Are you looking for a fun workbook to help you teach your child to write? Then you are in the right place! Take your child on an exciting journey through the entire ABC and all the numbers from 0 to 30 with: Letter And Number Tracing Book For Kids Ages 3-5: A Fun Practice Workbook To Learn The Alphabet And Numbers From 0 To 30 For Preschoolers And Kindergarten Kids! This exercise book introduces your child to writing letters and numbers in a playful and age-appropriate manner that will help him or her get to know the alphabet and the numbers 0 to 30. In this way, children are guided and optimally prepared for pre-school and primary school. The book is divided into sections: numbers and letters. The learning process is guided as follows: Letters Every letter is new territory for your child. The first step is to get to know the letter and practice through the correct pen guidance by simply tracing it. This is followed by a word

containing the letter you have just learned. So your child learns to put the letter in a word. Encourage your child to read the word aloud to directly practice the corresponding sound. Finally, your child learns to write the letter freely and independently. Numbers To understand the meaning of numbers, your child starts counting picture elements. Then, just as with letters, he or she will have to trace the numbers. As soon as they become more confident, free writing follows the number you have just learned, with guidelines ensuring that the number is placed at the correct height. In both areas, learning takes place in a meaningful and reliable structure that gives your child security and constantly encourages them to see their own progress. Parents can help their children work through this exercise book and provide the necessary support. After all, writing is not easy for every child. Parents should keep a special eye on the correct pen position and hand guidance and celebrate every milestone with their child. For both numbers and letters, encourage your child to speak out loud about what he or she has learned. The more senses are involved in the learning process, the faster and easier it is to learn. By completing this exercise book, your child will be able to write the lower and upper case letters from A to Z, as well as the numbers 0 to 30. It is especially important that your child can work and learn at their own pace. This is the only way to keep the fun and become more confident in writing from letter to letter, or from number to number. A quick look at the most important facts of the book: Suitable for children from ages 3 to 5 Sensible structure that optimally accompanies the learning process Great preparation for pre-school and kindergarten A fun way to learn the numbers from 0 to 30 and the letters A to Z Designed and

sensibly structured to suit children Promotes correct pen management and concentration Lots of space for free practice Lovely designs Combine play with learning. Benefit from "Letter And Number Tracing Book For Kids Ages 3-5" and accompany your child within a meaningful structure on the way to writing letters and numbers! Get this book NOW!

This whimsical story of a little girl who wakes one morning to discover she has grown antlers has delighted children since it was first published 15 years ago. The perfect Christmas present for any kid looking forward to a visit from Santa's reindeer--or any reader looking for some year-long fun! The family doctor, the school principal, and even Imogene's know-it-all brother, Norman, fail to resolve her dilemma. Imogene, the cook, and the kitchen maid, however, make the best of things, finding unusual uses for Imogene's new horns. Meanwhile, the problem appears to be solved when Imogene awakes the next morning antler-free. But the family (and the reader) are in for a surprise when Imogene comes down to breakfast. . . .

I have made this Phonics Letter of the Week unit to address the Kindergarten(Prep) level of learning. The contents of this packet provide teachers with a variety of games, activities and worksheets to help teach correct letter formation, written letter identification and recognition of initial letter sound. My aim when creating this book was to provide a unit for teaching one letter of

the alphabet at a time. There is a great emphasis on letter sounds, which makes this an ideal tool for phonics teaching. There are 30 games, activities and worksheets that can be used to help you teach the letter Bb at the beginning of the year and to reinforce and consolidate what has been learnt throughout the year.

One day three white mice discover three jars of paint--red, blue, and yellow. Both parents and children alike will appreciate this lighthearted presentation of a lesson in color. "Walsh's cut-paper collage illustrations have bold colors and just the right simplicity for the storyline. A real charmer that's great fun as well as informative."--School Library Journal

M Is for Music Penguin

"Letter-a-week" may be a ubiquitous approach to teaching alphabet knowledge, but that doesn't mean it's an effective one. In *No More Teaching a Letter a Week*, early literacy researcher Dr. William Teale helps us understand that alphabet knowledge is more than letter recognition, and identifies research-based principles of effective alphabet instruction, which constitutes the foundation for phonics teaching and learning. Literacy coach Rebecca McKay shows us how to bring those principles to life through purposeful practices that invite children to create an identity through print. Children can and should do more than glue beans into the shape of a "B"; they need to learn how letters create words that carry meaning, so that they can, and do, use print to expand their understanding of the world and themselves.
