CRUSH Little, Brown

The New York Times bestseller, written by a former reporter for ABC News, that People magazine called “a transporting, enlightening book” tells the story of a fearless young entrepreneur who brought hope to the lives of dozens of women in war-torn Afghanistan. Former ABC journalist Gayle Tzemach Lemmon tells the riveting true story of Kamila Sidiqi and other women of Afghanistan in the wake of the Taliban’s fearful rise to power. In what Greg Mortenson, author of *Three Cups of Tea*, calls “one of the most inspiring books I have ever read,” Lemmon recounts with novelistic vividness the true story of a fearless young woman who not only reinvented herself as an entrepreneur to save her family but, in the face of ferocious opposition, brought hope to the lives of dozens of women in war-torn Kabul.

GOOD MORNING AMERICA BUZZ PICK • The Pulitzer Prize-winning playwright and co-writer of *In the Heights* tells her lyrical story of coming of age against the backdrop of an ailing Philadelphia barrio, with her sprawling Puerto Rican family as a collective muse. **LONGLISTED FOR THE ANDREW CARNEGIE MEDAL • ONE OF THE BEST BOOKS OF THE YEAR:** NPR, New York Public Library, BookPage, and BookRiot • “Quiara Alegría Hudes is in her own league. Her sentences will take your breath away. How lucky we are to have her telling our stories.”—Lin-Manuel Miranda, award-winning creator of *Hamilton* and *In the Heights* Quiara Alegría Hudes was the sharp-eyed girl on the stairs while her family danced their defiance in a tight North Philly kitchen. She was awed by her mother and aunts and cousins, but haunted by the unspoken, untold stories of the barrio—even as she tried to find her own voice in the sea of language around her, written and spoken, English and Spanish, bodies and books, Western art and sacred altars. Her family became her private pantheon, a gathering circle of powerful orisha-like women with tragic real-world wounds, and she vowed to tell their stories—but first she’d have to get off the stairs and join the dance. She’d have to find

her language. Weaving together Hudes’s love of music with the songs of her family, the lessons of North Philly with those of Yale, this is a multitythmic dive into home, memory, and belonging—narrated by an obsessed girl who fought to become an artist so she could capture the world she loved in all its wild and delicate beauty.

Why Women Have Sex Chronicle Books

The #1 New York Times Bestseller “An engaging look at the often head-scratching, frequently infuriating mating behaviors that shape our love lives.” —Refinery 29 A hilarious, thoughtful, and in-depth exploration of the pleasures and perils of modern romance from Aziz Ansari, the star of *Master of None* and one of this generation’s sharpest comedic voices. At some point, every one of us embarks on a journey to find love. We meet people, date, get into and out of relationships, all with the hope of finding someone with whom we share a deep connection. This seems standard now, but it’s wildly different from what people did even just decades ago. Single people today have more romantic options than at any point in human history. With technology, our abilities to connect with and sort through these options are staggering. So why are so many people frustrated? Some of our problems are unique to our time. “Why did this guy just text me an emoji of a pizza?” “Should I go out with this girl even though she listed Combos as one of her favorite snack foods? Combos?!” “My girlfriend just got a message from some dude named Nathan. Who’s Nathan? Did he just send her a photo of his penis? Should I check just to be sure?” But the transformation of our romantic lives can’t be explained by technology alone. In a short period of time, the whole culture of finding love has changed dramatically. A few decades ago, people would find a decent person who lived in their neighborhood. Their families would meet and, after deciding neither party seemed like a murderer, they would get married and soon have a kid, all by the time they were twenty-four. Today, people marry later than ever and spend years of their lives on a quest to find the perfect person, a soul mate. For years, Aziz Ansari has been aiming his comic insight at modern romance, but for *Modern Romance*, the book, he decided he needed to take things to another level. He teamed up with NYU sociologist Eric Klinenberg and designed a massive research project, including

hundreds of interviews and focus groups conducted everywhere from Tokyo to Buenos Aires to Wichita. They analyzed behavioral data and surveys and created their own online research forum on Reddit, which drew thousands of messages. They enlisted the world’s leading social scientists, including Andrew Cherlin, Eli Finkel, Helen Fisher, Sheena Iyengar, Barry Schwartz, Sherry Turkle, and Robb Willer. The result is unlike any social science or humor book we’ve seen before. In *Modern Romance*, Ansari combines his irreverent humor with cutting-edge social science to give us an unforgettable tour of our new romantic world.

Hailed as “an extraordinary novel of men at war” (*The Washington Post*) this is the book that inspired the TNT television series starring Eric Dane, Rhona Mitra, Adam Baldwin and Michael Bay as Executive Producer. The unimaginable has happened. The world has been plunged into all-out nuclear war. Sailing near the Arctic Circle, the U.S.S. *Nathan James* is relatively unscathed, but the future is grim and Captain Thomas is facing mutiny from the tattered remnants of his crew. With civilization in ruins, he urges those that remain—one-hundred-and-fifty-two men and twenty-six women—to pull together in search of land. Once they reach safety, however, the men and women on board realize that they are earth’s last remaining survivors—and they’ve all been exposed to radiation. When none of the women seems able to conceive, fear sets in. Will this be the end of humankind?

