and double digit divisors with 1 section having remainders, multiplying and dividing by 10, 100 and 1000 with fill in the blanks. Solutions included.

**Division Word Problems** Multiplication and Division Word Problems

Bridges Intervention is a resource designed for mathematics intervention in Tier 2 environments providing targeted instruction and support within the RtI framework. Intended to complement regular math instruction, Bridges Intervention is ideal for small groups and can also be used with individuals. Students work with models that spur thinking and

build confidence--starting with manipulatives, moving to two-dimensional representations and then mental images. Organized by content rather than grade, progress monitoring is key to the program. Each focused, 30-minute session is matched to student needs.

The Multiplication & Division Quick Starts workbook includes multiplication and division with whole numbers, fractions, and decimals, as well as in word problems. Activities include models, quick drills, problems in vertical and horizontal format, explanations and examples, and reviews. Each page features two to four quick starts that can be cut apart and used separately. The entire page may also be used as a whole-class or individual assignment. The Quick Starts Series provides students in grades 4 through 8+ with quick review activities in science, math, language arts, and social studies. The activities provide students with a quick start for the day's lesson and help students build and maintain a powerful domain-specific vocabulary. Each book is correlated to current state, national, and provincial standards. Mark Twain Media Publishing Company specializes in providing engaging supplemental books and decorative resources to complement middle- and upper-grade classrooms. Designed by leading educators, this

product line covers a range of subjects including mathematics, sciences, language arts, social studies, history, government, fine arts, and character.
