The Poop Puzzle Little, Brown  
Help remediate—and in some cases eliminate—autism and other developmental delays in young children, even in as little as 15 minutes a day with this toolkit of behavioral practices that can be taught at home. Developmental delays and signs of autism usually show up before 18 months of age, yet children are often not diagnosed until they are 4 or 5 years old. In *Turn Autism Around*, Dr. Mary

Barbera explains why parents can't afford to worry and wait in long lines for evaluations and treatment while not knowing how to help their children. She empowers parents, caregivers, and early intervention professionals to regain hope and take back control with simple strategies to dramatically improve outcomes for their children. Dr. Barbera has created a new approach to teaching kids with developmental delays that uses the science of Applied Behavior Analysis (ABA) married with a positive, child-friendly methodology that any parent can use—whether or not their child has

delays—to learn to teach communication skills, socialization strategies, as well as tackle sleep, eating, potty training, and behavior challenges in a positive, effective, and lasting way. *Turn Autism Around* is the first book of its kind that calls attention to an important fact: parents can make a tremendous impact on their child's development through behavioral practices taught at home, even in as little as 15 minutes a day. Her program shows these autism and developmental delays can be remediated, and in some cases, delays can be caught up altogether, if parents intervene while

the child is young. This book is for parents of young children aged one-to-five years who are passionate about helping their child as well as learning how they can change the trajectory of their child's and family's life.

A revolutionary way to raise and train your dog, with “a wealth of practical tips, tricks, and fun games that will enrich the lives of many dogs and their human companions” (Dr. Ian Dunbar, veterinarian and animal behaviorist). Zak George is a new type of dog trainer. A dynamic YouTube star and Animal Planet personality with a fresh approach, Zak helps you tailor dog training to your pet’s unique traits and energy level—leading to quicker results and a much happier pup. For the first time, Zak has distilled the information from his hundreds of videos and experience with thousands of dogs into this comprehensive dog and puppy training guide that includes:

- Choosing the right pup for you
- Housetraining and basic training
- Handling biting, leash pulling, jumping up, barking, aggression, chewing, and other behavioral issues
- Health care essentials like finding a vet and selecting the right

food • Cool tricks, traveling tips, and activities to enjoy with your dog • Topics with corresponding videos on Zak’s YouTube channel so you can see his advice in action Packed with everything you need to know to raise and care for your dog, this book will help you communicate and bond with one another in a way that makes training easier, more rewarding, and—most of all—fun!

*Choosing the Perfect Puppy* Random House

Stop changing diapers?start potting your baby. Over half the world's children are potty trained by one year old, yet the average potty training age in the United States is currently three years old. This leaves parents wondering: What did people do before diapers? and How do I help my own baby out of diapers sooner?Elimination Communication, also known as EC, is the natural alternative to full-time diapers and conventional toilet training. Although human babies have been pottied from birth for all human history, we've modernized the technique to work in today's busy world.Go Diaper Free shows parents of 0-18 month babies, step-by-step, how to do EC with

confidence, whether full time or part time, with diapers or without. "Diaper-free" doesn't mean a naked baby making a mess everywhere - it actually means free from dependence upon diapers. With this book, new parents can avoid years of messy diapers, potty training struggles, diaper rash, and unexplained fussiness. Also helpful for those considering EC, in the middle of a potty pause, or confused about how to begin.This 6th edition includes a new section on The Dream Pee, a full text and graphic revision, more photos of EC in action, and a complete list of further resources.MULTIMEDIA EDITION: includes the book and access to private video library, helpful downloads, additional troubleshooting, and our private online support group run by our Certified Coaches. For less than the cost of a case of diapers, you can learn EC hands-on, the way it's meant to be learned.

3 Day Potty Training is a fun and easy-to-follow guide for potty training even the most stubborn child just 3 days. Not just for pee and poop but for day and night too! Lora’s method is all about training the child to learn their own body signs. If the

parent is having to do all the work, then the child isn't truly trained, but with Lora's method your child will learn when their body is telling them that they need to use the potty and they will communicate that need to you.

