MARLEY DIAZ

The Young Ladies' Journal Houghton

Attention bread lovers! In the first of his famous books about Provence, Peter Mayle shared with us news of a bakery in the town of Cavaillon where the baking and appreciation of breads “had been elevated to the status of a minor religion.” Its name: Chez Auzet. Now, several hundred visits later, Mayle has joined forces with Gerard Auzet, the proprietor of this most glorious of Provençal bakeries, to tell us about

breadmaking at its finest. Mayle takes us into the baking room to witness the birth of a loaf. We see the master at work—slapping, rolling, squeezing, folding, and twisting dough as he sculpts it into fougasses, bâtards, and boules. Auzet then gives us precise, beautifully illustrated instructions for making sixteen kinds of bread, from the classic baguette to loaves made with such ingredients as bacon, apricots, hazelnuts, garlic, and green and black olives. There are tips galore, the tricks of the trade are revealed, and along the way Mayle relates the delightful history of four generations of Auzet bakers. One of Provence’s oldest and most delicious

pleasures is now available at a kitchen near you, thanks to this charming guide. Read, bake, and enjoy.

"An excellent idea for a book. . . . Next time I spend more than \$40 on an article of clothing, I'll run it by Linett first."
—The New York Times Book Review In a

culture where trends are born and die every minute, maintaining style and effortlessness at every age requires that little extra something—the cool factor. Being “cool” isn’t about chasing trends or defying age but about following a few key guidelines. Yes, the cool factor is a skill that can be learned! In this photo-packed guide, Andrea Linett, a famed personal stylist and founding creative director of Lucky magazine, offers easy-to-implement, actionable tips that will change the way women dress. The tips are modeled by real-life style icons like Kim Gordon of Sonic Youth and Christene Barberich, founder of Refinery29, as Andrea highlights the ingenious ways in which they skillfully pile on layers, or dress up denim for work or a party. The book is organized into chapters that

include wardrobe classics, denim, leather, suits, dressing up, and accessories, and features style hacks that turn an outfit into a masterpiece (choosing shoes that instantly slim you, combining tough and feminine pieces, and accessorizing a day-to-night look). Packed with useful lists and examples, this guide is the would-be stylish woman’s best friend.

Ten years ago, Nina Planck changed the way we think about what we eat with the groundbreaking *Real Food*. And when Nina became pregnant, she took the same hard look at the nutritional advice for pregnancy and newborns, finding a tangle of often contradictory guidelines that seemed at odds with her own common sense. In *Real Food for Mother and Baby*, Nina explains why some commonly held ideas about pregnancy and infant nutrition are wrongheaded--

and why real food is good for growing minds and bodies. While her general concept isn't surprising, some of the details might be. For expecting mothers and babies up to two years old, the body's overwhelming requirements are fat and protein, not vegetables and low-fat dairy--which is why, for example, cereals aren't right for babies, but meat and egg yolks are excellent. Nina shares tips and advice like a trusted friend, and in this updated edition, her afterword presents the latest findings and some newly won wisdom from watching her three children grow on real food.

This is the story of LSD told by a concerned yet hopeful father, organic chemist Albert Hofmann, Ph.D. He traces LSD's path from a promising psychiatric research medicine to a recreational drug sparking hysteria and prohibition. In LSD: My Problem Child, we follow Dr. Hofmann's trek across Mexico to discover sacred plants related to LSD, and listen in as he corresponds with

other notable figures about his remarkable discovery. Underlying it all is Dr. Hofmann's powerful conclusion that mystical experiences may be our planet's best hope for survival. Whether induced by LSD, meditation, or arising spontaneously, such experiences help us to comprehend "the wonder, the mystery of the divine, in the microcosm of the atom, in the macrocosm of the spiral nebula, in the seeds of plants, in the body and soul of people." More than sixty years after the birth of Albert Hofmann's problem child, his vision of its true potential is more relevant, and more needed, than ever.