The Last Ship Simon and Schuster

On July 20, 1969, the world stood still to watch American astronaut Neil A. Armstrong become the first person ever to step on the surface of another heavenly body. Upon his return to Earth, Armstrong was celebrated for his monumental achievement. He was also—as NASA historian Hansen reveals in this authorized biography—misunderstood. Armstrong’s accomplishments as an engineer, a test pilot, and an astronaut have long been a matter of record, but Hansen’s access to private documents and unpublished sources and his interviews with more than 125 subjects (including more than fifty hours with Armstrong himself) yield the first in-depth analysis of this elusive, reluctant

hero.

In *For Queen & Currency*, investigative journalist Michael Gillard exposes a massive fraud and security scandal at Buckingham Palace which Scotland Yard and the Royal Household tried to suppress. Drawing on thousands of leaked documents and police sources, Gillard tells the inside story of a group of Royalty Protection officers who entertained a life of high-risk gambling, brown envelopes of cash and striking gangster poses on the throne of England while guarding the royal family and their secrets from terrorism and press intrusion. Paul Page, a young royal protection officer turned degenerate gambler, ran a hedge fund for cops during the credit and property booms. His Currency Club bet millions on movement in sterling and gold and paid investors returns beyond the dreams of avarice and financial logic. As word spread to other royal palaces, more protection officers and their friends piled in with savings and cheap loans from banks, many of which were running their own Ponzi scam. Page was hiding huge gambling losses and when the returns dried up a hit man threatened his family, sending the royal cop over the edge and on the rampage with a gun. Scotland Yard tried to spin the scandal to divert attention from its own regulatory failures. But Page refused to go quietly. His sensational trial became an arena to expose the elite royalty protection squad and the private life of a senior royal. "The Queen is going to be mightily pissed off," he warned. "[There was] an agreed understanding that what happened at Royalty stayed at Royalty." Not any more.

Assessing Aggression Thresholds in Dogs Random House Books for Young Readers

In the summer of 1974, a fourteen-year-old girl in Dolton, Illinois, had a dream. A dream to become an actress, like her idols Ron Howard and Vicki Lawrence. But it was a long way from the South Side of Chicago to Hollywood, and it didn't help that she'd recently dropped out of the school play, *The Ugly Duckling*. Or that the Hollywood casting directors she wrote to replied that "professional training was a requirement." But the funny thing is, it all came true. Through a series of happy accidents, Jane Lynch created an improbable--and hilarious--path to success. In those

early years, despite her dreams, she was also consumed with anxiety, feeling out of place in both her body and her family. To deal with her worries about her sexuality, she escaped in positive ways--such as joining a high school chorus not unlike the one in Glee--but also found destructive outlets. She started drinking almost every night her freshman year of high school and developed a mean and judgmental streak that turned her into a real-life Sue Sylvester. Then, at thirty-one, she started to get her life together. She was finally able to embrace her sexuality, come out to her parents, and quit drinking for good. Soon after, a Frosted Flakes commercial and a chance meeting in a coffee shop led to a role in the Christopher Guest movie Best in Show, which helped her get cast in The 40-Year-Old Virgin. Similar coincidences and chance meetings led to roles in movies starring Will Ferrell, Paul Rudd, and even Meryl Streep in 2009's Julie & Julia. Then, of course, came the two lucky accidents that truly changed her life. Getting lost in a hotel led to an introduction to her future wife, Lara. Then, a series she'd signed up for abruptly got canceled, making it possible for her to take the role of Sue Sylvester in Glee, which made her a megastar. Today, Jane Lynch has finally found the contentment she thought she'd never have. Part comic memoir and part inspirational narrative, this is a book equally for the rabid Glee fan and for anyone who needs a new perspective on life, love, and success. From the #1 bestselling author of The Bomber Mafia, the landmark book that has revolutionized the way we understand leadership and decision making. In his breakthrough bestseller The Tipping Point, Malcolm Gladwell redefined how we understand the world around us. Now, in Blink, he revolutionizes the way we understand the world within. Blink is a book about how we think without thinking, about choices that seem to be made in an instant--in the blink of an eye--that actually aren't as simple as

they seem. Why are some people brilliant decision makers, while others are consistently inept? Why do some people follow their instincts and win, while others end up stumbling into error? How do our brains really work--in the office, in the classroom, in the kitchen, and in the bedroom? And why are the best decisions often those that are impossible to explain to others? In Blink we meet the psychologist who has learned to predict whether a marriage will last, based on a few minutes of observing a couple; the tennis coach who knows when a player will double-fault before the racket even makes contact with the ball; the antiquities experts who recognize a fake at a glance. Here, too, are great failures of "blink": the election of Warren Harding; "New Coke"; and the shooting of Amadou Diallo by police. Blink reveals that great decision makers aren't those who process the most information or spend the most time deliberating, but those who have perfected the art of "thin-slicing"--filtering the very few factors that matter from an overwhelming number of variables.