Puppies For Dummies Workman Publishing  
Your child is well on her way to being completely potty trained! Hooray! Except one thing...she refuses to poop on the potty. Unfortunately, this is a problem that many parents struggle with, and now there is finally a resource to address this issue specifically without having to read an entire novel about potty training. Full of expert tips and tricks, *The Poop Puzzle* is a concise, easy-to-read guide that will help you understand the reasons why your child won't poop on the potty and the best ways to address the problem. So, whether your child is terrified of the potty, or just downright stubborn, this book will have your little one pooping where they should be in no time flat.

3 Day Potty Training Lora Jensen  
The beloved, bestselling potty-training classic, now re-released for a new generation! An elephant makes a big poop. A mouse makes a tiny poop.

Everyone eats, so of course: everyone poops! Taro Gomi's classic, go-to picture book for straight-talk on all things "number 2" is back, as fresh and funny as ever. • Both a matter-of-fact, educational guide and a hilarious romp through poop territory • Filled with timeless OMG moments for both kids and adults • Colorful and content-rich picture book The concept of going to the bathroom is made concrete through this illustrated narrative that is both verbally and visually engaging. *Everyone Poops* is just right for potty-training and everyday reading with smart, curious readers. • Perfect for children ages 0 to 3 years old • Equal parts educational and entertaining, this makes a great book for parents and grandparents who are potty-training their toddler. • You'll love this book if you love books like *P is for Potty!* (Sesame Street) by Naomi Kleinberg, *Potty* by Leslie Patricelli, *The Potty Train* by David Hochman and Ruth Kennison.

The Love That Dog Training Program Hay House, Inc  
Whether you're looking to train a new puppy or to teach an older dog some new tricks, this easy-to-follow guide is for you.

Jen and Ryan Tate are expert animal trainers with years of experience helping dog owners to develop happy and confident pets. In this informative book they distil all their advice so you can feel prepared, stay in control and enjoy a great relationship with your new dog, including:  
– Choosing the right breed for you and your lifestyle – Preparing your home and the first 48 hours with your pup – House training and basic training – Socialisation and confidence-building – Play, exercise, tricks and rewards – Resolving common behavioural issues such as barking, digging and chewing – Ongoing learning and fun for teenage and adult dogs Clearly written and well organised, and with evidence-based training techniques, this is the perfect handbook for creating a stress-free and enjoyable bond with your puppy or dog.

Before and After Getting Your Puppy  
HarperOne

The celebrity dog trainer and Emmy-winning star of the CBS show *Lucky Dog* shares his training system to transform any dog—from spoiled purebred puppy to shelter-shocked rescue—into a model companion in just seven days. Each week

on Lucky Dog, Brandon McMillan rescues an untrained, unwanted, "unadoptable" shelter dog. In the days that follow, these dogs undergo a miraculous transformation as they learn to trust McMillan, master his 7 Common Commands, and overcome their behavior problems—ultimately becoming well-mannered pets and even service dogs. With his labor of love complete, McMillan unites each dog with a forever family. Now, in his first book, McMillan shares the knowledge he has gained working with thousands of dogs of every breed and personality to help readers turn their own pets into well-trained Lucky Dog graduates. Lucky Dog Lessons begins with the basics—building trust, establishing focus and control, and mastering training techniques. From there, McMillan explains his playful, careful, and kind approach to training the 7 Common Commands he teaches every dog: SIT, STAY, DOWN, COME, OFF, HEEL, and NO. Next, McMillan provides solutions to common canine behavior problems, including house training issues, door dashing, chewing, barking, and common mealtime misbehaviors. Lucky Dog Lessons includes easy-to-follow steps,

illustrative examples, tried-and-true tips and tricks, and photographs to demonstrate each technique. Throughout the book, McMillan shares inspiring stories about his favorite students and gives fans a behind-the-scenes look at the show and some of his most unique and challenging canine encounters, including some never-before-seen outtakes. Brandon McMillan believes that no dog is beyond saving, and the loving, positive, successful methods he offers will work wonders with even the most challenging dog. Create the happy pet family you want with Lucky Dog Lessons.

