landscapes and fascinating peoples. Cottam traces the preservation efforts of Hubbell's daughter-in-law after the Great Depression and World War II fundamentally altered the trading post business, and concludes with the post's transition to its present status as a National Park Service historic site.

[This] elegantly wrought narrative bears the Cartier hallmark."—The Economist The "astounding" (André Leon Talley) story of the family behind the Cartier empire and the three brothers who turned their grandfather's humble Parisian jewelry store into a global luxury icon—as told by a great-granddaughter with exclusive access to long-lost family archives "Ms. Cartier Brickell has done her grandfather proud."—The Wall Street Journal The Cartiers is the revealing tale of a jewelry dynasty—four generations, from revolutionary France to the 1970s. At its heart are the three Cartier brothers whose motto was "Never copy, only create" and

who made their family firm internationally famous in the early days of the twentieth century, thanks to their unique and complementary talents: Louis, the visionary designer who created the first men's wristwatch to help an aviator friend tell the time without taking his hands off the controls of his flying machine; Pierre, the master dealmaker who bought the New York headquarters on Fifth Avenue for a double-stranded natural pearl necklace; and Jacques, the globe-trotting gemstone expert whose travels to India gave Cartier access to the world's best rubies, emeralds, and sapphires, inspiring the celebrated Tutti Frutti jewelry. Francesca Cartier Brickell, whose great-grandfather was the youngest of the brothers, has traveled the world researching her family's history, tracking down those connected with her ancestors and discovering long-lost pieces of the puzzle along the way. Now she reveals never-before-told dramas, romances, intrigues, betrayals, and more. The Cartiers also offers a behind-the-scenes look at the firm's most iconic jewelry—the notoriously cursed Hope Diamond, the Romanov emeralds, the classic panther pieces—and the long

line of stars from the worlds of fashion, film, and royalty who wore them, from Indian maharajas and Russian grand duchesses to Wallis Simpson, Coco Chanel, and Elizabeth Taylor. Published in the two-hundredth anniversary year of the birth of the dynasty's founder, Louis-François Cartier, this book is a magnificent, definitive, epic social history shown through the deeply personal lens of one legendary family.

Ladies of the Canyons is the true story of a group of remarkable women whose lives were transformed by the people and

landscape of the American Southwest in the first decades of the twentieth century.

Grand Portage As a Trading Post: Patterns of Trade at the Great Carrying Place Fodor

This is the story of Billy Gene Malone and the end of an era. Malone lived almost his entire life on the Navajo Reservation working as an Indian trader; the last real Indian trader to operate historic Hubbell Trading Post. In 2004, the National Park Service (NPS) launched an investigation targeting Malone, alleging a long list of crimes that were "similar to Al Capone." In 2005, federal agent Paul Berkowitz was assigned to take over the year- and-a-half-old case. His investigation uncovered serious problems with the original allegations, raising questions about the integrity of his supervisors and colleagues as well as high-level NPS managers. In an intriguing account of whistle-blowing, Berkowitz tells how he bypassed his chain-of-command and delivered his findings directly to the Office of the Inspector General.

This magnificent novel by one of America's

finest writers is the epic of one man's remarkable journey, set in nineteenth-century America against the background of a vanishing people and a rich way of life. At the age of twelve, under the Wind moon, Will is given a horse, a key, and a map, and sent alone into the Indian Nation to run a trading post as a bound boy. It is during this time that he grows into a man, learning, as he does, of the raw power it takes to create a life, to find a home. In a card game with a white Indian named Featherstone, Will wins - for a brief moment - a mysterious girl named Claire, and his passion and desire for her spans this novel. As Will's destiny intertwines with the fate of the Cherokee Indians - including a Cherokee Chief named Bear - he learns how to fight and survive in the face of both nature and men, and eventually, under the Corn Tassel Moon, Will begins the fight against Washington City to preserve the Cherokee's homeland and culture. And he will come to know the truth behind his belief that "only desire trumps time." Brilliantly imagined, written with great power and beauty by a master of American fiction, *Thirteen Moons* is a stunning novel about a man's passion for a

woman, and how loss, longing and love can shape a man's destiny over the many moons of a life.

The Navajo rugs and textiles that people admire and buy today are the result of many historical influences, particularly the interaction between Navajo weavers and the traders who guided their production and controlled their sale. John Lorenzo Hubbell and other late-nineteenth-century traders were convinced they knew which patterns and colors would appeal to Anglo-American buyers, and so they heavily encouraged those designs. In *Patterns of Exchange*, Teresa J. Wilkins traces how the relationships between generations of Navajo weavers and traders affected Navajo weaving. The Navajos valued their relationships with Hubbell and others who operated trading posts on their reservation. As a result, they did not always see themselves as exploited victims of a capitalist system. Rather,

because of Navajo cultural traditions of gift-giving and helping others, the artists slowly adapted some of the patterns and colors the traders requested into their own designs. By the 1890s, Hubbell and others commissioned paintings depicting particular weaving styles and encouraged Navajo weavers to copy them, reinforcing public perceptions of traditional Navajo weaving. Even the Navajos came to revere certain designs as "the weaving of the ancestors." Enhanced by numerous illustrations, including eight color plates, this volume traces the intricate play of cultural and economic pressures and personal relationships between artists and traders that guided Navajo weavers to produce textiles that are today emblems of the Native American Southwest. On the sparsely settled Arizona

reservation lands, trading posts were important centers for commerce as well as social gathering destinations. With a subsistence economy, the posts offered opportunities to trade sheep, wool, and crafts for necessities such as flour, coffee, sugar (known as "sweet-salt"), and tools. Most often, traders were Anglos, living as partners among their Indian neighbors. They often were the only contact with the outside culture, and their stores provided an outlet for local arts such as rugs, pottery, baskets, and jewelry. Traders helped with correspondence, transportation, and sickness, and they even buried the dead. Trading posts were the sites of marriages and murders; they were destinations for artists, scientists, and adventurous tourists. With the coming of roads and automobiles, trading posts have all but disappeared, but the stories and photographs shared in this volume offer a glimpse into a vanishing time in the Southwest.
