"We appreciate Roger Stone, he is one tough cookie." - President Trump
The sensational New York Times bestseller, now in paperback. Find out how and why LBJ had JFK assassinated. The Man Who Killed Kennedy: The Case Against LBJ hit the New York Times bestseller list the week of the 50th Anniversary of the assassination of President John F. Kennedy. Consummate political insider Roger Stone makes a compelling case that Lyndon Baines Johnson had the motive, means, and opportunity to orchestrate the murder of JFK. Stone maps out the case that LBJ blackmailed his way on the ticket in 1960 and was being dumped in 1964 to face prosecution for corruption at the hands of his nemesis attorney Robert Kennedy. Stone uses fingerprint evidence and testimony to prove JFK was shot by a long-time LBJ hit man—not Lee Harvey Oswald. President Johnson would use power from his personal connections in Texas, from the criminal underworld, and from the United States government to escape an untimely end in politics and to seize even greater power. President Johnson, the thirty-sixth president of the United States, was the driving force behind a conspiracy to murder President Kennedy on November 22, 1963. In *The Man Who Killed Kennedy*, you will find out how and why he did it. Legendary political operative and strategist Roger Stone has gathered documents and uses his firsthand knowledge to construct the ultimate tome to prove that LBJ was not only involved in JFK's assassination, but was in fact the mastermind. Skyhorse Publishing, as well as our Arcade imprint, are proud to publish a broad range of books for readers interested in history--books about World War II, the Third Reich, Hitler and his henchmen, the JFK assassination, conspiracies, the American Civil War, the American Revolution, gladiators, Vikings, ancient Rome, medieval times, the old West, and much more. While not every title we publish becomes a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.

In *Failure to Flourish: How Law Undermines Family Relationships*, Clare Huntington argues that the legal regulation of families stands fundamentally at odds with the needs of families. Strong, stable, positive relationships within families are essential for both individuals and society to flourish, but from transportation policy to the criminal justice system, and from divorce rules to the child welfare system, the law makes it harder for parents to provide children with the relationships they need.

This volume provides an exploration of the manifold ways pedagogy is enacted in cultural studies practice. Pedagogy in the book comes to stand as far more than simply the "art of teaching"; contributors explore how pedagogy defines and shapes their practice as cultural studies scholars. Chapters variously highlight the role of pedagogy in cultural studies practice, including formal, classroom situations where cultural studies is deployed to teach as part of degree or coursework programs, but importantly also as something removed from the formal classroom, as situated within the research act via public engagement or through social activism as a public pedagogy. In so doing, the book charts a course for understanding cultural studies as an active and engaged discipline interested in understanding cultural flows and production as sites of learning and exchange.

Abigail's Journey Bloomsbury Publishing

In an era in which our conception of what constitutes a "normal" family has undergone remarkable changes, questions have arisen regarding the role of the state in "normalizing" families through public policy. In what ways should the law seek to facilitate, or oppose, parenting and child-rearing practices that depart from the "nuclear family" with two heterosexual parents? What should the state's stance be on single parent families, unwed motherhood, or the adoption of children by gay and lesbian parents? How should authority over child rearing and education be divided between parents and the state? And how should the state deal with the inequalities that arise from birthright citizenship? Through critical essays divided into four parts—Adoption, Race, and Public Policy; Education and Parental Authority; Same Sex Families; and Birthright Citizenship—Child, Family, and State considers the philosophical, political, and legal dilemmas that surround these difficult and divisive questions. An invaluable resource in these contentious debates, *Child, Family, and State* illuminates the moral questions that lie before policymakers and citizens when contemplating the future of children and families.

Selling Yourself to Others Indiana University Press

After a hundred years the history of a great war waged by a successful nation is commonly reviewed by that nation with retrospective complacency. Distance dims the panorama; haze obscures the ragged gaps in the pageant until the long lines of victorious armies move smoothly across the horizon, with never an abyss to check their triumph. Yet there is one people who

cannot view the past through a mirage. The marks of the birth-pangs remain on the land; its struggle for breath was too terrible, its scars too deep to hide or cover. For us, the pages of the past turn all undimmed; battles, brutally etched, stand clear as our own hills against the sky--for in this land we have no haze to soften truth. Treading the austere corridor of our Pantheon, we, too, come at last to victory--but what a victory! Not the familiar, gracious goddess, wide-winged, crowned, bearing wreaths, but a naked, desperate creature, gaunt, dauntless, turning her iron face to the west. The trampling centuries can raise for us no golden dust to cloak the flanks of the starved ranks that press across our horizon. Our ragged armies muster in a pitiless glare of light, every man distinct, every battle in detail. Pangs that they suffered we suffer. The faint-hearted who failed are judged by us as though they failed before the nation yesterday; the brave are re-enshrined as we read; the traitor, to us, is no grotesque Guy Fawkes, but a living Judas of to-day. We remember that Ethan Allen thundered on the portal of all earthly kings at Ticonderoga; but we also remember that his hatred for the great state of New York brought him and his men of Vermont perilously close to the mire which defiled Charles Lee and Conway, and which engulfed poor Benedict Arnold. We follow Gates's army with painful sympathy to Saratoga, and there we applaud a victory, but we turn from the commander in contempt, his brutal, selfish, shallow nature all revealed. We know him. We know them all--Ledyard, who died stainless, with his own sword murdered; Herkimer, who died because he was not brave enough to do his duty and be called a coward for doing it; Woolsey, the craven Major at the Middle Fort, stammering filthy speeches in his terror when Sir John Johnson's rangers closed in; Poor, who threw his life away for vanity when that life belonged to the land! Yes, we know them all--great, greater, and less great--our grandfather Franklin, who trotted through a perfectly cold and selfishly contemptuous French court, aged, alert, cheerful to the end; Schuyler, calm and imperturbable, watching the North, which was his trust, and utterly unmindful of self or of the pack yelping at his heels; Stark, Morgan, Murphy, and Elerson, the brave riflemen; Spencer, the interpreter; Visscher, Helmer, and the Stoners.