*How to Housebreak Your Dog in 7 Days (Revised)* Catapult

Cesar Millan—nationally recognized dog expert—helps you see the world through the eyes of your dog so you can finally eliminate problem behaviors. From his appearances on The Oprah Winfrey Show to his roster of celebrity clients to his reality television series, Cesar Millan is America's most sought-after dog-behavior expert. But Cesar is not a trainer in the traditional sense—his expertise lies in his unique ability to comprehend dog psychology. Tracing his own amazing

journey from a clay-walled farm in Mexico to the celebrity palaces of Los Angeles, Cesar recounts how he learned what makes dogs tick. In *Cesar's Way*, he shares this wisdom, laying the groundwork for you to have stronger, more satisfying relationships with your canine companions. Cesar's formula for a contented and balanced dog seems impossibly simple: exercise, discipline, and affection, in that order. Taking readers through the basics of dog psychology and behavior, Cesar shares the inside details of some of his most fascinating cases, using them to illustrate how common behavior issues develop and, more important, how they can be corrected. You'll learn:

- What your dog really needs may not be what you're giving him
- Why a dog's natural pack instincts are the key to your happy relationship
- How to relate to your dog on a canine level
- There are no "problem breeds," just problem owners
- How to choose a dog who's right for you and your family
- The difference between discipline and punishment
- And much more!

Filled with fascinating anecdotes about Cesar's longtime clients, and including forewords by the president of the

International Association of Canine Professionals and Jada Pinkett Smith, this is the only book you'll need to forge a stronger, more rewarding connection with your four-legged companion.

Brain Training for Dogs Yearling

**How Dogs Love Us** Bantam

The Monks of New Skete THE ART OF RAISING A PUPPY The authors of the classic guide How to Be Your Dog's Best Friend now tell you everything you need to know about the crucial first months of your puppy's life. From the decision to adopt a pup through the practical steps of choosing the right breed, preparing your home, caring for your new charge, and practicing basic obedience exercises, the Monks of New Skete offer clear, compassionate guidelines for raising a puppy. Renowned for breeding German shepherds, the Monks train their own beautiful dogs, and dogs of any breed, according to a unique program based on understanding canine behavior and

enhancing the bond between dog and owner. This communion begins in puppyhood and is based on deep respect and affection. Improper care, poor training, or a lack of attention during the early months can lead to problem behaviors that become increasingly difficult to alter as your dog matures. By learning to gently assert your dominance from the start, you'll build a lasting and loving relationship with your pup. This complete guide, illustrated with more than eighty black-and-white photographs, explains the stages of puppy development, how to communicate with your pup, how to begin a complete training program, and how to deal with common problems like chewing, jumping up, and paper-training. The kind of fulfillment a solid relationship with your pup can bring is demonstrated in the stories of three dogs who have assumed special places in their owners lives. The Art of Raising a Puppy is an essential source of wisdom, information, and inspiration for anyone who loves and cares for a puppy. As a community, the Monks of New Skete have been breeding, raising, and training dogs for more than twenty

years. New Skete Monastery is located in Cambridge, New York.

