Ding-How and Ah-So
hopped on the Magic
Wheel and began to run
as fast as they could. As
they did so, the wheel
slowly began to turn,
gradually gaining speed

with each turn. "Faster!"
Ding-How urged. "We
must run faster!" The two
little friends strained with
all their might to increase
their speed. At last the
Magic Wheel was spinning
very fast. "Hold on tight,
Mi-Tu!" Ding-How
shouted. "Don't let go!"
By now the wheel was
spinning wildly, and
everything became a blur.
There was a great rushing

of air, and suddenly, the
Magic Wheel disappeared!
What just happened? And
where were Ding-How, Ah-
So, and Mi-Tu? Have you
ever wondered what your
pets do when you're away
at school or hanging out
with your friends? You just
might be surprised if you
knew about their secret
lives! In this fantasy, you
will discover what a pet
hamster, white mouse,

and Siamese cat do while their human children are at school. Meet Ding-How, a very wise hamster; Ah-So, a mischievous little mouse; and Mi-Tu, a most dignified and brave cat. Follow their Magic Wheel into adventure, danger, and discovery. Each new adventure challenges them to work together in order to solve their predicament. In the process, they soon realize how much they depend on each other. Laugh at their encounters with a seagull and a giant nutcracker. Feel the heat

of a volcano, and look with them at the awesome dancing lights in the dark northern sky. Marvel with Ding-How, Ah-So, and Mi-Tu as they discover the wonders of the Great Creator, who made the heavens and the Earth. Join them, as they journey to Bethlehem, where they learn the true meaning of Christmas. Come along! Don't delay! Travel with them on their wonderful Magic Wheel of adventure and discovery!

Learn to communicate with your dog—using their language “Good reading for dog lovers and an immensely useful manual for dog owners.”—The Washington Post An Applied Animal Behaviorist and dog trainer with more than twenty years’ experience, Dr. Patricia McConnell reveals a revolutionary

new perspective on our relationship with dogs—sharing insights on how “man’s best friend” might interpret our behavior, as well as essential advice on how to interact with our four-legged friends in ways that bring out the best in them. After all, humans and dogs are two entirely different species, each shaped by its individual evolutionary heritage. Quite simply, humans are primates and dogs are canids (as are wolves, coyotes, and foxes). Since we each speak a different

native tongue, a lot gets lost in the translation. This marvelous guide demonstrates how even the slightest changes in our voices and in the ways we stand can help dogs understand what we want. Inside you will discover: • How you can get your dog to come when called by acting less like a primate and more like a dog • Why the advice to “get dominance” over your dog can cause problems • Why “rough and tumble primate play” can lead to trouble—and how to play

with your dog in ways that are fun and keep him out of mischief • How dogs and humans share personality types—and why most dogs want to live with benevolent leaders rather than “alpha wanna-bes!” Fascinating, insightful, and compelling, *The Other End of the Leash* is a book that strives to help you connect with your dog in a completely new way—so as to enrich that most rewarding of relationships. For years the federal government has sought to remotely control human behavior. Starting with the CIA projects MKULTRA and MKSEARCH in the 1950s, the American

public has been unwitting guinea pigs in a multitude of non-consensually performed experiments that have continued into the 21st century. Guinea Pigs takes readers on a journey into the darkest corners of U.S. non-consensual experimentation and the various technologies of control that have led to our current surveillance state. The recent revelations regarding the extent of NSA eavesdropping is only the tip of the iceberg. We are currently in an

information war and a mind war, where our privacy and autonomy as human beings are at stake. Guinea Pigs will arm you with the information needed to fight back against those who seek to eliminate human free will. Over the coming years, terms like "remote neural monitoring," "brain-mapping," and "electronic harassment" will become household words. To be one step ahead of the game, be prepared for the future with Guinea Pigs. **Can It Fly?** Workman

Featured as stories-within-the-story, the mini comics showcase each baby frog's perspective and individual art style. In this groundbreaking

Homemade for Hamsters features 20 easy projects for creating toys and exercise equipment for a hamster (and guinea pigs,

small rabbits, gerbils, and pet rats and mice, too). The projects use materials and tools commonly found around the home. Treats may also be used and the book includes a list of those that are safe and not safe for a hamster. The 20 projects are grouped according to the type of activities that hamsters enjoy and that enrich their life. Simple text explains how the projects meet these needs and how some just provide fun. The Nibble Necklace, for example, gives a hamster a

chewing workout, and it is great for climbing and swinging, too. The Maze simulates a wild hamster's search for food. Making the projects and understanding their benefits will help a child to bond with their pet and commit to its care. The projects are: Running Projects -- Wheel, Tunnels, Amazing Mazes, Obstacle Course Climbing Projects - - See Saw Tube, Climbing Wall with Ladder, Treehouse, Platform and Ramp, Swing, Bendy Bridge Digging Projects -- The Sand Bath, Miniature

Landscape with Digging Pit, Digging Tower Chewing Toys -- Walnut Shell Toy, Treat Tubes, Treat Ball, Nibble Necklace Resting Toys -- Hideaway Caves, Hammie Hill Hideout, Castle, Round House. Any and all hamster owners, regardless of age, will enjoy making these great projects as much as they will enjoy watching their pet having fun and staying fit and healthy. This book uses an engaging question and answer format that poses a question on one page and asks the reader to

turn the page for the answer. Questions and answers use repetitive text so children can guess whether a duck, a ladybug, a bat, or a dog can fly. An activity at the end asks children to guess which animals shown on the page can fly.
