Celebrating the Lictionary® for Intermediate Grades 2015-2016

Berrett-Koehler Publishers

The secret to finding out anything you want to know is amazingly simple: Ask good questions. Most people trip through life asking bad questions—of teachers, friends, coworkers, clients, prospects, experts, and suspects. Even people trained in questioning, such as journalists and lawyers, commonly ask questions that get partial or misleading answers. People in any profession will immediately benefit by developing the skill and art of good questioning. *Find Out Anything From Anyone, Anytime* will give you the power to: Identify and practice good questioning techniques Recognize types of questions to

avoid Know the questions required when hearing unconfirmed reports or gossip Practice good listening techniques and exploit all leads Determine when and how to control the conversation Gain real expertise fast Within professional interrogation circles, author James Pyle is known as a strategic debriefer—meaning there is no one around him more skilled at asking questions and getting answers. He has been training other interrogators in questioning techniques since 1989.

Ask the Right Questions; Get the Right Job SAGE Publications

Too often people go to interviews prepared only to answer questions. They study the tough questions for days hoping to give the right responses on D-Day. These same people treat the interview as a cross examination; they see themselves on trial, under the spotlight, deer in the headlights. People who are being interviewed need another attitude, an attitude that says, "I'm here to interview you, to see if I want to bring my talents and experiences to your organization." Most people don't know how to do this. However, if armed with a few questions, they can even the playing field and engage in a useful conversation with their hosts. This book provides a set of questions that are appropriate for any job

candidate to ask and allows candidates to participate in a dialogue, a conversation. Experience suggests that only a handful of questions are necessary in most interviews. Review all of the questions. Choose the ones that you believe provide you with the information you need. Learn to interview the interviewer!

Every day, four thousand American men become first-time dads. There are literally hundreds of pregnancy guidebooks aimed at women, but guys rarely rate more than a footnote. A Guy's Guide to Pregnancy is the first book to explain in "guy terms" the changes that happen to a guy's partner and their relationship during pregnancy, using a humorous yet insightful approach. Future fathers will find out what to expect when they enter the "Pregnancy Zone." They'll discover the right and wrong answers to Trick Questions like "Do I look fat?" They'll also learn baby-shower etiquette ("It's sooo cute!"), the truth about sex during pregnancy (yes, you can touch her) and Boys' Night Out (negotiate it), plus delivery room dos (stay upright) and don'ts (complain about missing the

big game). A Guy's Guide to Pregnancy is designed to be guy-friendly -- approachable in appearance as well as content and length. It is divided into forty brisk chapters, one for each week of the pregnancy. Frank Mungeam is the executive producer of local programs at the ABC-TV affiliate in Portland, Oregon, supervising the Emmy-nominated daily live talk show AM Northwest and the series Parenting in the 90's. Mungeam combines his years of expertise as a communicator and his personal experiences as an expectant dad to create a humorous yet helpful guide for guys.

Conducting Child Custody Evaluations Simon and Schuster

Over the past five to 10 years, there has been a significant increase in the use of child custody evaluations by the courts. At the same time, the issues have become more complex and difficult. In this book, the author provides a theoretical and practical understanding of many of the issues. A key component is the integration of disparate research findings into a comprehensive resource that will enable the evaluator and the court to understand these complex issues. A second

component is to provide a thorough understanding of the fact that divorce brings with it a set of complex needs, and evaluators and the courts must develop a paradigm for weighing these needs in a comprehensive manner.

Based on the bestselling *A Complaint Is a Gift* (over 275,000 copies sold), this accompanying workbook offers actionable tools that help individuals and organizations transform even the most extreme complaints into gifts that drive their business forward. *A Complaint Is a Gift* introduced the revolutionary notion that customer complaints are not annoyances to be dodged, denied, or buried but are instead valuable pieces of feedback—not to mention your best bargain in market research. Complaints provide a feedback mechanism that can help organizations rapidly and inexpensively strengthen products, service style, and market focus. Most importantly, complaints that are well received create customer loyalty. Built to be interactive and immersive, the workbook teaches a set of practices, approaches, and tools that anyone can use to navigate fraught

customer-facing interactions. It allows readers to practice Janelle Barlow's updated, more efficient three-step formula and enables employees to handle complaints with increased emotional resilience rather than taking them as personal attacks. *A Complaint Is a Gift Workbook* is packed with the necessary tools to view and treat complaints as a source of innovative ideas that can transform your business.

Help! I Need a Job Houghton Mifflin Harcourt

When the science project is due, this book comes to the rescue. With the trend toward hands-on learning, millions of elementary students have to do science projects. Typically, they mention this to their parents the night before the project is due. This book helps busy parents help their children create last-minute science projects using materials commonly found around the house. It features chapter breakouts grouped by science project subject, two-page spreads devoted to specific science projects, and factoids to get kids interested in the subject. Parents can quickly pick an appropriate project and spur their future scientists toward

success! Faith Hickman Brynie (Bigfork, MT) is a writer specializing in science and health; she holds a PhD in science education, curriculum, and instruction and is a frequent writer for the children's science magazine *Odyssey*, as well as the editor of various elementary school science textbooks.