**Heart Berries** Random House

How to raise the perfect puppy A

revolution for dogs: Very few dog trainers have not been influenced by Dr. Ian Dunbar's dog-friendly philosophy. In the 1970s, Dr. Ian Dunbar sparked a dramatic shift in puppy training — away from leash corrections and drill-sergeant adult dog training classes based on competitive obedience and toward a positive approach using toys, treats, and games as rewards for teaching basic manners, preventing behavior problems, and modifying temperament. Before Dr. Dunbar there were no classes for puppy training, very few family dog classes, and not much fun in dog training. His positive approach revolutionized the dog training field, especially puppy training. Raising a great dog: Now, in *Before and After Getting Your Puppy*, Dr. Ian Dunbar combines his two popular puppy training manuals into one indexed, value-priced hardcover dog training book. In clear steps, with helpful photos and easy-to-follow puppy training milestones, he presents a structured yet playful and humorous plan for raising a

wonderful dog. Dr. Dunbar's guide is based around six developmental milestones: Your doggy education Evaluating puppy's progress Errorless housetraining and chewtoy-training Socialization with People Learning bite inhibition The world at large Fans of *The Art of Raising a Puppy*, *Training the Best Dog Ever*, or Zak George's *Dog Training Revolution*, will love Ian Dunbar's *Before and After Getting Your Puppy*. *How to Train Your Dog* Workman Publishing Learn to communicate with your dog—using their language “Good reading for dog lovers and an immensely useful manual for dog owners.”—*The Washington Post* An Applied Animal Behaviorist and dog trainer with more than twenty years' experience, Dr. Patricia McConnell reveals a revolutionary new perspective on our relationship with dogs—sharing insights on how “man's best friend” might interpret our behavior, as well as essential advice on how to interact with our four-legged friends in ways that bring out the best in them. After all, humans and dogs are two entirely different species, each shaped by its individual evolutionary heritage. Quite

simply, humans are primates and dogs are canids (as are wolves, coyotes, and foxes). Since we each speak a different native tongue, a lot gets lost in the translation. This marvelous guide demonstrates how even the slightest changes in our voices and in the ways we stand can help dogs understand what we want. Inside you will discover: • How you can get your dog to come when called by acting less like a primate and more like a dog • Why the advice to “get dominance” over your dog can cause problems • Why “rough and tumble primate play” can lead to trouble—and how to play with your dog in ways that are fun and keep him out of mischief • How dogs and humans share personality types—and why most dogs want to live with benevolent leaders rather than “alpha wanna-bes!” Fascinating, insightful, and compelling, *The Other End of the Leash* is a book that strives to help you connect with your dog in a completely new way—so as to enrich that most rewarding of relationships.

**Housetraining** Simon and Schuster

**Oh Crap! Potty Training** Zak George's Dog Training Revolution

When dealing with previously abused or naturally skittish dogs, it's easy to get frustrated. Often, all we want is to tell our beloved pets there is no need to be afraid. When Peggy Swager adopted two mill dogs from her local rescue center, all the books in the world couldn't help her ease her new pups. But what she was able to accomplish using her past experience training horses was astounding. This book brings to dog owners and dog trainers newer and proven ways to help resolve fear issues in their dogs, from being around people to aversion to being in a crate or traveling in a car. From explaining the root of his timid behavior, to handling aggression and adjusting your own tone of voice, you'll have all the information needed to make your companion feel safe and loved. Valuable for the average dog owner, rescue organizations, and dog trainers who have not had success with their fearful dogs.

**AllShihTzu's GIANT Book of Shih Tzu Care** National Geographic Books

As an unabashed dog lover, Alexandra Horowitz is naturally curious about what her dog thinks and what she knows. As a cognitive scientist she is intent on understanding the minds of animals who cannot say what they know or feel. This is a fresh look at the world of dogs -- from the dog's point of view. The book introduces the reader to the science of the dog -- their perceptual and cognitive Abilities -- and uses that introduction to draw a picture of what it might be like to be a dog. It answers questions no other dog book can -- such as: What is a dog's sense of time? Does she miss me? Want friends? Know when she's been bad? Horowitz's journey, and the insights she uncovered from studying her own dog, *Pumpnickel*, allowed her to understand her dog better, and appreciate her more through that understanding. The reader will be able to do the same with their own dog. This is not another dog training book. Instead, *Inside of a Dog* will allow dog owners to look at their pets' behaviour in a different, and revealing light, enabling them to understand their dogs and enjoy their relationship even more.
